Professional bodies of TROYEE associates comprises Architects, Planners, and Engineers of various disciplines, Socio-economists, Environmentalists, Scientists, Sociologists, Economists, Financial Analysts, Project Management and Quality Assurance Experts. TROYEE associates also has an active panel of associate consultants and advisors with wide experience in various fields and internationally known in their fields of expertise. It has a comprehensive IT Division providing in-house computer facilities.

In terms of manpower strength, TROYEE associates is now having over 20 members of engineers, architects and professional staff of various discipline, majority of whom are highly qualified, experienced, skilled with wide knowledge of modern design and construction methods. They form a coordinated team to use the advanced technical resources available to them, thus ensuring that projects of whatever nature are designed and constructed which best suit the requirements of the clients and incorporate the most up-to-date technology and method available at that time.

TROYEE associates specializes in the provision of socio-economic survey, design, construction supervision and project management for clients in the governmental, private and public sectors and offers comprehensive package of services to its clients in various fields like; socioeconomic survey, town planning, regional planning, electromechanical engineering, highway engineering, transportation engineering, civil engineering, architectural, and power projects, water supplies, flood control and irrigation engineering, project feasibility study, etc.

As the Management of the Company we are fully aware of the need for the consultant engineer to keep abreast of changes and improvements in technology and for this reason TROYEE associates personnel are continually encourage to develop in their chosen fields.

Our aim at TROYEE associates is to be known as a multidisciplinary consulting firm with the ability to complete projects successfully in various fields of consulting services in which we specialize.

In the field of Project management, we have developed our expertise to include providing a specializes service in cost estimating, quantity surveying and plant equipment sourcing and procurement.

B. TROYEE Associates Objectives

Our aim at TROYEE associates is to be known as a multidisciplinary consulting firm with the ability to complete projects successfully in various fields of consulting services in which we specialize. TROYEE associates have been providing consultancy services in following fields of planning, architecture and engineering.

Expression of Interest (EOI) for

Consultancy Service for Preparation of Development Work Database (GIS Based Database of Roads, Drains and assets) of Mymensing City Corporation

PLANNING

Planning is the first step in implementation of any project and includes all kinds of urban, rural and regional developments like structure plan, master plan, detailed area plan, housing complexes, high-rise buildings and commercial and industrial facilities. The plans are prepared to maximizing the social positive impacts and minimizing the environmental negative impacts.

ARCHITECTURE

Architecture is normally the follow-up of the planning activities although it may be undertaken as an independent project as well. Such projects would include commercial and public facilities, housing and residential complexes, educational institutes, health care facilities with special emphasis on landscaping and creation of aesthetic environment.

ENGINEERING

TROYEE associates provides engineering services in development sectors, which include transportation planning and infrastructure, flood control, irrigation and water resources development, agriculture and forestry, municipal services, energy and power. TROYEE associates cover all the phases of infrastructure design and implementation starting from project formulation and feasibility study to preliminary and detailed design, construction supervision and post construction project evaluation.

D. TROYEE Bodies

All the affairs of the company, from technical to administrative, from general to specialized, are looked after by a Board of Directors. The Directors are full-time professionals who have robust exposure to consulting services from conceptual to services from conceptual stage to end product. Each of the Directors, under the direct supervision of the Managing Director, heads a cluster of interlinked disciplines commensurate to their knowledge, qualifications and experience and as such, commands full control over all activities constituting a project.

The Chairman, directly under the Board of Directors, looks after the policy and the strategic matters of the company, outside daily and routine affairs- thus maintaining an unbiased guardianship role for the effective interventions during the hour of need and on special cases that warrant impartial judgment. The Managing Director is the Chief Executive Officer looking after administration, management and all sorts of liaison, client and public relations as well as close monitoring of the development assignments entrusted by the clients. The Brief Administrative Structure is charted below.
