About Us

Kaizen It Ltd is a leading software development Company Located at panthapath, Dhanmondi,Dhaka. We are in business to develop software for general purposes and for specific purposes to our various clients. We have in place training services and we also offer technical support in line with our business. Our location is very strategic in the sense that we are close to manufacturing firms as well as technology giants and other big businesses here in Dhaka that will ensure that we have an edge over other software companies in other parts of Dhanmondi. We are in business to not only make profit but to also compete favorably against other software development companies in the industry and attain our vision of being the preferred software development company for clients all over the Bangladesh. We intend to ensure that we demonstrate fair business ethics in every point of our business. We hold ourselves accountable for our high standards and ensure that all our employees are not only attuned to but display this standard at all times in order to positively promote the company.

Our Vision

Moved by innovation, guided by integrity, deliver quality solutions to build The Digital System.

Our Mission

Provide time tested, secure, reliable and cost-effective enterprise level business solution to achieve business objectives and become a trusted growth partner for our customers, business associates and our people.

Our Core Values

At Kaizen IT Limited we live by a set of values that drive our daily behavior and enable us to achieve our vision and goals.

Our values express the expectations of ourselves and others to identify how we conduct business with our clients. Each employee is personally accountable for reflecting the following values in business decisions and actions:

- **Trust**

We know that trust must be earned, so we strive every day to act in ways to build up trust in our clients, ourselves and others.

- **Integrity**

We value our reputation and conduct our business with integrity, honesty, and respect for each individual. We will be as open as we can be with our clients and our people.

- **Commitment**

We recognize the importance of providing excellent services and creating an environment where commitment is part of the fabric of who we are!

- **Acting with Courage**

We demonstrate a willingness to take risks while conducting our business in a responsible manner.

- **Results orientation**
