ABOUT COMPANY

Saffron Corporation Limited (SCL) over the last decade has consistently provided its customers with the state-of-the-art IT infrastructure and development solutions. Our clients have been able to rely on our ability to provide stable and consistent ICT development solutions. Using the state of the art backbone and infrastructure, we have ensured that our clients have had minimal worry when it comes to dependability of their IT Development. That in turn has ensured us an enviable list of blue-chip customers.

ORGANOGRAM

BUILDING LONG-LASTING, SOLID BUSINESS RELATIONSHIPS

Satisfaction isn't enough - our goal is enthusiasm it's means long-standing customers close and successful business relationships, motivated employees with profound knowledge

CORPORATE PHILOSOPHY

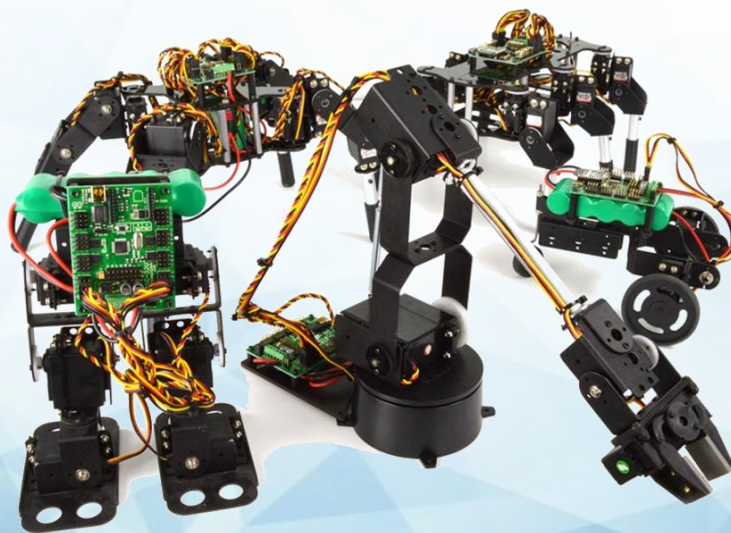

Our corporate philosophy establishes the fundamental principles of our management system. Our operational and performance standards translate the corporate values into specific management expectations. We preserve a high level of business ethics characterized by integrity and honesty in all our business actions.

INTELLIGENT, OPEN CONCEPTS OF FLEXIBILITY AND CONNECTIVITY

This is the basic philosophy for all our products. By providing a large scale of flexibility our customers can react to any situation. Standard interfaces facilitate communication with other programs.

ROBOTICS SECTOR

Saffron Corporation Ltd. is the first and only one working company in Robotics sector in Bangladesh. We have successfully completed the Robotics Lab at **Bangladesh University of Engineering & Technology (BUET)** under **Ministry of Information and Communication Technology (ICT)**. We are also working with the establishment of Robotics Lab for the **Department of Robotics & Mechatronics Engineering at University of Dhaka**.

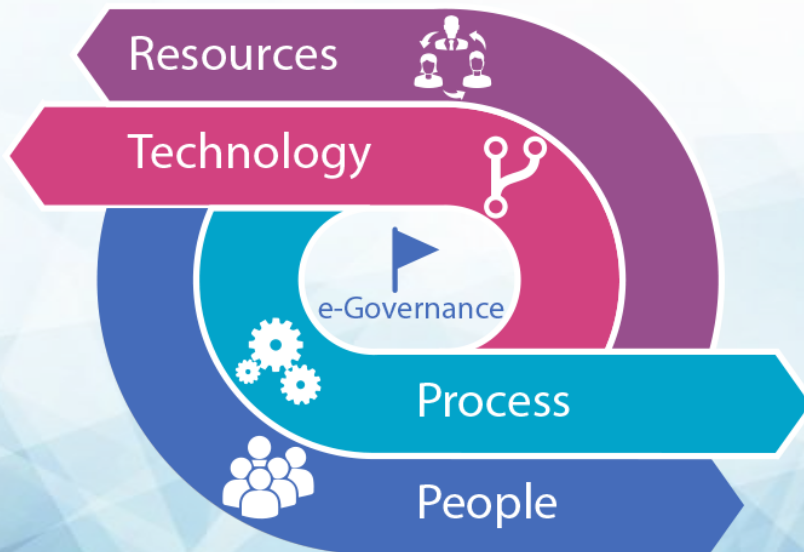

E-GOVERNANCE

Saffron Corporation Ltd. is one of the fastest growing player in the e-Governance sector in Bangladesh. Over a short span of its operations in this domain, SCL has developed a track record of developing software applications for government organizations, consulting and automation, rollout of e-Governance services projects to facilitate Government to Citizen (G2C), Directorate to Ministry (D2M), District to District (D2D), and District to Upazila (D2U) services.

- ☐ Enterprise Resource Planning (ERP)
- ☐ Document Archiving Software
- ☐ HR & Payroll Management System
- ☐ Business & Office Automation System
- ☐ Accounting & Inventory Software
- ☐ School/ College Management System
- ☐ Hospital Management System

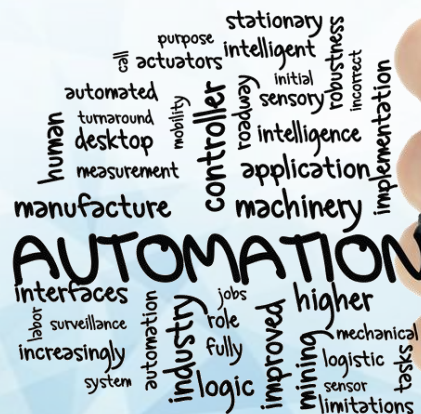

PROCESS AUTOMATION

A process automation or automation system (PAS) is used to automatically control a process such as chemical, oil refineries, paper and pulp factories. The PAS often uses a network to interconnect sensors, controllers, operator terminals and actuators. A PAS is often based on open standards in contrast to a DCS (distributed control system), which is traditionally proprietary. However in recent times the PAS is considered to be more associated with SCADA systems.

Ready to transfer your strategy into business processes! Get real expertise from SCL Consulting. We can help you ensure that every penny your organization spends on IT leads to increased business performance. Count on business and technology expertise that can make a real difference in how quickly you can meet your goals.
