ABOUT US

The journey of the [UYS LAB](#) started with the aim to contribute in creating skilled human resources in the IT industry of Bangladesh. The UYS LAB is one of the sister concerns of ISO certified (9001-2008) software development and Web Solution provider Company UY Systems. The UY Systems, which started its colorful journey in the year of 2003, has a vast consumer market for its web and software solution in local and international horizon. Currently the UY Systems is providing IT services and solutions abroad, among them USA, UK, Canada, Australia, Germany, Malaysia, India, Nigeria and Netherlands are few to be noted.

One of the main objectives of the UYS LAB, is to create skilled and professionally committed IT experts, by providing world class training facilities, to contribute in the development of IT industry of [Bangladesh](#) as well as to make them capable enough to work in local and international IT industry and marketplaces. We have skilled and experienced trainer team, those make sure each student to become able to prove himself as a qualified professional in the competitive corporate world. UYS LAB ensures first strong basic knowledge on the course trainees get taught in. The UYS LAB believes in providing standard training facilities, which allows each trainees to become successful IT professionals and freelancers, so that those can contribute in local IT development for long run.

The course modules covered in each training program are arranged in the light of current IT trends and demands are seen globally, so that our students do not have to lag behind in coming future due to backdated training tools and subjects in comparison to the current global job market. Our project and internship oriented training program is based on the current theme and work used world widely, so that each student become able to earn right after finishing their training course. We need a large number of manpower for our production house and official work, we fulfill this shortcomings by hiring meritorious and hardworking deserving candidates from our in house trainees who are highly capable of holding these positions.

OUR INSTITUTIONAL PURPOSE

To provide innovative and up to date IT training service.

To become recognized as one of the most trusted IT training institutes among trainees.

To become recognized as one of the most trusted IT training institutes among trainees.

To become an honorable part of developing Digital bangladesh project by the Ministry of Information, Communication and Technology, by creating skilled and professional IT professionals.

Being recognized as one of the well established IT training institutes of Bangladesh in the global market.

Being recognized as one of the well established IT training institutes of Bangladesh in the global market.

To become recognised as the best IT training institution in three different categories, they are creating skilled human resource, providing international standard certification and qualified training institution.

OUR MISSION

To become recognized as one of the most successful IT training institutions in Bangladesh, where professional IT training facility will be offered along with international IT training facility.

OUR GOAL

Short Term

In the next one year, to establish UYS LAB as one of the most trusted IT training institutes in Bangladesh.

Mid Term

In the next three years, to build UYS LAB as one of the best IT training institutes in Bangladesh.

Long Term

In the next five years, to launch couples of UYS LAB's own marketplaces to provide job opportunity for more than thousands of freelancers and workers in Bangladesh.

UY SYSTEMS

SISTER CONCERN

FARHANA A. RAHMAN

CHAIRPERSON

UYS LAB

Farhana A Rahman is one of the most successful individuals among the very few selected successful women entrepreneurs in the IT Industry of Bangladesh. She is also considered as currently one of the successful entrepreneurs in Bangladesh. In order to create opportunities for the development of talented human resources of our citizens in the IT industry of Bangladesh along with creating huge employment opportunity, her talent and vision towards the implementation of the Digital Bangladesh dream is far-reaching. In her 14 years old long career, she has already received several respectable rewards as a successful women entrepreneur. She has shown her every business endeavor as a medium of overall socioeconomic development, not being confined in the business purpose only. In addition to make our young people efficient in IT sector, especially to motivate more women participation in IT a formal affiliation took place with Bangladesh Women in IT (BWIT) in order to undertake various IT related projects.

As a milestone in the software industry of Bangladesh, she established the UY Systems in the year of 2003, which started its journey by developing simple types of softwares, but today a large portion of consumers of UY Systems's web and software solution are from the western part of the world. UY Systems VAT management software (VMS) is considered as one of the top five VAT management software companies listed by NBR. Among the softwares created by the UY Systems notables are - restaurant management software, hospital management software, ERP, HRMS and POS software.

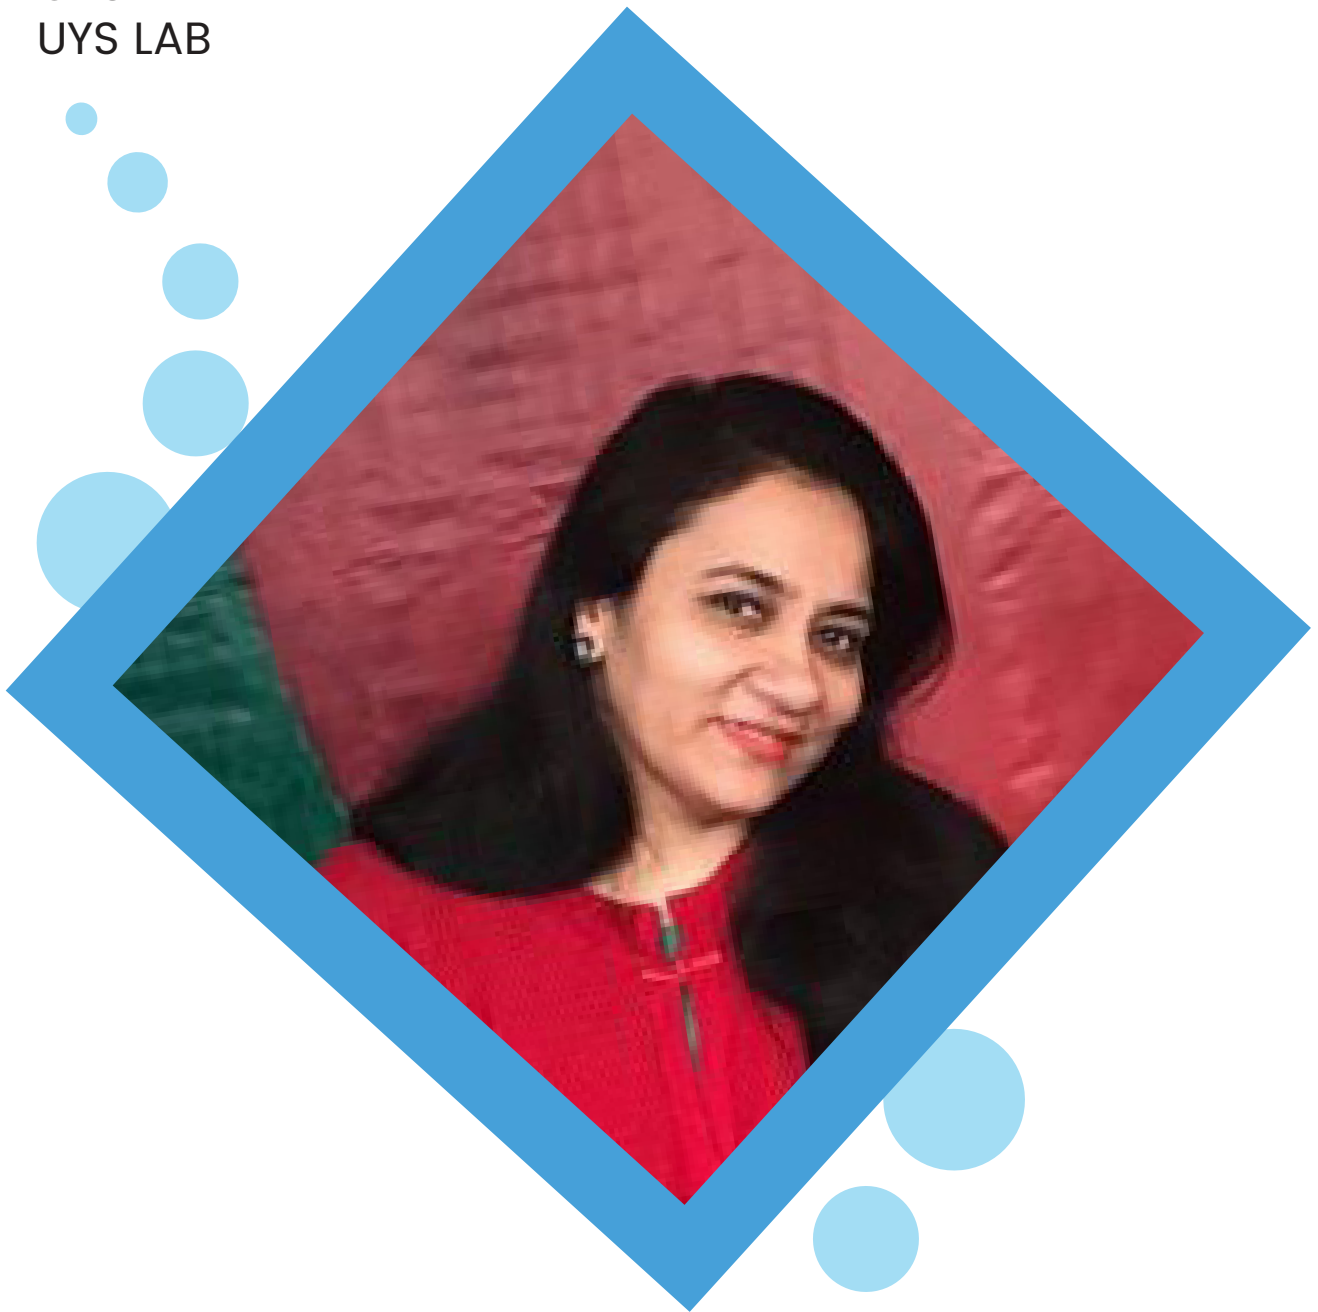

She has been associated with the Bangladesh Association of Software and Information Services (BASIS) with the aim to contribute in developing the information and technology industry since 2008 and is currently serving as the Vice President of BASIS. Basically she has been associated with the International Market Committee of BASIS as well as involved with promoting the software industry of Bangladesh in international market for a long time. The main objective of this initiative is to assist BASIS in providing support and proper patronage to native small financially aided IT companies, helping them to develop skilled human resources and branding and present them in the international market.

She has also been the head of the medical management and assistance portal "Health Prior 21", since 2011 for assisting people with better online health service. The purpose of this type of portal service is to reduce the gap of the time and labor between the doctors or the medical services and the patient those are suffering, so that the patient's can develop contact with doctors in one to one system. That will allow medical care and information services to be improved, and the patient's contact with the doctors can be faster.

We all have responsibility towards our society from the point of social, human values and norms. From that point of view, Farhana A Rahman has an active participation in Autism Child Welfare Associations as general secretary since 2013. In our country compared to the developed countries, autism and intellectual disabilities have always been ignored. Farhana A Rahman, is one of the few people in our country who came forward to improve this situation. She believes that if these deprived people are financially and socially mobilized through appropriate technical education and employment, it will become a key factor for future development of Bangladesh. She has already taken various projects to provide technical training and proper patronage on IT for this purpose.

ALIYA HAMID

CEO
UYS LAB

SHAHADAT HOSSAIN

COO
UYS LAB

CHIEF OPERATING OFFICER

Shahadat Hossain, the chief operating officer of UYS LAB, has always been recognized as a good professional within a little time duration by showing his deliberation and merit. In his 8 years of career, he has been well-known and popular among his students as a skilled guide. Since now, he has been working as successful freelancer, entrepreneur, founder and manager so far.

He started his career as a freelancer in Odesk in 2009. He was associated with more than 100 client's projects in Odesk from 2009 to 2011. Apart from ODesk, there are more than one hundred works are being exhibited in marketplaces like Envato Market, People Per Hour, 99 Design and Freelancer.com.

Later he joined as a Lead Trainer in "Take Sole BD" in the year of 2013. Where he was widely known as a successful mentor, because under his skilled training more than 100s of expert freelancers were trained up.

In 2014, he took charge as the departmental head of the Creative IT Institute, and the same year he established the local market place "Creative Divisor". In this marketplace currently there are working more than 100s of freelancers, whose designed products are being marketed internationally.

In 2016, he launched two more marketplaces, named "2 Dollar Market.com" and "Template Seller.com". In coming years, he has taken many initiatives like this. He hopes that such an initiative reduces the national unemployment rate to a large extent by bringing a large number of lazy people back into the work, which will ensure a standard quality of living of the overall unemployed youth society and the up coming generation of our country.

His responsibilities at UYS LAB includes managing organizational procedure as well as taking care of the organizational strategic plan, organizational planning and methods, policy making, proper implementation and development of institutional short and long term goals, and working to ensure the overall development of the UYS LAB by ensuring the success of future long-term plans. In addition, he Looks after the successful implementation of a new business process and business agreement, in order to accelerate the improvement of the overall organization, make sure the employees will be able to maximize the efficiency and each employees will perform at their level best. He thinks that the day is not far away when the UYS LAB will be one of the leading training institutes of IT industry in Bangladesh.

Jahidul Islam Jihad
