ENOSIS SOLUTIONS

Your Trusted Software Development Partner

COMPANY PROFILE

Company Overview

Enosis Solutions is an engineering powerhouse and a trusted partner for Software Development and Testing services. As a development extension of our clients, we develop Web, Desktop, and Mobile applications that are compelling, interactive, and easy to use. From our inception in 2006, we have been providing operational gains to start-up, emerging, and established software firms throughout North America and Europe.

Our approach is to become an extension of our client's development team. We seamlessly integrate into our clients' work processes, identify their complex technical needs, and deliver standout products based on expectations. We plan and provide frequent deliverables allowing our partners to see the project's progress in real-time.

120+
Clients Served

350+
Engineers

17+ years
Experience

INDUSTRIES SERVED

- Computer Software
- Information Technology
- Hospital & Health Care
- Telecommunications
- Airlines & Aviation Entertainment
- Environmental Services
- Financial Services
- Medical Device
- Mining & Metals
- Oil & Energy

Software Development Services

- Web Application Development
- Desktop Application Development
- Reengineering & Optimization
- Migration & Porting
- Mobile Application Development
- Localization
- Prototype Development
- Dynamics CRM Integration

CORE TECHNICAL EXPERTISE INCLUDES BUT NOT LIMITED TO:

Programming Languages	 C/C++, C#, Python, JavaScript, Java, Scala, Kotlin, Objective-C

UX Design Services

- User Experience Research and Analysis
- Interactive prototyping
- Wireframing and Sketching
- Comprehensive style guide preparation
- Creative, Minimalistic & Modern UI/UX Design
- Mobile-First UI/UX Design
- Responsive & Adaptive Design
- Accessibility and Inclusive Design

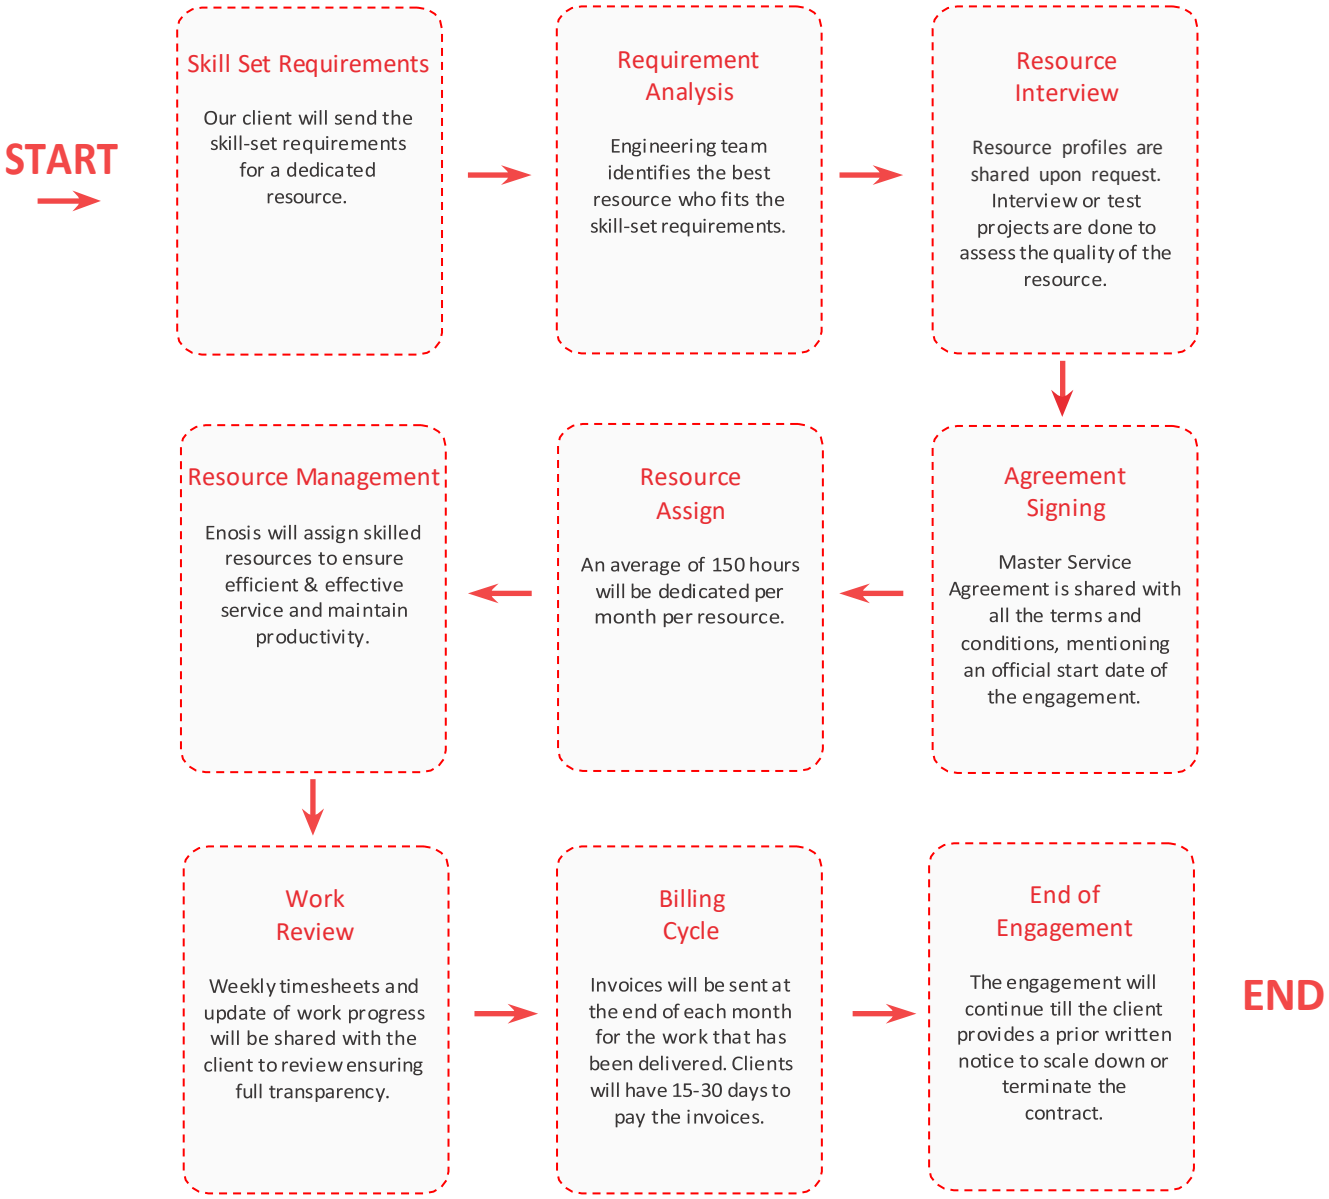
CORE UX DESIGN SERVICES EXPERTISE INCLUDES BUT NOT LIMITED TO:

Wireframing and prototyping	Figma, Sketch, Adobe XD
Visual design	Adobe Photoshop, Illustrator

Our Business Models

DEDICATED RESOURCE:

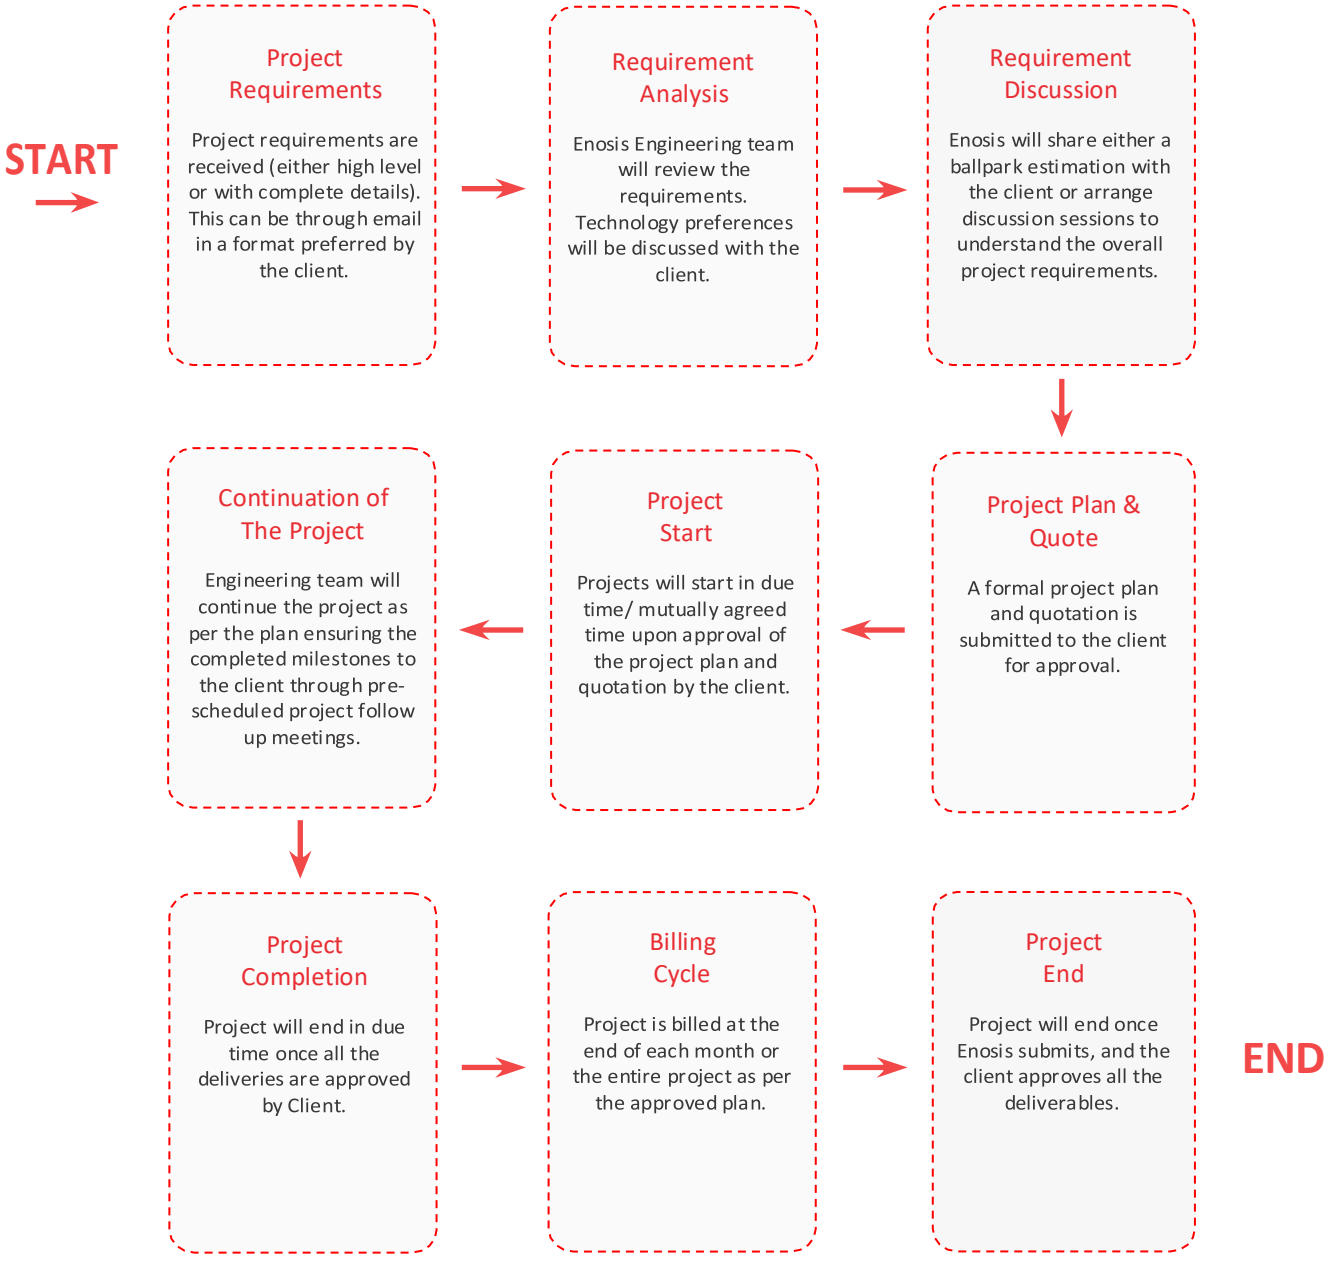
- No upfront costs
- We will match the skill-set requirements and qualifications required for the resource
- There will be an oversight from a development and project manager to assist the resource
- Flat monthly rate per resource, invoiced at the end of each month
- This model is like having a dedicated remote resource



Our Business Models

FIXED QUOTE PROJECT:

- No upfront costs
- Detailed project plan with a fixed cost pricing model
- Quality Assurance and Testing are included



Rights To Intellectual Property

- All source codes, legal documents, and any other formal documentation created for or provided to us by the client remain the property of the client
- All materials associated with a project are given to the client once it has been completed
- No information or materials will be shared without the client's permission in writing
- As an extended team, we work similarly to a remote employee, therefore we do not have any ownership rights over the work done for our clients

Why Partner With Enosis

Kick Start

Teams can ramp up quickly without increasing any management overhead for our partners.

Top Quality Engineers

Our hiring process ensures your access to the best IT professionals in the market.

Competitive Price

Availing of our cost-effective services will help you to reduce your costs without compromising quality.

Working with Top-Tier Companies

A decade of experience with over 105+ companies in Software Development and Quality Assurance.

Transparent Process

As we progress towards your goal, we ensure effective communication and full transparency by providing you with weekly status meetings and time sheets.

Compatible & Friendly Environment

We form a highly compatible and welcoming workplace.

What Our Clients Say

planet DDS

4.5 ★★★★☆

Rahul Khot
VP of Engineering

They have a humble attitude, ready to help and always eager to learn.

matrix

4.5 ★★★★☆

Gregg Owens
VP of Software Development

I am impressed at the evolution and growth of the team and the low turnover of their development team.

iQ3

5.0 ★★★★★

Ali Merchant
CEO

They were well organized, and the process orientated with a high-quality team.

VIRTUAL DENTAL CARE

5.0 ★★★★★

Richard Lee
