

Bangla Trac Communications Ltd.

Company Profile

1. Bangla Trac Communications Ltd.

Bangla Trac is a premium telecom service provider driven by innovation and commitment to quality. Bangla Trac was one of the first companies to get an IGW License making it a pioneer in this industry sector. Since its inception in 2008, Bangla Trac has diversified its portfolio well beyond the initial core business of premium quality voice termination to Bangladesh. Bangla Trac has always emphasized in excellence in service and now is a renowned brand all over the telecom world.

1.1. Services

Our wide range of innovative products and services are designed to enable our local and international partners to realize their full potential in target markets.

International Gateway (IGW):

Bangla Trac Communications Ltd has always focused on developing a highly scalable and robust network with multiple redundancies, considering the constraint of single submarine cable. As a result we have been able to provide premium quality voice termination to Bangladesh with maximum uptime. We have 280 plus direct interconnect with major Tier1 and Tier2 carriers of all major continents and carry over 4 billion paid minutes per year.

Wholesale Voice:

B-Trac international, our Singapore affiliate, is offering A to Z routes with special focus in Asia-Pacific, South Asia, Africa and Middle East. Our technical expertise, existing robust network, and vast number of direct interconnects made our transition to wholesale rather seamless and ensured rapid growth within a very short span of time.

Pin less Service:

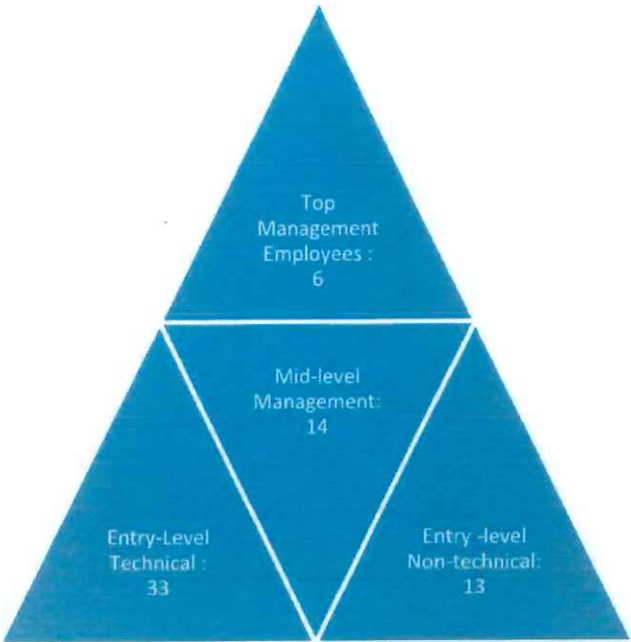

BanglaTracker is a premium quality prepaid Pinless calling service for making low cost international calls. Using BanglaTracker Pinless service one can make low cost international calls to 10,000+ destinations across the world without any compromise on voice quality.

Data Services:

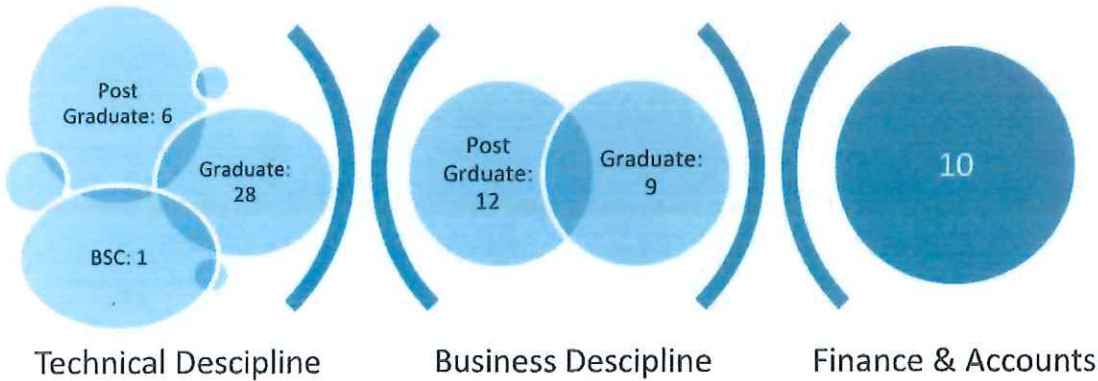

Our International Internet Gateway (IIG) license will facilitate deeper access into IP landscape of Bangladesh. Currently it is focusing on Wholesale Bandwidth, Bandwidth Exchange, SaaS & Cloud Services, Enterprise Solutions, Turnkey Power & Logistics Solutions, Business Process Outsourcing

Managerial-organogram Distribution:

Education-wise Employee Distribution
