

We, the 3 co-founder of Tinkers, take the following as our company's purpose, mission, vision and motto:

PURPOSE

Our purpose is to promote a sustainable positive impact in the **education system** of the country by building an **ed-tech ecosystem** that is built to last for generations.

MISSION

Our mission is to **tinker the various sectors** of the whole education system of the country **one by one, one at a time**, starting with a very basic niche like "language learning" and then gradually moving toward developing other tools to empower the students, teachers and parents.

VISION

In tinkers, our vision is to **create a new generation of patriots** by tinkering the education system of the country.

Motto

Our motto is "**Building Childhood.**"

We believe childhood is the most important time for empowering education and character forming that resonates throughout the whole life of the person. Building our user's childhood is where we put all our efforts in this company.
