We embrace the highest standards of ethical behaviour and transparency in every aspects

### INFORMATIVE

Regular updates and information for clients via web documentations, customer meetings and more

---

an **ERP** solution with high scalability  
**managing complex processes...**

## Integration of information **design & technology**

### THINK GLOBAL, BE LOCAL

#### Nativeness & Flexible User Interface

PrismERP's highly intuitive UI is praised by users along with its native culture in Implementation & Support

#### Integration & Interoperability

Web/e-Commerce, Attendance/IoT/Control Devices, PoS, VAT software and any external application can integrate with PrismERP's robust API

#### Versatile Licensing & Pricing Model

A dynamic pricing and licensing infrastructure enables users to match & select functionalities according to business needs and budget in each process area

PrismERP is a platform independent, ready and integrated ERP system for multi-dimensional business mostly used as a "business in a box". Since 2007, it has served numerous types of industries covering major business processes.

#### Mobility & Flexibility

Specialized mobile applications and web based access makes data readily available to users

#### Security & Compliance

Data is kept secured with built-in protections - Two Factor Authentication, Dynamic User Access Management, Time/IP Restriction, Active Directory Support

#### DATA Backup & Recovery

Diverse disaster recovery is achieved through automated backup to cloud server or to failover clusters which ensures 100% data security
