Business Description	The company was founded by non-resident Bangladeshi's (NRB) with experience in financial markets at some of the world's most prestigious investment banks and assets management companies. Operating in the broader financial sectors, Bangladesh RACE Management PCL has been conducting extensive research on the Bangladesh Equity Markets. In the course to develop the capital market, RACE found a high demand and must require automation in capital market related entities. RACE Management has operation on automated research tools, hi-tech operation system and in vast financial administration automation system. In 2013 RACE has separately started a business unit with a skilled software developers' team along with its core business. The objective of the business unit is to develop operational and market research software's and serve for commercial purpose locally and internationally. The Wall Street business operation and research experience help us to develop international standard software for globally. RACE have very dynamic team in its specialization working area. It's started to marketing and sell these software to market and got very good response especially from capital market intermediary. RACE have total 105 staffs currently working. Out of which 4 are contractual and rest are the permanent. 55 persons are working for regular operational support (HR, Admin, FAD & customer care). Balance resource are fully engaged for software & ITES services. Business and marketing teams are working together with the prompt support to customer. The employees are enjoying Provident fund and security fund benefit since inclusion in membership along with other benefit.
