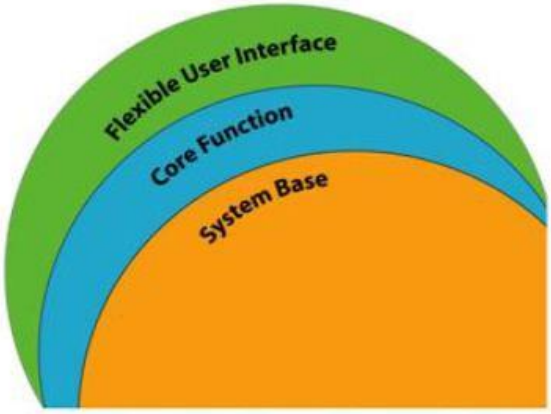
2.1 Design and Development:

Our research & development center utilizes 5 programmers and system testers, all of whom are university graduates. Total software solution is always improving. Development is guided by the operational requirements and best practices of our customers, who rank among the leading companies in their industry.

A significant portion of our revenues is directed toward research and development for the next generation of software.

2.2 Technical

System Architecture



The proposed solution will have three tiers; which are integrated with each other to control the work flow smoothly.

System Base: The System base is consisting of a stable and object-oriented database which speed up the efficiency.

Core Function: The core function encompasses, for example gather auto scale data, input and validate as per customer.

Flexible user Interface: The flexible user interface consists of the tools by which the interface can be customized at any time according to the business needs

2.3. Technologies:

Because of our advanced technology, **ShuktaraSoft** customers are always a step ahead of their competition. **ShuktaraSoft** develop **DMIS** for Hospital, Clinic and Pharmacy base organization**.**
Our company has gained extensive expertise in Microsoft technologies:

Development Tools

Item	Particular's
Platform	Desktop Application
Server	Windows Server 2019 and above
Customer	Windows 10 and above
Languages/Tools	VB.NET/Microsoft Visual Studio
Database	SQL Server
Report Tools	Crystal Report

3.1 Implementation of Software:

After completion of training program, the software will be implemented. All system set-ups, configuration data set-up will be done jointly by system experts and staff of customer. **ShuktaraSoft** will not be responsible for entry of opening data into the system. However, **ShuktaraSoft** will assist customer to enter the opening data.

4.1 Maintenance:

ShuktaraSoft agrees to provide support for the provided software (not hardware and third-Party software). **ShuktaraSoft** will inform **the customer** regarding any upgrade of the software. **The customer** will be responsible for providing all logistics support. If the **customer** agreed upon to receive monthly sales maintenance service, the Maintenance Fee shall be paid at the start of the maintenance period.
