

KAZLA TECHNOLOGIES LIMITED

Corporate Profile
2019

KAZLA TECHNOLOGIES LIMITED

Kazla Technologies is a leading provider of integrated IT and Video Conferencing solutions that empower an organization to compete in the local as well as the global marketplace. Kazla builds large-scale IT infrastructure, software and connects Telco as well corporate resources using a range of methods, devices, and technologies. Kazla solutions help improve efficiency and productivity.

Kazla Technologies Limited already installed 2,000+ Video Conferencing Systems since its formation.

Kazla's team of professional consultants, engineers work with customers to assess their business needs, recommend architecture and technology, and implement a support model to fit their circumstances. Where appropriate, Kazla's Managed Services are employed to manage select components of a customer solution where they leverage our certified network engineers, 24 x 7 Network Operation Center, end-user Help Desk and professional support staff.
