Our Ethics

Technology | **Innovation** | **Quality** | **Customer Satisfaction** | **Win together**

We aim to be the best at what we do. Softtech71 has a dream of evolving into a Global IT Company, ensuring that the solutions being delivered include best practice in IT with the chosen area of technology.

- ☐ We operate with complete focus to Maximize customer satisfaction.
- ☐ Develop and encourage an environment of mutual respect within company and extending it beyond to clients.
- ☐ Encourage commitment and personal learning of workforce.

We are proud to have built our organization on the strong pillars of integrity, honesty, and self-respect.

At Softtech71 we believe when creativity, technology and marketing combine through strategic planning incredible results are achievable. With the best interest of our clients in mind, our actions are always focused on conversions and business growth.

We are the bridge that brings together people, technology and business.

Our Difference

We view clients as partners, and our success is only measured by the success of our partners. So we put it all on the table in order to exceed expectations. We know each new project is a gamble, but there is no one we'd rather bet on than ourselves. At Softtech71, our culture matters. And it reflects in our work. Here, jobs are careers, not just a way to pay the bills. The finished product matters to us because it carries our name. Our staff is young, energetic and innovative, and we are never afraid to take risks in an effort to help our clients. Every member of our team is passionate about the programming, web as a communications medium as well as a marketplace. For every project, no matter how large or how small, we strive to not only meet your needs, but deliver a showcase in your field.

Our Success

Each of our projects starts with the simple question "How will you measure the success of this project?" Success is critical to our team; that success comes in the form of happy clients. To help us better understand the challenges of your project we try to establish not only the goals but what are your current returns, challenges and the opportunities for growth.

Our approach has yielded many successful products and happy customers over the years.

Our Team

Quality Assurance & Testing

All the software solutions developed undergo following cycle of testing:

Requirements Analysis:

Testing begins in the requirements phase of the software development life cycle.

Design Analysis:

During the design phase, testers work with developers in determining what aspects of a design are testable and under what parameter those tests work.

Test Planning:

Test Strategy, Test Plan(s), and Test Bed creation.

Test Development:

Test Procedures, Test Scenarios, and Test Cases & Test Scripts to use in testing software.

Test Execution:

Testers execute the software based on the plans and tests and report any errors found to the development team.

Test Reporting:

Once testing is completed, testers generate metrics and make final reports on their test effort and whether or not the software tested is ready for release.

Retesting the Defects:

In this cycle applications are passed through following

Levels of testing:

- ☐ Component testing tests the minimal software item that can be tested.
- ☐ Component integration testing exposes defects in the interfaces and interaction between integrated components.
- ☐ System testing tests an integrated system to verify that it meets its requirements.
- ☐ Acceptance testing allows the end-user or customer to decide whether or not to accept the product.
- ☐ After modifying software, either for a change in functionality or to fix defects, a regression test re-runs previously passed tests on the modified software to ensure that the modifications haven't unintentionally caused a *regression* of previous functionality.
