Background

Bangladesh is a hot bed for producing very good technical human resources who are known to adopt & learn anything new extremely fast. Due to socioeconomic conditions, these resources work at relatively low cost. But with proper channeling and a professional organizational structure these talented resources can contribute at the highest level and go on to reach the dizzying heights of the International Market.

With this in mind, we the group of young entrepreneurs, residing both in Bangladesh & USA, have taken this venture in January of 2013 to serve the clients globally with easily available, highly talented resources and also to address the local IT Service Industry with the latest top notch IT products and services

Strategy & Vision

GITS is a growing provider of global renowned solutions & outsourcing services serving B2B clients. We forge partnerships one customer at a time. Our policy is to accept assignments that we can deliver with quality. Our commitment is to WOW our customers with the level of attention they receive.

- To become a stable and leading technology service provider from Bangladesh serving globally.
- To become a top notch IT solution & service provider setting exemplarity instance for the local IT service industry.
