About Us

Advanced Equipment Limited (AEL) started in Bangladesh with some visionary entrepreneurs who have been working in the LPG sector for more than a decade. We are agent of Siamgas & Petrochemical Public Co., Ltd. which is one of the largest LPG trading companies in Thailand. This company also has overseas operation in China, Vietnam, Singapore and Malaysia. They distribute LPG in the form of cargo to customer in most countries in East Asia. Our strength is in LPG business consultancy is particularly strong in Bangladesh. Many of the current local companies have worked with us to complete their LPG project. We are currently working with Parlym International, a French engineering company for the supply, erection & commissioning of turn-key projects in Bangladesh.

The business that deals with LP Gas, Oxygen, Nitrogen, Acetylene or any other Gas bottle needs a different inventory system rather than usual. The complexity of different brands and prices makes it even more difficult to manage. Our LPG & Gas business solution solves all the business complication for the companies, distributors or dealers. At any point the inventory is easily visible, item wise profitability, and reports of different types are available. We provide high-quality Customized Software, Complete ERP Software**,** Website Development, Digital Marketing, Graphics Designing and 2D/3D Animation Service.
