About us:

“Fast Clipping Path” specializes in image editing and fixing all discrepancies of your image. Well, outsourcing image manipulators will save you money, time as well as reduce workloads, however, quality should also be taken care of.

At our company, you will get high-quality images delivered to you on time edited by professionals. It’s guaranteed. For any type of commercial photo editing needs, outsourcing an offshore company is the smartest modern way to get high-quality images at a cheaper rate.

With more than 80 in-house, 100+ freelance graphic designers and dedicated customer service operators, we are working 24/7 to make your images look perfect and way better than it used to be.

We are one of the fastest-growing photo editing service providers in South Asia. We are well known for providing high-quality image editing and retouching services at highly competitive prices. To date, we have successfully served more than 2,000 clients from all over the world.

Our team comprises of 80 graphic designers who work according to their shifts. We have 3 shifts of 8 hours each. This means that our company is available for work 24/7. With this workforce, we can deliver more than 2000 images per day. Alongside this, we have a live support team, who is ready to help our clients for any of their needs.

Furthermore, we have our own secure and dedicated data server for easy upload and download of the image files. Here we store all the images from our clients and also the edited ones as well. We ensure proper security of our clients’ photos, for the sake of our reputation, but most importantly for consumer satisfaction and privacy.

PROFESSIONAL PHOTOSHOP CLIPPING PATH SERVICES

When purchasing an item online, customers often take note of how well the product is presented on the picture. If the picture presents the product as lively as possible, then the visitor will be enticed to buy it. To achieve this effect, clipping paths are done to cut out the product and clean the background to make the product standout.

Doing clipping paths is not a piece of cake because it has to be precise, and needs a skilled pair of hands. If you need your photo's backgrounds to be edited through clipping paths, you can approach Fast Clipping Path.

PROFESSIONAL PHOTOSHOP IMAGE MASKING SERVICE

For products which have fine points such as hair and fur, it must look properly groomed in photos. To achieve this effect, image masking must be done on the photos to adjust the background in these fine points. With the help of Adobe Photoshop, people can edit these fine points but it can be a tricky task to do so.

If you want to get image masking done professionally, the designers at Fast Clipping Path can help you out.

PROFESSIONAL SHADOW CREATION SERVICES

To make a product look more natural in a photo, it is important that there is a light shadow behind it. Sometimes, these shadows do not appear very well in photos due to various factors. Fortunately, these shadows can be added through Adobe Photoshop. But, if you are not possessing any expertise in editing, you may end up putting the wrong type of shadow.

Therefore, hiring a professional photo editing company to do shadow creation is the way to go. If you want the best to do it for you, Fast Clipping Path is here to help.

PROFESSIONAL PHOTO RETOUCHING SERVICES

Professional photos seen in catalogues and other media are often edited before they are published. Some retouching is done on the skin, colors and many others. Usually, Adobe Photoshop is used to retouch these photos to make them perfect to view. However, everyone can't implement all these on their own.

Fast Clipping Path is here to save the day!

We are providing a wide range of photo touch-up services including Photoshop Retouching, Cheap retouching services, digital retouching, E-commerce Photo Retouching, Fashion Photo Retouching, Product Photo Retouching, Portrait Photo Retouching, High-end Photo Retouching, Jewelry Photo Retouching, and Wedding Photo Retouching. The aim of this service is to make your photo more appealing to a customer eventually leading to potential sale.

PHOTOSHOP GHOST MANNEQUIN EFFECT

Without ghost mannequin photography effect, you cannot showcase your apparel photos precisely to your customer. Because without mannequin joint, your photos will look bland and unattractive, and at times even fake. If you are new in apparel photography, you might wonder how big E-Commerce stores like Walmart, Nike, Adidas manages their product photography for E-Commerce store. Yes, they all outsource their ghost mannequin work from companies like us.

A good way to promote clothes and accessories for business is by using mannequins. But, using a mannequin to wear the clothes and accessories does not look good in photos since they look so pale and fake.

Fortunately, there is a way to make your photos stand out and Fast Clipping Path knows just how to do it.

PROFESSIONAL WHITE BACKGROUND PHOTO EDIT SERVICE

Product photos often look good when the product is placed in a clear and crisp background or surface. Often, a white background is preferred since it blends perfectly to any web page.

However, there are cases when there are backgrounds that are not purely white. While you can edit it with Photoshop, there is no assurance that you can do it right and to the fullest.

If you want it done perfectly and seamlessly, you can definitely reach out to us at Fast Clipping Path.

PHOTO GREEN SCREEN EXTRACTION SERVICE

When you hear about green screens, you usually think about sci-fi films because most of the CGI you see in these movies are done with a green screen. But, did you know that it is also used for professional photos?

Some studios offer green as one of the preset backgrounds for photos. But, with just a bit of editing with Photoshop, it could transform into a different location. Unfortunately, doing green screen extraction is tricky to do even if you have Photoshop.

So, who do you approach? Why, Fast Clipping Path of course!

PROFESSIONAL PHOTOSHOP DEEP-ETCHING SERVICE

When taking product photos, there will be parts that you do not like and want to remove. To remove this unwanted part, you can do deep etching with Adobe Photoshop and replace the unwanted part seamlessly.

If you are looking for a reliable Photoshop deep-etching service provider, then Fast Clipping Path can be your best partner.

RASTER TO VECTOR CONVERSION SERVICE

A raster image are photos which have a lower resolution and contains a lot of pixels. If you zoom in on them, you will mostly see the image breaking down and look like pixels.

Vector images keeps the quality of the image and it will not break down when it is zoomed. As a result, you can use them for any image that requires a different size.

Unfortunately, raster to vector conversion is tricky to do because it has to be done precisely. Fortunately, if you want to get your photos converted, you can ask Fast Clipping Path to do it for you.
