

Company Profile

Automatic Vehicle Locating System (AVLS)

Introduction

M2m Communications has been Bangladesh's leading vehicle tracking company since the 2011s. And while vehicle tracking remains the company's core business, the M2m Communications of today has evolved into a highly sophisticated technological company offering leading edge fleet monitoring solutions to both individuals and organizations throughout Bangladesh.

Company has earned massive reputе & goodwill throughout the Bangladesh and enjoying a privilege of being one of the dominated **vehicle tracking system manufacturers**, located in Bangladesh. Our company is offering an exclusive VTS product & solution, Mobile applications software, VMS software, Domain/Hosting facilities, any customized software solutions and integrations, etc. Furthermore, the company started its journey in the year 2011 under the guidance of Shamsheer Tauhid Ahmed, Managing Director of the company having profound experience in his respective field. We have manufacturing unit at Pantapath and Sales office at Dhaka. We have very skilled after sales service team with us. We are one of strongest company in terms of sales and after sales service in Bangladesh.

As far the infrastructure of the company is concerned we hold the best infrastructural facilities well equipped with modernized plant where all the operations get done. Moreover we have built an attitude of perfectionism in our professionals & engineers who are ready to encounter any hurdles come in the way of our success. With the help of latest version of technology and advanced machinery our engineers are trying to come out with the innovative methods and strategies which we implement on our products. We have appointed quality analysts who keep their eagle eyes over the entire manufacturing process, right from the purchasing of raw material to till the final production. Our quality control department is always vigilant for the best quality being supplied. Subsequently, we offer our sophisticated instruments and equipments at market leading prices.
