

COMPANY

OVERVIEW

UX/UI - WEB/APP - RUBY ON RAILS

www.evatix.com

WHO WE ARE

Evatix is a boutique development shop with a specialization in creating web and mobile applications.

We are multidisciplinary teams of product **design** and **development** experts. We extend and fuel design departments of the most innovative tech companies and startups. Our studio is small, working with a few clients at a time.

Specialization in creating web and mobile applications.

- ✓ We believe design is a process
- ✓ We form one team with our clients
- ✓ We prototype and iterate

We've produced top quality applications with hundreds of clients for more than **13 years**.

SERVICES

Whether you're starting from scratch, migrating to development from another platform or in need of a refresh, you can **trust** our team to be as passionate.

We provide a wide array of **software design and development services.**

from building **Mobile applications** and **Web applications** to **User Interface design** and Quality assurance.

INTERFACE DESIGN

- Rapid prototyping
- Responsive design
- Visual design

LET'S MAKE SOMETHING GREAT!

We love building **meaningful** and
useful software products.

WORK PROCESS

01 DISCOVERY

Whether you're starting from scratch, migrating to development from another platform, or in need of a refresh, you can trust our team to be as passionate.

02 DESIGN

Our team will design a visually stunning experience for your customers that will translate beautifully across web, mobile, and social platforms.

03 DEVELOPMENT

This is where things really start to take shape as we integrate the design framework with the required functionality identified in Discovery.

04 QUALITY ASSURANCE

Prior to deploying the final website, we conduct a variety of tests to ensure it is cross-browser compatible and to evaluate its performance.
