

Jağori Technologies Ltd.
challenge the Limits

Serving Software & ITES Simply

COMPANY PROFILE

COMPANY OVERVIEW

Jagori Technologies Ltd. is an Information Technology company located in Dhaka, Bangladesh serving clients nationwide. Jagori Technologies Ltd. is the leading provider of business software solutions & training on software solutions partnering with the other best of breed technologies. We take up best practices developed over 15 years of services. We are extremely committed to delivering quality solutions, sales and support to assist our clients to achieve the maximum from their IT investment.

OWNERSHIP & MANAGEMENT

Jagori Technologies Ltd. registered with the Registrar of Joint Stock Companies & Firms as private limited company on September 22, 2020 by acquiring all assets, liabilities and goodwill of the proprietorship company Jagori Technologies Ltd. that was founded in the June, 2017.

COMPANY HISTORY

A team comprising of six members started their career in a software-aided business consulting firm in early 2006. Their main activities were business consultancy to shift from manual business operations to computerized business operations, providing right software, assistance in software installation, configuring the software as per business operations, training to the users and ensuring sustainable support. They carried forward their works in a continued learning process with a variety of experience in terms of customer, customer's need, limitations of software solutions etc. and obviously, with a high job satisfaction.

In mid 2017, when the owners of the company decided to switch their business domain, Ms. Naznin Nahar initiated to own the company with its all running activities and her fellows supported her in this acquisition process. Finally, she started to run the company in the name of Jagori Technologies Ltd. from June 2017 and all her colleagues remained with her.

Now, we are the largest company of our type in the country employing fifteen staff with the diversity and depth of skill to meet any computer technology requirement from home and small office workstations through to wide area networks and Internet.

In September 22, 2020 by acquiring all assets, liabilities and goodwill of the proprietorship company Jagori Technologies Ltd., a new journey has been started with the name "Jagori Technologies Ltd."

CORPORATE PHILOSOPHY

Our corporate philosophy establishes the fundamental principles of our management system. Our nationwide operational and performance standards translate the corporate values into specific management expectations. We preserve a high level of business ethics characterized by integrity and honesty in all our business actions.

CORPORATE VALUES

Jagori Technologies Ltd. commits to:

- adopting high standards of ethics in all its business actions and practices;
- providing its customers with high quality services, tailor-made to their needs and expectations;
- guaranteeing highly competitive services to its clients;
- engaging a highly skilled personnel supported by an effective organizational structure;
- implementing an 'equal opportunities' and 'environmentally friendly' policy; and increasing shareholders' value.

KEY SKILL AREAS

Conceptual Understanding

Jagori Technologies Ltd. understands the need of customers' best. A full-fledged team of appropriately experienced professionals-is the key to our success to understand customers' requirements better than anyone across diverse environments.

Level of Expertise

Jagori Technologies Ltd. has the most technologically advanced human resources who have been working in the field of IT since many years with a wide business solution experience.

Systematic Development Approach

Software development is one of the most complex tasks in the world. To produce any quality software, there is no alternative to a structured approach. Perfect route of structured development requires in-depth knowledge of the know-how and investment of both much time and resources. Partnering with best technology companies, Jagori Technologies Ltd. arrange the both know-how and remain as a big umbrella upon its head to support quality ventures. Jagori Technologies Ltd. has software development facilities through joint collaboration mostly with Best Business Bond Ltd. (3BL).

Sustainable Support

Any quality software means flexibility and must be equipped with a rich design for change management. Requirements of present software users may change in course of time & will need to update the software. This is why, they need the software developer available to provide them with necessary modification support.

CLIENTS GET BENEFIT FROM

A team comprising of 15 staff - most 5+ years and many 10+ years
Proven client service model
Considerable range of combined technical knowledge and experience
Timely response to any issues
Cost efficient services
Fixed costs for easier budgeting

Our customer service team assists the technical team for enhancing client management and to provide a better level of service to our clients. They bring a wealth of operations and management experiences to the company. We are committed to ensuring that our often very busy technical team is resourced appropriately for the ultimate benefit of our clients.

HUMAN RESOURCES

Jagori Technologies Ltd. recruits well educated, flexible and ambitious people who thrive on change and challenge, are innovative, self-confident and accept responsibility by taking initiative and adapting to a stimulating healthy working environment.

We seek leadership traits, excellent communication skills, strong academic performance and relevant professional experience. Previous experience in multicultural environment can be very advantageous.

Jagori Technologies Ltd. intentionally recruits people from various disciplines, in order to allow for a transfer of experiences and bring people of different cultures together to achieve a common goal. The company offers highly competitive compensation packages and an excellent career development path. Our diverse workforce and multicultural environment helps our employees to balance their work and personal life. Our employees enjoy continuous learning and professional growth in a dynamic professional environment.

EQUAL OPPORTUNITIES

Jagori Technologies Ltd. is an equal opportunity employer and applies an Equal Opportunities Policy (EOP) for this purpose. This policy covers all aspects of employment, from advertising of vacancies, selection, recruitment and training to working conditions and reasons for termination of employment.

To ensure that this policy operates effectively we regularly monitor the working environment and take appropriate action if necessary. Our actions are directed to immediately eliminating unlawful direct and indirect discrimination and promote equality of opportunity.

Our long term aim is that all the society groups are proportionally represented in the composition of our workforce. Where necessary, specific steps are taken to help disadvantaged and/or underrepresented groups to compete for jobs on a genuine equal opportunity basis. Our EOP and the measures for its implementation have been defined on the basis of advice from relevant bodies and in consultation with representatives of our employees.
