SERVICES

Debug BD delivers quality & timely solutions & services at a price that make our clients smile. Debug BD focuses on development at our excellence centre in Dhaka. This allows us to scale up rapidly (leveraging on the plentiful supply of talent and thus cutting down on execution time) at costs that are on an average 70% cheaper.

An in-depth knowledge of various technology areas enables us to provide end-to-end solutions & services. With our 'Web of Participation', we maximize the benefits of our depth, diversity and delivery capability, ensuring adaptability to client needs, & thus bringing out the most innovative solutions in every business & technology domain. Debug is your one stop partner where you can outsource all your support services with complete peace of mind about quality & reliability. Debug Software Solution's strength lies in understanding the client's business processes, culture, vision & goals across the industry segments & offering client oriented solutions which are highly reliable, creating customer comfort.

Our team is committed to provide IT Services with:

Quality | Technology | Innovation

Our Services Include:

- IT Services
- Project Management
- Consultancy
- Outsourcing
- Education / Training

IT Services

IT has high potential in terms of employment and revenue generation. The IT manufacturing sector is growing at an average rate of 28-30% annually over the past decade. Software industry continues to contribute a major portion of Indian IT industry's revenues. According to the IT vision of Govt. of Bangladesh, the expected level of this by the end of year 2013-15 is expected to reach US\$ 0.2 million. With the dedicated & adroit employees at Debug BD, it has been adept in assisting the growth of the nation in the field of Information Technology.

Debug BD with its vision of quality & innovation has been successful in catering the needs of those who seek our assistance in following areas of IT enabled services:

1. Software Solutions
2. Web Solutions
3. Graphic & Multimedia Solutions
4. Networking Solutions
5. Quality Assurance & Testing
6. Application Maintenance & Support
7. Turnkey Solutions
8. Offshore development

Software Solutions

Debug BD Software Solutions has developed a number of products and MIS applications for its clients in this service. Our mature software development processes, combined with excellent infrastructure have significantly increased the “on-time and on-budget” delivery of software in the offshore mode. We use a highly effective IMPACT Methodology for offshore & distributed software development. Our services begin from analysis, moving through designing, development, testing & implementation to maintenance. Our applications come in all sizes, be it a one-table database, or a massive client-server application. The creation of complete database applications is yet another field that we specialize in. We offer:

Application Development

- Interactive Application Development
- Custom Application Development/ Maintenance
- MIS and ERP Solutions & Support

Re-engineering

Application Development

Interactive Application Development Interactive Application Development (iAD) is about harmonizing art with technology. This business division of Debug BD Software Solution complements the client's requirement of online and desktop applications - be it a workgroup solution or mailing platform. It adds a further arc to the circle of

'Net Totality'. A strong team of software professionals empowers the application development capability at iAD, DebugBD Software Solutions. The applications developed range from Web-stores, online service retailing to enterprise information systems. Our competencies in .Net technologies, ASP, XML, PHP & C/C++ are demonstrated in various network-based applications. SQL/ Oracle database engines support most of these applications.

Custom Application Development/ Maintenance

It is a well known fact that some of the ready-made, packaged applications have failed to meet the requirements of the customers because of their unique needs & differing business practices & processes. In addition, prohibitive cost of implementing a packaged application and the maintenance thereafter becomes an unwelcome perspective. We have experienced I.T. Consultants for Project analysis, formulation & concept planning, right up to project management and installation. We develop customized Software that is completely based on user's requirement with GUI (graphical user- friendly interface) on any of the mentioned platform / languages.

MIS & ERP Solutions & Support

We offer customized low cost solutions to industries based on open standards, contemporary technologies & maintenance support. While incorporating the best of business practices, we do take special care of the customer requirements. ERP Solutions include the development of software in a distributed model, with some phases of the project being conducted onsite & others being conducted offshore. Each phase is uniquely refined & executed. After unit, & system testing the product is then sent to the client for acceptance testing. We have satisfied customers find the solutions userfriendly, flexible, & comprehensive

Web Solutions

Debug BD provides web solutions & services to help customer reach to a wider customer base. The web is a new & different medium for communication & requires a different viewpoint & skill set to use it in the most

effective way. You need web consulting to get more return on your investment in your web site. We can help you get the most effective solution through:

- Website Development
- Web Multimedia
- Intranet Development
- Web Promotion
- Web hosting
- E-commerce

Website Development

Websites can enhance awareness of your brand, leading to more sales. Build relationships with customers, vendors, & shareholders through your online identity get more traffic from the search engines Get more traffic from the search engines, fast loading web pages with excellent navigation & designing, communicate more effectively. Either you are looking for Dynamic site or a static site is your solution we can help you acquire both. We offer web sites on flash, asp, php which are tailor made to target your customers & make your presence live on web. DIAMOND STUDIOS

is a team of cinematographers, photographers and film-makers. Our goal is to raise the bar in terms of what is possible with wedding films and wedding photos, but without ego, with meaning and effort. As what's more enjoyable to be at, film and photograph than an event filled with love, romance, meaning and a party? It is not a bad thing to be doing - 'spreading love' through a film and photos now is it?

Bharabari.com

An online magazine that features private residential & commercial properties for letting. If you have a property to-let and having trouble to find a tenant. Then simply contact them, sit back & relax. Let us do all it takes to help find you a tenant. The times where you put a 'To-Let' sign-board on the streets for your property are over. They will promote your property in their way. Trust us it does not get any more stylish than www.bharabari.com to showcase your property for rent. Simply go to their 'Promote Your Property' option at our home page and fill in the form.
