ABOUT US

POD is a wing of Pathway. The latter, a renowned ad agency in Bangladesh, began its journey in 2008. As time went on, we began to realize it is not sufficient for small companies to do business applying only traditional marketing practices; they needed to have their own web identity alongside. With the realization, came the idea to develop a unit of Pathway that will focus on the Internet marketing for small to medium enterprises in Bangladesh. In October of 2014, we materialized the idea by creating Pathway Online Development, or POD in short.

Give us the best chance to help you out. Visit our website for more information and mail us or fill out the contact form, we'll get back to you just as soon as we can.
