Toll Roads in BANGLADESH

Everybody wants to arrive safely in their destination. Once the highway network around in Bangladesh is established, it will add comfort and improve welfare for Bangladeshi citizens.

Toll Road Concept

An appropriate road network is essential in supporting economic growth.

Therefore, the Government of the People's Republic of Bangladesh established Roads and Highways Department and Bangladesh Bridge Authority under Ministry of Road Transport and Bridges in order to planning, building, operation and maintaining toll road

and its facilities so that it function as the highway that gives more convenience than ordinary roads.

Area that are deserved of the priority of toll roads development are those which have high economic growth. Generally, the resident of such areas live wealthy. Taking into account the fact, the government decided to finance highway contraction using the fees collected from road user. In accordance with the positive laws, the ownership of the toll road lies upon the government and the toll road tariff is set forth by the Ministry.

The amount of the tariff should exceed the vehicle operating costs, should one uses ordinary road.

WE ARE THE EXPERT

“ Professionalism that is based on code of conduct will prominent and reliable human resources it is our belief that this will be the key to win the future competition. ”

Business Prospect

After the economic crisis is passed although still there are some problems to be taken care of we begin to regain the economic stability. People have recovered their enthusiasm in doing various economic activities and of course other activities as well it increases the traffic volume. On the other hand the vehicle sales figures is also increasing day by day. This means lesser room for traffic. The logic consequence is to develop more road, bridges, flyovers and toll road development is of the most attractive option economic wise.

O&M and Toll collection business can in synergy with others from of business such as bridges, flyovers, gas/fuel stations, restaurant, main market, workshop and advertisement in the rest area. This chain of business needs mutual support for mutual benefit and the management therefore needs to be transparent. To achieve this goal, Marga Net One Ltd. with work together with investors to establish this business chain.
