About Us

PiNG is a brand of ICOM Bangladesh Limited, a Dhaka Divisional ISP, offering the best-in-class customer-focused internet experience. With a customer-centric approach, PiNG offers high-quality and reliable internet services to its customers since 2013.

PiNG Limited's circuit type is IP Transit service over Optical Interface using GEAPON technology allowing both IPv4 & IPv6. The company is not responsible for any congestion, broadcast, or multicast traffic originating from the client's LAN. Connectivity is handed over to the client's server/router.

PiNG is connected with multiple IIGs (International Internet Gateways), SEA-ME-WE 4 & 5 / Private ITC and offers auto redundancy or auto failover with multiple connectivity and uses BGP as a Routing Protocol. PiNG guarantees with 99.98% uptime and provides MRTG to measure internet speed for customers as per SLA with 24-hours monitoring of the circuit through its NMC at ICOM BD - Mohakhali Dhaka, Bangladesh.

In summary, PiNG Limited is a customer-focused ISP that offers innovative and disruptive technology to deliver joy, advantage, and success for people through a continuous pursuit of excellence in internet services. The company has a clear vision and mission to provide the best internet services to its customers and is committed to ensuring their satisfaction through cutting-edge technology, top-notch customer service, and competitive pricing.

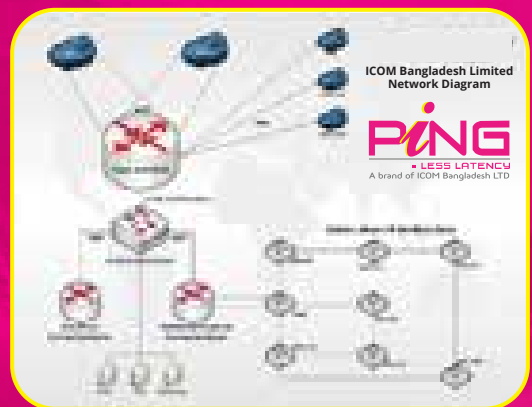

Our Services

PiNG provides internet services to both the Enterprise and Home segments.

PiNG's Enterprise Division provides IP-based secure, flexible, and robust enterprise solutions to corporates, including high-speed internet and data services.

PiNG's Home Segment Internet Service is innovative and disruptive technology that delivers joy, advantage, and success for people through a continuous pursuit of excellence in internet services.

PiNG's vision is to revolutionize broadband services by providing simple-to-understand yet state-of-the-art services that enable users to do so much more in their daily lives. We are committed to providing unparalleled internet services to our customers and are always looking for ways to improve our services to exceed our customer's expectations.
