Mrs. Rubina Surmin
CHAIRMAN

We are dedicated to take the IT industry of Bangladesh to the pinnacle of success with hard work. I believe Impossible is nothing when we move forward and work together rather than separately. We are maintaining market leadership in the growing Information Technology of industry. In addition to meeting high national and international standards, we aim to meet the needs of our customers with quality services, range and management. I accept the truth with my maximum essential task for each outline truth and encourage wishes for our team. Defining truth consists of being a practical approximation of all the matters that would pass incorrect so that we are organized to navigate the ones we challenge. Creating financially strong and doable organizations by investing in the correct technology and people while also reducing the costs and increasing revenue makes us totally dedicated to raising the business of our customers and partners.

Md. Faridul Islam Dipu
CHIEF MANAGING DIRECTOR

Positive thinkers see the invisible, feel the incredible and achieve the impossible. I accept the truth with my maximum essential task for each outline truth and encourage wishes for our team. Defining truth consists of being a practical approximation of all the matters that would pass incorrect so that we are organized to navigate the ones we challenge. As an IT Business Solutions and Information Security Services provider, our goal is to provide complete solutions for businesses. As a provider of advanced solutions, we want to continuously offer innovative and cutting-edge technologies that are supported by an effective customer service and support team. Our technology investments deliver full value to your company, regardless of its size, regardless of its technology proportions. "Always perform better than expected." "The only way a man can succeed is if he loves his work first."

M. Areful Islam Titu
MANAGING DIRECTOR

Every successful endeavor requires many little efforts, repeated each and every day. As an IT Business Solutions and Information Security Services provider, our goal is to provide complete solutions for businesses. We have earned the trust and respect of government customers for one simple reason—we have great people. They are experts in their fields. They bring a strong service ethos to everything they do. They take pride and ownership in the jobs they do. We bring passion, pride and experience together. We have only one objective: to ensure our clients mission objectives are achieved with the highest level of capability and assurance, and at the lowest possible cost. Our methodology ensures that each client needs are stood up on time and on schedule. Our clients come to us with confidence that we have the expertise to take service delivery to the next level of performance. I hope this provides you with a few reasons to get to know Alphasoft Technology Limited better. Whether you are a potential customer, a small business partner, or a future employee, we look forward to finding out how we can work together to bring service to life.

WORKING PROCESS

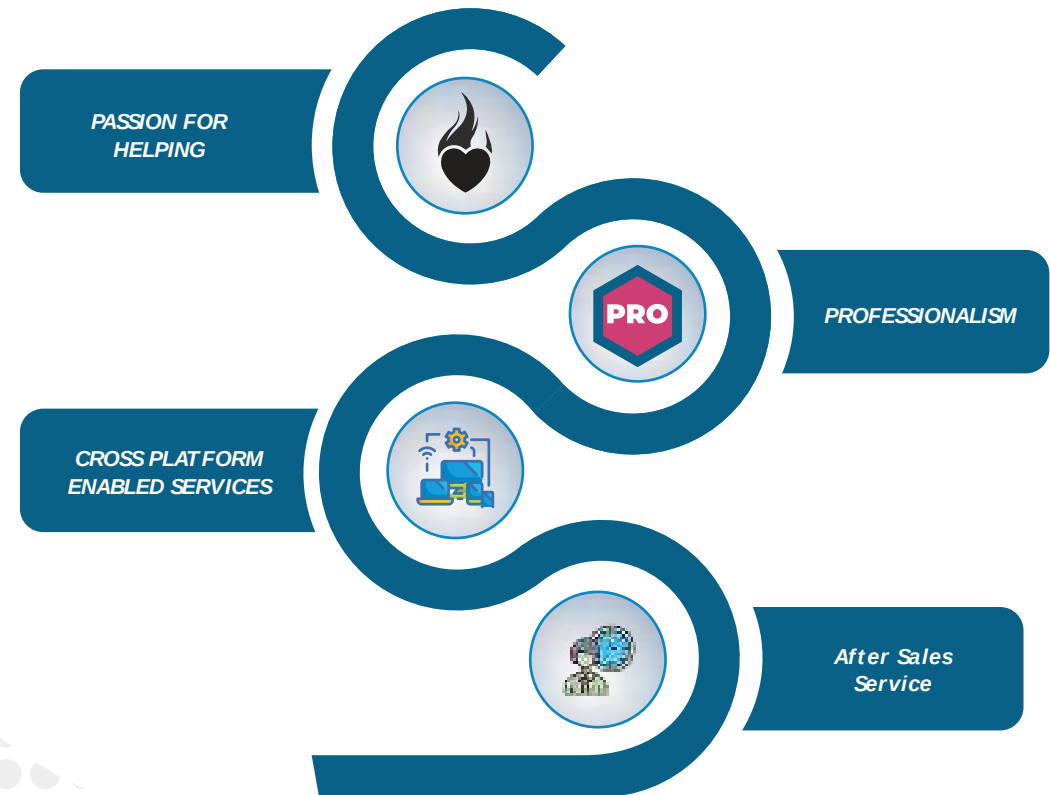

In order to become noticed, you need to know how to get started. We are dedicated to create solutions for our customers. As a provider of advanced solutions, we want to continuously offer innovative and cutting-edge technologies that are supported by an effective customer service and support team. Every single line of code or a piece of hardware Solution. We do it with extreme care and a proper analysis.

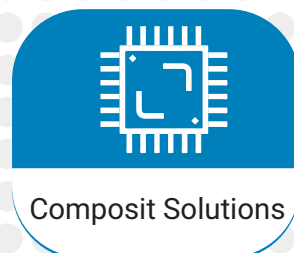

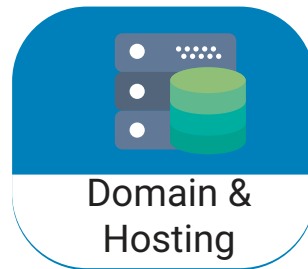

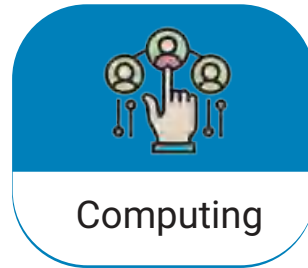

WHAT DIFFERS US FROM OTHERS?

We, Alphasoft just don't stop after selling a unique software / Hardware / Solution, We do take after sales service seriously, we know after sales service is the key part of offering a Solution, cause if you are facing any problem with the software, and can't reach out to help line, then what's the point of having a software/hardware/service? So if you are with us and whenever you will face a problem, our support team will be there...

THAT'S A PROMISE!

need IT solution? think alphasoft

We dedicated ourself into helping the companies to automate work- flow with our great softwares. Along with the explained services here, we are able to develop any kind of software you can think of!

need SECURITY solution? call alphasoft

In-order to run a great software, efficient hardware is a must. and we deliver qualitiful hardwares too! so that the software can operate in full efficiency and you get what you are paying for.
