COMPANY PROFILE

What We Are:

Technology is changing, reflects in day to day business and lifestyle. Companies not only looking for the latest technology with affordable cost fit with their budgets and achieve ROI, but also one-stop headache-free solutions where they will focus on their business to take it in the next level. It is a must to have a completely elastic and scalable capacity solution, which allows you to scale up and down as required with a pay what you use.

Zamzam IT is a leading IT service providing company in Bangladesh focused on providing customers with consulting, software development, and implementation services. Since our inception in 2019, we have provided custom solutions to customers across a wide range of industries including telecommunication, construction, real estate, healthcare, manufacturing, wholesale, e-commerce, and service sectors.

At Zamzam IT, we are building a next-generation company, helping organization to transform their business in digital ways with new technologies to achieve business goal ensuring customer experience. From start-ups to enterprise, from MNC to locals, we want to help companies and communities at large to achieve time to market by providing latest technologies and work as a team to ensure their journey successful with innovation, simplicity and by taking ownership to provide excellence in supports and integrity. Our innovative platform and grounded expertise allow businesses to offer professional customer service through next-gen tech products and services.

Our Mission and Vision:

Our vision and mission is an amalgamation of our corporate philosophy and our motto of providing next generation IT services. To envision, design and construct the most magnificent software development and web development services; to contribute tangibly in overall success of our customers and provide highest Return on Investment to our customers. Quality, Customer Satisfaction, Transparency and Corporate Responsibility are the pillars of our vision and mission and form the cornerstone of our approach that we bring to every engagement. In short our Vision & Mission can be easily summed up as "To use our industry insights and domain experience to our advantage and provide innovative, high quality, superior and cost effective solutions that brings overall growth to our customers."

Our Ethics:

At Zamzam IT, we believe when creativity, technology and marketing combine through strategic planning incredible results are achievable. With the best interest of our clients in mind, our actions are always focused on conversions and business growth.

Our Difference:

Lots of firms offer online marketing assistance. We view clients as partners, and our success is only measured by the success of our partners. So we put it all on the table in order to exceed expectations. We know each new project is a gamble, but there is no one we'd rather bet on than ourselves. At Zamzam IT, our culture matters. And it reflects in our work. Here, jobs are careers, not just a way to pay the bills. The finished product matters to us because it carries our name. Our staff is young, energetic and innovative, and we are never afraid to take risks in an effort to help our clients. Every member of our team is passionate about the programming, web as a communications medium as well as a marketplace. For every project, no matter how large or how small, we strive to not only meet your needs, but deliver a showcase in your field.

Our Success:

Each of our projects starts with the simple question "How will you measure the success of this project?" Success is critical to our team; whether that success comes in the form of happy clients, loyal site users or solid metrics. To help us better understand the challenges of your project we try to establish not only the goals but what are your current returns, challenges and the opportunities for growth. Our approach has yielded many successful products and happy customers' over the years.

Our Team:

Zamzam IT employs the best talent in the industry. With the objective to provide innovative software development and web development services, we have the right mix of experienced resources as well as fresh minds that bring fresh approach to the table. Keeping in mind the various sectors of the industry that we cater to, Zamzam IT employs highly skilled web designers, software engineers, programmers and business developers. At Zamzam IT, we believe that our resources are the building blocks of our organization and they represent the face of our organization. That is primarily the reason we stress upon employing the best minds. Every interaction that the customers have with our skilled resources, they can unique different experience that we bring on-board. All our resources and team members are committed to the overall growth and development and strive towards achieving this goal.
