

Business Profile of DataQuest Tech Ltd (DQtl)

Profile:

DataQuest is Business Process Outsourcing (BPO) & information technology solutions provider company in Bangladesh. It was incorporated on January 2017. We approach your needs with insight-rich strategy, brilliant creative and intelligent technology to consistently exceed expectations and keep your audience engaged. It's these experiences that create lasting connection that build brands. It focuses on your back office functions so that you can focus on your business. DQtl's extensive outsourcing expertise and personalized service delivery model will dramatically improve the quality and efficiency of its client.

We work with a wide variety of business houses – multinational companies, local companies, private organizations and entrepreneurs. We aim to meet their diverse needs by putting our clients at the heart of everything we do and helping our clients to find effective solutions by combining industry insight with technical expertise. Our relationship-based service focuses on delivering tailored solutions to individual business needs.

What we do:

The future of brand and consumer interaction excites us. The unending progression of technology means there's a constant need for exploration and experimentation. Our culture lives and breathes the quest for innovation.
