1. Background

a. Company History

Dhaka Host IT officially started its business from 2018 and so far we have provided service for 500+ clients of individuals & business, offering some of the most competitive prices in Bangladesh for domain names and hosting. In 2018, Muhammad Shafiqur Rahman, owner of the company, realized the growing demand of web hosting services in Bangladesh. Since then we started to provide quality web hosting service with 100% server uptime along with speed, security, professional email service & instant customer support.

b. What we do (Business activity)

We have Domain Registration, Web Hosting, Web Development & Search Engine Optimization Service. We have a complete automatic domain registration and web hosting service which is managed by WHMCS. Our clients can register domain and order web hosting service 24/7 from our website (dhakahostit.com). Their service is instantly activated. Clients can maintain all of their services from our website.

We also provide website design and web apps development service.

2. Infrastructure

Dhaka Host IT operate their web hosting and web development business from their office which is housed at Flat c30(15th Floor), Shaj Bhaban, 27 Bioy Nagar, Dhaka-1000.

Billing Software:

We use Billing Software WHMCS(Web Host Manager Complete Solution) to handle billing, client management & web hosting services.

The system or application that we use to maintain our Web Hosting platform:

- i. Cent OS
- ii. cPanel
- iii. Softaculous
- iv. CSF Firewall
- v. Config Exploit Scanner
- vi. Config Mail Scanner
- vii. Atomicorp professional Mod security rules
- viii. Centralized Mail Server
- ix. Clam AV
- x. Automated Spam or phishing detection system

- xi. Server Monitoring system
- xii. In house developed Shell Script to maintain web hosting services.

Payment Gateway:

We use SSLCOMMERZ payment gateway to receive payment and all of our services is instantly activated 24/7 by online.

Server or Datacenter:

Currently, We use server from some of the World's best data center Hivelocity, Hetzner, OVH & Turnkey Internet to provide the best web hosting service. All of the data center have redundant networks, cooling & power & Tier-1 premium bandwidth.

3. Mission & Vision

a. Mission

Dhaka Host IT wants to provide the most reliable domain registration and web hosting service with 100% customer satisfaction at the most competitive rate in Bangladesh.

b. Vision

We would like to provide the best web hosting service in Bangladesh. We would like to develop our own web hosting infrastructure, application, centralized email system & our own security software so that we can provide our clients completely fast, safe & secure environment of hosting. Within 4/5 years, we would like to setup our own Tier 1 datacenter in Bangladesh.

4. Products & Services

a. Shared Hosting Services

We provide shared web hosting services which start from 1GB . We have four different shared hosting packages that fulfil the demand of our Bangladeshi clients.

b. Reseller Hosting Services

We provide reseller hosting packages. Reseller can create cPanel accounts, host any website and control them. Reseller can do business like a web hosting company. All of

our reseller hosting packages has unlimited cPanel accounts features. They can also setup private name server. Reseller can pay monthly, quarterly or annually.

c. Dedicated Hosting Services

Dedicated Web Hosting is suitable for high traffic news site, ecommerce site or any others site. As your CPU, RAM or others resource are dedicated to your account, you will enjoy better web hosting service than shared web hosting. We use cloud Linux OS to provide dedicated web hosting service.

d. VPS Hosting

We provide VPS hosting service in Bangladesh. VPS server is suitable for those clients who want complete control on hosting and Linux server. VPS server can handle higher traffic according to its RAM, CPU resource, Bandwidth & technologies. We provide cheap and 100% uptime guaranteed managed and unmanaged VPS server from USA & Canada Datacenter. Our SSD and cloud VPS server will both give you data security and fast loading website.

e. Website Design & Development

Along with domain registration and web hosting, some clients need website design and development. So we provide complete web solution by designing their website also.

5. Human Resource

- (i) Muhammad Shafiqur Rahman (Proprietor)
- (ii) Abu Jubair Panir (Linux System Administrator)
- (iii) Md Aiyub (Sales Officer)

6. Work Experience

- (i) We have provided domain registration and web hosting service for more than 500 clients since 2018.

- (ii) Currently we have almost 600 web hosting active clients with almost 1000 domain and web hosting services.
- (iii) We are providing 100% uptime, reliable and secure web hosting & email service for hundreds of companies in Garments/Textile Sectors, sole proprietorship, training institute, outsourcing, blog, newspaper & ecommerce.
