ATC Tech Limited

Message from CEO

We have been able to create different class software successfully in the last 7+ years, so that my belief that it will be helpful to create necessary software in the future.

We have a group of skilled engineers through who are created through international quality software; in particular, we prioritize the quality of each application. Do not compromise in any way in the Quality, that the important data of the organization is not wasted for our small inadvertency.

We believe in our team's confidence and time control and also believe that our team is committed to providing the required software to any government or non-government organization in accordance with the contract.

We congratulate the government for all the plans it has adopted and are moving forward to be on part with the countries that are well-established in information technology today, and we are proud that every government and non-government organization in our country has taken advantage of information and technology. Go to the high peak.

Outside of the software on the IT platform, we collect the required products based on any brand-based hardware directly through the company representative, due to which we can deliver the best products to the customers.

With the sincere support of all, ATC is moving forward successfully today, with the help of whom all those well-wishers are part of us.

MD &CEO

- ❖ Education

The company that aims high at being focused on IT purpose with our clients, community and country. It also focuses on IT Support, Software Development, Software Testing, Project Management, Website and Quality Assurance etc. The company runs under the dynamic leadership of an enterprising key software developer engaged in the development of software for the new era of design concept and different way of media expression the country since 2016.

ABOUT COMPANY

ATC Tech Limited started its journey in early 2017. Our creative ideas and plans drive this company. This is where we really begin to visualize your napkin sketches and make them into beautiful pixels. The Company started its journey in the world of Information Technology with a small group of software developers with skilled technical resources. All the founders of this company have more than 5 years of experience in developing, managing, testing a number of software in different platforms, different architecture etc.

ATC Tech Ltd continues to operate with higher client expectancy and flexible solution offers. The Company is a pioneer in Interactive Virtual Teams (IVT) which enables the client and the service provider to establish and successful communication channels and support to various clients and near-shoring business models, thus keeping the deadlines on time and on track.

ATC Tech Ltd differentiation point comes with three simple principles:

- ❖ True collaboration with customers and partners
- ❖ Complete understanding of customers business
- ❖ Persistence in finishing the job whatever it takes.

The Company also have special expertise in custom software development-providing specialized products, IT services and custom end to end solutions to our enterprise customers. The Company gain competitive advantage from these distinctive capabilities and

have development the ability to implement and manage complex IT systems in changing times with greater effectiveness than many competitors.

Additionally, ATC Tech Ltd. is experienced in delivery, installation and support of large computer systems and networks and maintains a local spare part consignment store, providing back-up for customer systems in order to minimize the effects of possible faults. Service support is provided by ATC Tech Ltd. service facility based in Bangladesh. Its qualified staff is performing full servicing and repair of the equipment all over Bangladesh. Beside the normal working standard equipment, ATC Tech Ltd has equipment for testing, installation and technical validation of end user solutions.

Furthermore, the company offer reasonable Service Level Agreements (SLA) covering most of the additional maintenance service. With our 24/7/365 days per year support. The Company is making troubleshooting as easy as possible.

ATC Tech Ltd. is a company which intends to be in front of the client's needs, deeply understanding clients' business and delivering and optimizing IT solutions from the initial phase of scoping the requirements, up to the final delivery, maintenance and continuous upgrade. Infinite always look at the things from the customer perspective, but also from customer's customer perspective to grasp their real business need for the IT solutions they deliver.

Our team operates with enthusiasm and flexibility. We are focused on our customers, being their reliable partner for IT services and solutions, working together on a partnership basis, helping them face the challenges of the modern times.

MISSION STATEMENT

To provide state of art IT solutions with effective support services to business houses of home and abroad in this fast-changing world of economy.

ATC Tech Ltd mission includes:

1. Improving communication and data exchange (Business to Business).
2. Making access to information easier and securer (Enterprise Business).
3. Providing high quality software development services, professional consulting and development outsourcing that would improve our customers' operations.
4. Providing our customers with a Value for Money and
5. Providing our employees with meaningful work and advancement opportunities.

VISION STATEMENT

Embracing innovation, we strive to be a global leader in technology solutions, empowering businesses to thrive. We envision a future where seamless communication and data security fuel progress, while our team thrives in a culture of growth and impact.

GOAL STATEMENT

To be among the top 10 company in the existing industry by 2030, and to do any and everything within our best efforts that are necessary to achieve this. Through state-of-the-art IT services and software development, we partner with clients across industries. We optimize workflows, enhance security, and deliver reliable support, ensuring success and value for all. We believe in fostering meaningful work, empowering both clients and our dedicated team.

MANAGEMENT

ATC Tech Limited has a peaceful work place and standard professional culture to achieve organizational success. The existing environment of the company is quite good.
