From the very beginning, TVN has received significant appreciation for its dedicated support services. This reputation affirmed its position as a leading service provider in the industry. To ensure maximum availability of IT service delivery, TVN employs a vast pool of trained support personnel covering its support service across the country providing reliable 24/7 support. TVN enhanced the support system further for faster and effective online resolutions in order to reduce downtime. Also, we have service contracts with many other national and multinational companies for their mission critical IT system maintenance.

GROUP COMPANIES

 InGen An ADN Company	 ADN Telecom	 ADN Technologies
InGen Technology limited was established in 2007 with a view to develop sustainable renewable energy focusing on Solar Power. InGen installed over 17,000 Solar Home Systems , generating over 750 KWp solar power in the rural off grid areas of Bangladesh. InGen is a pioneer in converting BTSs (Base Transceiver Station) of the mobile telephone companies to be run by hybrid energy powered by solar and diesel.	ADN Telecom Limited is the core entity of ADN Group, a leading IT and Telecommunication service provider in Bangladesh. ADN offers wide range of voice, internet and data communication services to its clients, both in home and abroad. ADN started the journey in 2003, and within a short span of time, became a dominant market-player by providing seamless and secured connectivity.	ADN Technologies Limited, established in 2009, is one emerging player in the fields of ICT products, solutions and services in the country today. Company's main customer portfolio includes Banks & Financial Institutions, Telecommunication Service Provider Companies, Electronic Medias, Defense and Government. ADN Technologies owns a well trained and seasoned sales and technical team to serve its valued clients in all segments.
