1.0 About Us

Hayatisoft Corporation (HAYATISOFT) is a One Stop IT Solution company with Its services ranging from connectivity, Solution and Power. The company is running Its operation through innovation, respect, accountability, reliability and many more. It started its journey with these 3 (three) Strategic Business Units.

Its connectivity wing ensures the Internet and Data connectivity across the country, targeting the enterprise segment over confirming 99.99% up time backed by 24/7 call center along with highly specialized support and solution technical team. Established prudent technology enables HAYATISOFT to ensure connectivity quality for scalability, smooth trouble identifying and shooting and onward maintenance.

Solution wing has been working to provide wide range of solutions over partnering different international companies. Continuous research and development enables HAYATISOFT to provide different innovative security solution, integrated systems and manageable dashboards over involving series of hardware and software.

HAYATISOFT Power has again the capability of giving the nationwide power backup solution specially for telecom sector of Bangladesh. It has been giving different power backup and maintenance solution for a long time since its establishment and still continuing with its dignity, reputation and quality of delivery. Beside this, R&D section of Power wing has been continuously working for different innovative power solution targeting the enterprise market of the country. Having more than 50 years of cumulative business experience of the Management Team as one of the driving forces, ensures HAYATISOFT to have a steady growth over the times. We are at HAYATISOFT always dedicated towards providing solutions and services with the concerns of this competitive world. We work relentlessly to ensure exemplary service at all times.

2.0 Mission

Providing the finest products, services and practices with seamless information flow to empower our customers, partners and communities.

3.0 Company Summary

Name of Company	HAYATISOFT CORPORATION
Year of Establishment	2013
Number of Board Members	07
Corporate Office	28 Mymensingh lane, Banglamotor Dhaka-1000 Bangladesh
Official Website	www.hayatisoftcorporation.com
Number of Branch Offices in Dhaka	3 Branches
Number of Branch Office in Chittagong	1 Branch
Number of Nationwide Support Office	21+ Branches
Number of Permanent Employees	300+
Number of Project Based Employees	100+

4.0 Area of Expertise

There are 3 wings under Hayatisoft Corporation umbrella, namely ISP, Solution & Power.

4.1 From ISP Wing:

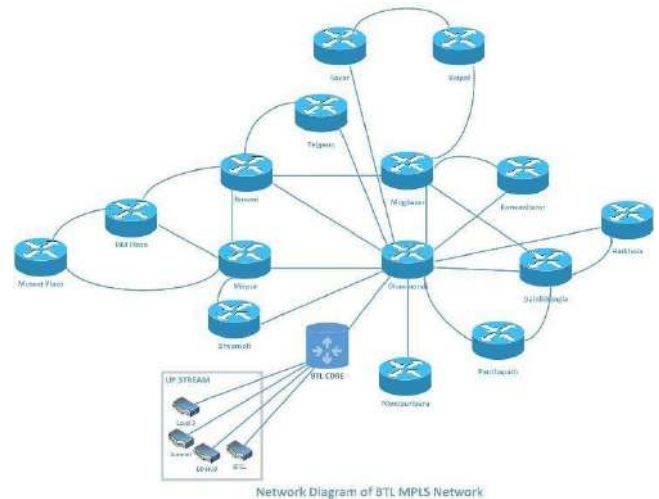

Bright Technologies has been working as Nationwide Internet Service Provider (ISP). The company has deployed own data center at its head quarter along with nationwide points of presence (PoP) establishment. The offered services are not limited to below items;

- **Internet Connectivity**
 - Dedicated Bandwidth Service
- **Data Connectivity**
 - Dedicated Bandwidth Service
 - Dark Fiber Service
- **Local Area Network Setup**
 - Structured cabling
 - Wi-Fi solution
- **Hardware Solution**
 - Network Equipment (cf. Router, Switch, Firewall, Server etc.)
 - Office Supplies (cf. PC, Printer, and Scanner etc.)
 - Power Supplies (cf. UPS)
 - Security Equipment (cf. cc camera, access controller)
 - Solution Service (cf. Video Conference System etc)
- **Maintenance Solution**
 - Resident Engineer
 - Dark Fiber Maintenance
 - LAN Maintenance
 - On Call Maintenance

4.1.1 Key Features:

- Model of Connectivity: Fiber & Radio
- Upstream Carrier: Multiple IIG with ITC backup link to ensure 99.99% up time
- Technology: MPLS based multi routing
- Packages: Depending on the technical site survey, we usually submit a complete proposal over understanding the current situation
- Customer Support and Network Monitoring: 24/7/365
- Connectivity Coverage: Mostly anywhere in Bangladesh

4.2 From Solution Wing:

HAYATISOFT Solution wing has been introducing different innovative products targeting enterprise and consumer market of the country. This wing searches for the world recognized innovation companies and make the collaboration to bring them in Bangladesh market for country's overall IT infrastructure development.

HAYATISOFT solution wing is offering vast level of solution ranging from security products, IT based automation, Finger print to Iris based recognition solution, operation management, security for soft copy, security for hard copy, enterprise email solution and acomplete system automation. These solutions require series of hardware and software installation and commissioning. In order to keep the commitment of our solution wing, we do partnering with different International companies from different countries across the world for their products and services. We do develop technical team in respect of the solutions to provide maintenance service to our valued customers as well. The offered services are not limited to below items;

4.2.1 Cyber Security Solution – COMODO

Comodo serves over 700,000 businesses worldwide, ranging from highly-regulated Global 500 companies to small Internet-based businesses. Regardless of size or industry, companies benefit from Comodo's strong PKI data security, Range of prevention-based security solutions, ability to configure solutions to meet the needs of customer environments, competitive pricing, streamlined administration and ongoing stream of innovation to meet the challenges of the evolving threat landscape:

Comodo's innovative software and services:

Digital Certificates/SSL and Certificate Management

Data encryption and site authentication for virtually any business environment or application.

Includes Extended Validation (EV) SSL Certificates offering the highest level of website

identity assurance, UC Certificates for Microsoft Exchange environments, client S/MIME certificates for secure user access, among many others.

Endpoint Security:

Corporations looking to secure large distributed networks can realize huge operational efficiencies drive down total cost of ownership and quickly improve overall security with products like Comodo Endpoint Security Manager.

Compliance and Monitoring:

Don't let PCI, SOX, Basel, HIPAA or other compliance be jeopardized by network vulnerabilities

Mobile Device Management:

Corporations looking to secure and centrally manage large-scale deployments of corporate and personal mobile devices can simplify overall management and slash lifetime deployment costs using Comodo's user-based licensing approach.

A Comodo SSL Certificate is the quickest and most cost-effective way for an online business to protect customer transactions. Apart from their low cost, each certificate also comes with a great value-added package, which makes them perfect for small to medium size businesses.

Domain Validation	Organization Validation	Extended Validation
Comodo SSL (DV)	Instant SSL Pro	EV SSL Certificate
POSITIVE SSL	Premium SSL	EV Multi Domain SSL
POSITIVESSL WILDCARD	Premium SSL Wildcard	
POSITIVESSL MULTI-DOMAIN	Code Signing Certificate	
COMODO Wildcard SSL	COMODO Multi Domain SSL	
Comodo UCC SSL		

4.2.2 Video Conference Solution – Kickle

Desktop Mic

Omnidirectional desktop microphone for a flawless sound quality.
Sits on your table or desk.

Box

Allows your screen to operate independently. Ultra-compact and quiet. High-performing.
Rests behind your screen.

Sharing cable

OPTIONAL - An USB cable that connects to your computer to enable document sharing.
Plug in a computer or in any other device.

powered by

Webcam

PTZ HD Webcam (1080p).
Wide-angle lens.
Professional
Skype Enterprise-certified.
Sits at the location of your choice.

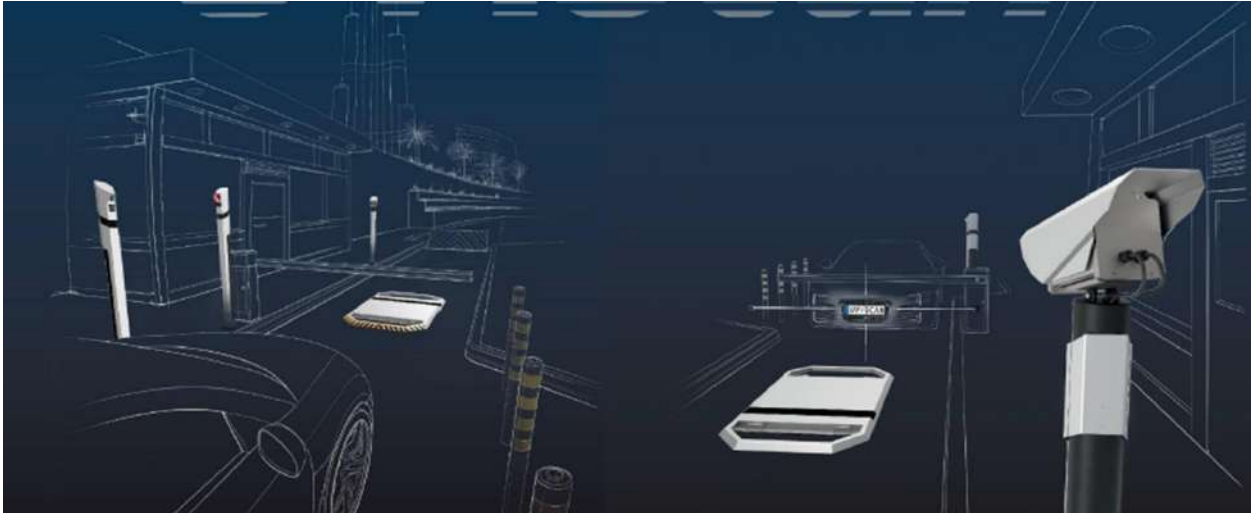

As creators at heart, we understand the value of simplicity. Through an ongoing creative process, we've challenged ourselves to achieve nothing short of the best user experience and highest technical efficiency.

Moreover, we are fortunate to have a direct relationship with Microsoft via an exclusive "partner program." Our development team is led by a Microsoft MVP*, one of the only Skype for Business development specialists recognized by Microsoft in the world.

Kickle is the brand from France what ensures the video conference solution based on skype for business. Depending on the customer requirement, it has both on premises and cloud based solution.

A Skype for business videoconferencing system which can connect with any H323 devices or SIP (as Polycom, Cisco..). You can create a planned meeting through Outlook or create a spontaneous meeting direct from the Kickle screen. Up to 6 video streams can be shown at a time during the meeting and there can be as many as 250 locations joining the meeting together. iPhone, Android, Windows phone, Mac or PC users can use Kickle. Regardless the technology you use, display it easily via your Wi-Fi.

4.2.3 Under Vehicle Inspection System (UVIS) – Secure One

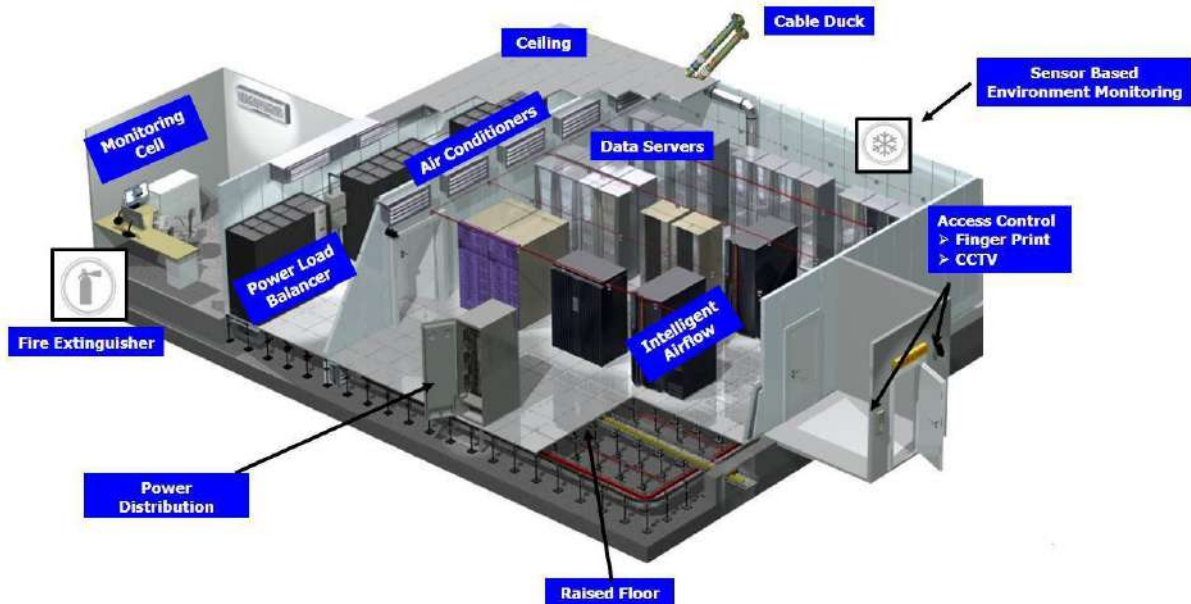

The UVIS of secure one from Netherland is a safe and efficient device to inspect the underside of vehicles in moving traffic. It shall be capable of operating in a (potentially harsh) outdoor environment, in all lighting conditions (day and night), image quality shall not be influenced by sunlight. The solution is capable to provide a still standing image of the complete underside of the vehicle, without the need for any “digital stitching”, which may lead to loss of information. Any speed variations of the vehicle under inspection, will not lead to deformation and/or “stretching” of the scan image. Even when a vehicle stops on top of the scanner, this shall not lead to any “stretching” of the image, such as with plain line scan technology.

4.2.4 IP Camera Solution

HAYATISOFT is the distributor of global reputed brands likely Geovision from Taiwan, ESCA from Korea, Digital Barrier from UK and many more. We have the capability to give solution for indoor, outdoor, 360 degrees, PTZ cameras with on premises and cloud based storage solutions.

4.2.5 Data Center Solution

HAYATISOFT has the expertise and experience of giving Tier 3 data center solution for its customers over partnering with world's leading brands for different equipment. The solution is not limited to raised floor, fire suppression system, precision AC, environment monitoring, finger print/ IRIS based access control, power distribution panel, DCIM (data center infrastructure management) and so on.

4.2.6 Security Metal Detection Solution

HAYATISOFT solution has been offering wide range of metal detection brands from USA, UK, Germany, Korea & China.

The solution is covering below items;

- Archway Metal Detection (Walk through metal detector)
- Hand held metal detection
- Under vehicle search mirror
- Explosive & Drug detection solution

4.2.7 Biometric Finger Print Solution

HAYATISOFT Solution wing provides different biometric finger print based attendance solution with software integration. We have experience of providing such solution for education institutes (Attendance automation), Corporate (Access Control), Government (Operation Control and monitoring) and many more. The finger print devices are available in portable as well as on premises fixed modules.

Attendance Automation System (AAS) brings benefits for education institutions:

- Comprehensive database of the students across the departments
 - It enables you to review any information any time
- Fingerprints of students ensure the authenticity
 - Proxy attendance will be stopped
- Increasing security
 - Absent students will be under review
 - Guardians will be notified for their children
- Saving time for taking attendance
 - Currently attendance system takes 10-30 mins for manual attendance
- Minimizing human work load through automation and reduces mistakes
- Reduce time for making reports and send them to top management
- Greater control of management
- Analyze the performance of a class

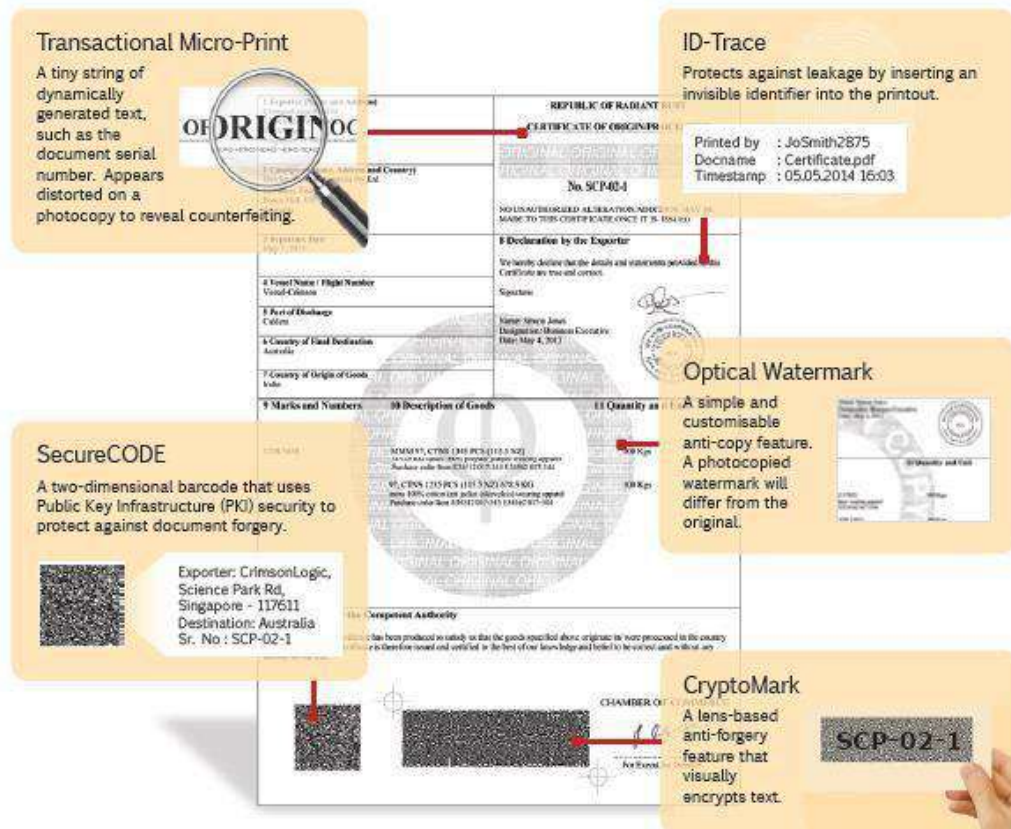

4.2.8 Digital Access Control System of Vehicles – Nice

HAYATISOFT has introduced European solution of digital access control system of vehicles for individual houses, diplomatic zones, parliament houses and so on.

4.2.9 Security Solution for Hard Copy

Phidélity is a document security product that protects sensitive hardcopy printouts, guarding against unauthorized printing, forgery, counterfeiting and leakage by integrating advanced security technologies with innovative ideas. Phidélity does not require change in user behavior and uses only normal paper and a conventional laser printer with ordinary toner.

Transactional Micro-Print
A tiny string of dynamically generated text, such as the document serial number. Appears distorted on a photocopy to reveal counterfeiting.

ID-Trace
Protects against leakage by inserting an invisible identifier into the printout.
Printed by : JoSmith2875
Docname : Certificate.pdf
Timestamp : 05.05.2014 16:03

SecureCODE
A two-dimensional barcode that uses Public Key Infrastructure (PKI) security to protect against document forgery.
Exporter: CrimsonLogic,
Science Park Rd,
Singapore - 117611
Destination: Australia
Sr. No : SCP-02-1

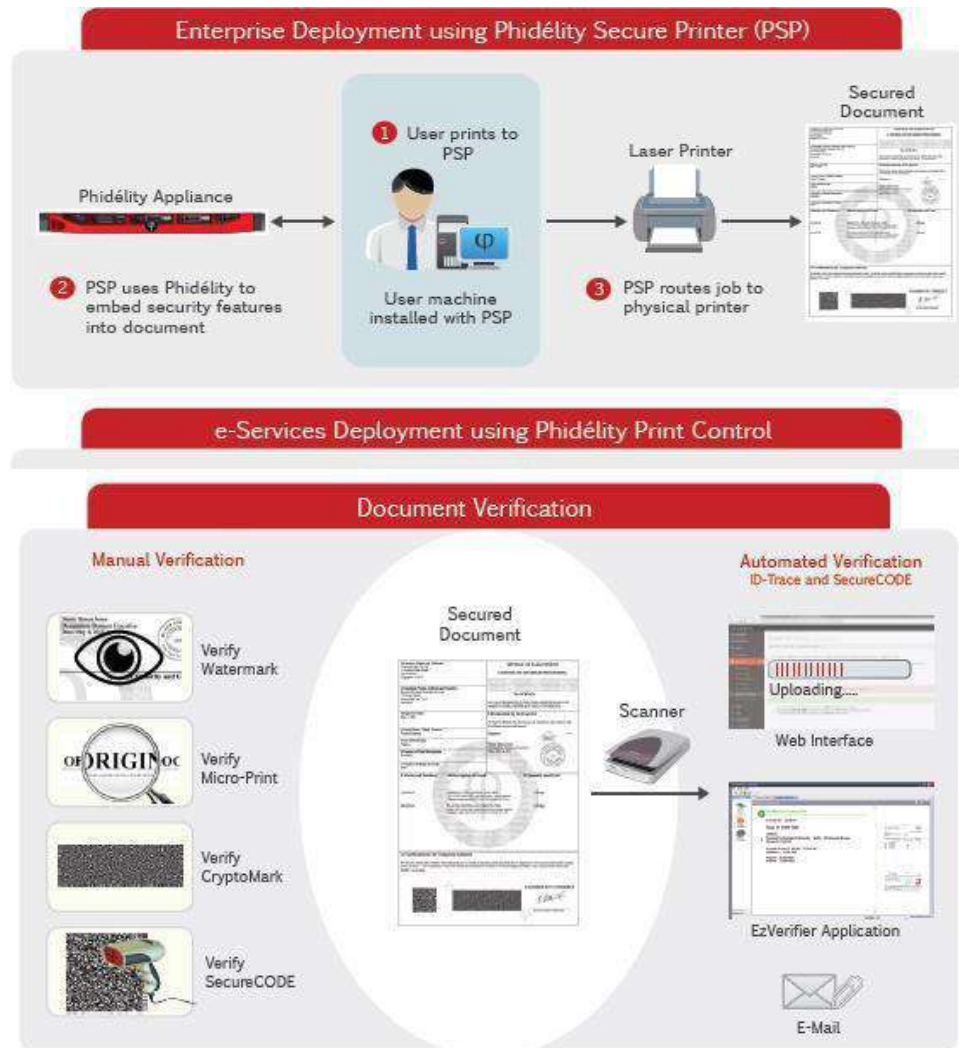

Optical Watermark
A simple and customisable anti-copy feature. A photocopied watermark will differ from the original.

CryptoMark
A lens-based anti-forgery feature that visually encrypts text.
SCP-02-1

Deployment and Verification - Phidélity can be used in two ways:

- Enterprise deployment – for generic printing via applications such as MS Office. e-
- Services deployment – for printing via web application to serve a specific domain.

The features in a secure document can be verified in variety of ways, both automated and manual.

Industry Applications Government Providing assurance in the issuance of Licenses, Permits, Certificates, Stamp Duty documents and protecting against leakage of confidential and sensitive documents.

Financial Services (Banking and Insurance) Establishing credibility and trust between financial institutions and stakeholders by securing documents such as insurance policies, letters of credit and confidential documents such as Merger & Acquisition documents.

Defense and Security (Homeland Security) Safeguarding the national interest by securing and protecting highly sensitive documents against leakage. Legal (Judiciary) Securing sensitive information such as notarized documents and contracts against forgery, counterfeit and unauthorized disclosure. Transportation and Distribution (Trade and Logistics) Building trust amongst trading entities by securing cross-border documents such as Bills of Lading, Airway Bills, Cargo Clearance Permits, Certificates of Origin

Key Benefits

COST SAVINGS: All Phidélity features can be printed from conventional laser printers without the use of special toner or paper; deploying Phidélity will not increase operational expenditure.

CONVENIENCE: Minimal change in the user's printing behavior. Features can be verified both offline and online, through a wide range of channels such as software client, embedded device, web service, fax and email.

CREDIBILITY: Phidélity ensures that documents issued retain their authenticity, enabling these hardcopy documents to be trusted by other parties.

4.2.10 Tracking Solution for Vehicles

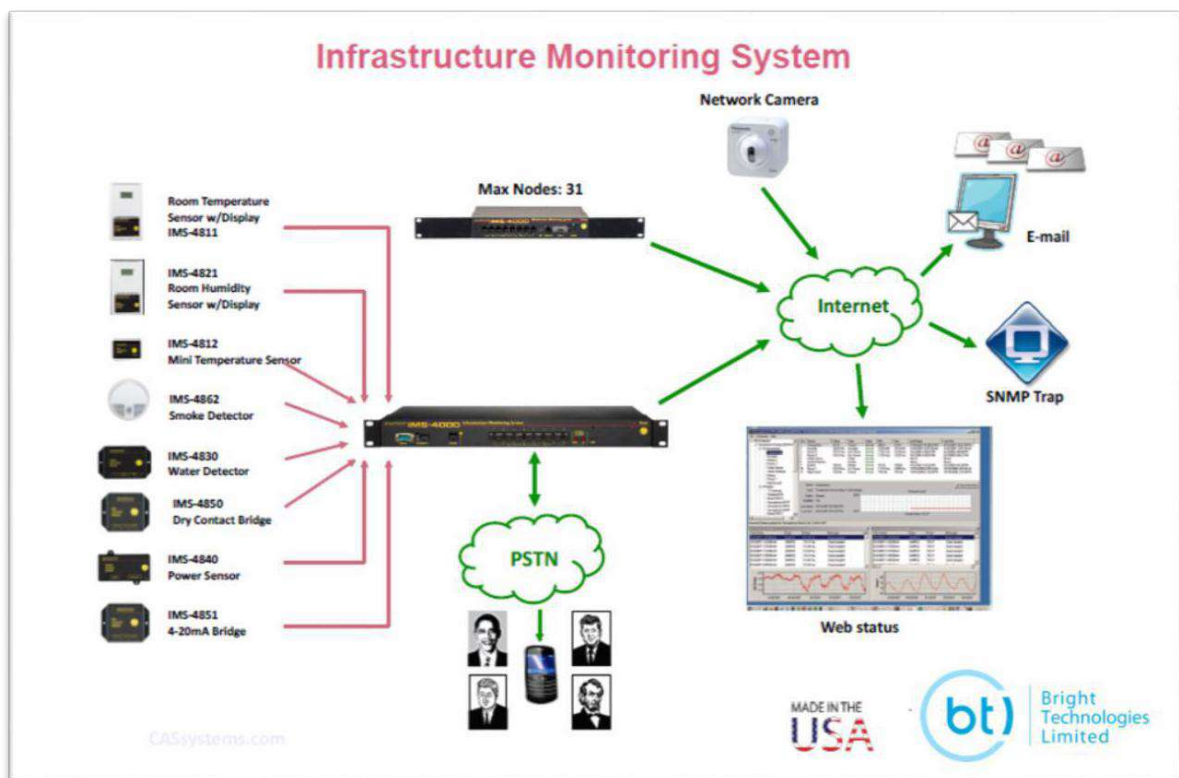

Our solution is light real-time tracking terminal with GPS/GLONASS and GSM connectivity, which is able to collect device coordinates and other useful data and transfer them via GSM network to server. This device is perfectly suitable for applications where location acquirement of remote objects is needed: fleet management, car rental companies, taxi companies, public transport, logistics companies, personal cars and so on.

The features are not limited to Fuel monitoring with analog LLS fuel sensors, Ignition detection, 1-wire Temp sensors, 1-wire iButtons, Door sensors, Alarm button, LED indicator, Buzzer, Power saving, Engine blocking, starter blocking, trip detection, over speeding detection, auto geofencing, driver identification. It does work as below work flow mentioned;

4.2.11 Infrastructure Monitoring Solution:

Our solution is designed to help you watch over a remote facility. Our wide range of solutions can instantly inform you when environmental conditions are less than perfect, plus you can check on the status at any time. This solution is the USA based company who is the leader in Remote Monitoring with over 25 years in business and over 350,000 installed systems worldwide. Our vast experience has helped us design products that are reliable, easy to use, flexible, and affordable. Listed below diagram shows how your remote monitoring application works.

4.2.12 Queuing Management Solution:

Key Features:

- Centralized branch management for customer service
- Employee wise Report
- Branch and Region performance comparison
- Customer feedback – in respect of employee, service, branch
- Centralized digital signage management / Update
- Mobile Ticketing

4.3 From Power and Energy Wing:

HAYATISOFT Power & Energy wing has been engaged with extensive area of enterprise customers for Its products, solutions and services. This service includes timely fueling, supply of spares and consumables to keep engines moving all the time and on ward maintenance, 24/7 service & support. Thus, HAYATISOFT's Power & Energy business is organized to deliver the entire power energy solution.

Along with the traditional product and services, HAYATISOFT Power & Energy also concentrates on “Renewable Energy” and “Nano Emulsion Fuel” sowing its commitment to reducing our impact on the environment and to incorporating more sustainable processes into the way we deliver our services.

Initially, we started working on Power and Energy sector under the umbrella of Bright Impex Limited and later due to increasing growth and to ensure more customized and localized support to our clients we formed a new wing as SBU of the mother company to facilitate the dedication of the service and solution.

HAYATISOFT Power & Energy delivers fast, cost-effective and efficient servicing under Annual Maintenance Contract and on call basis wherever and whenever you need extending to the remote localize presence. To ensure adequate support service under AMC, here we have extensive network throughout Bangladesh with Full-fledged offices, namely at Dhaka, Chittagong, Comilla, Khulna, Barisal, Rajshahi, Mymensing, Gazipur, Rangpur and Bogra. HAYATISOFT has been working in the field of power system maintenance under AMC in more than 100nos of customers in Govt., non Govt. and private sectors. We provide yearly maintenance

and services of Generators and other power equipment to our customers where different brands of Diesel and Petrol Generators are deployed at different sites throughout Bangladesh. The services are not limited to below items;

4.3.1 Supply of Generators:

HAYATISOFT has been the partner of different European brands to supply best quality generators with its variance to satisfy all groups of customers. The types are ranging from small household, gen-set to large industrial generators including portable generators.

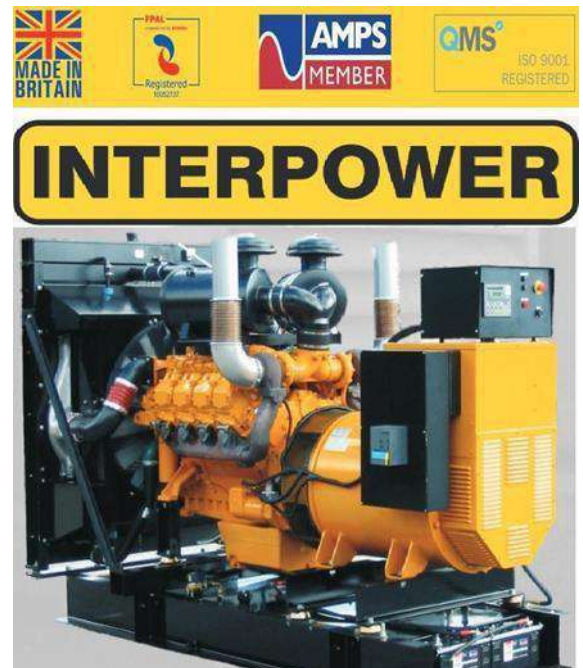

Diesel Generator Set (UK)

HAYATISOFT is the official Distributor Partner of INTERPOWER Brand Diesel Generator set. With 30 years of export experience,

INTERPOWER has emergency backup generators in over 70 countries, and have a proven ability to supply and support products globally through a network of distributors.

INTERPOWER are an established British company, experienced in the manufacture of high quality power generation equipment. All products are supplied from our factory in the North of England, and we only use British and European components in our products

& manufacturers of Industrial, Backup, Marine and Bespoke Generators from (2KVA to 4000KVA). As an OEM we have a range of industrial, marine, containerized, and low sound level units, and include Cummins, Volvo, Perkins MTU, Mitsubishi, Newage-Stamford, Marathon, and Mecc Alte amongst our suppliers.

Gasoline generator Powered by HONDA Engine (JAPAN)

HAYATISOFT is the official Distributor Partner of EMEAN Brand Gasoline Generator power by HONDA Engine.

EMEAN is the top manufacturer of Generator sets (gasoline & diesel engine,) Alternator, and electric motor, etc. EMEAN generator complies with CE standard and we also give our customer one year guarantee. EMEAN Company has over ten year's history. Up to now, we have two factories and an Import/Export company. Generator range 3.25 to 10KW

4.3.2 Supply of Uninterruptable Power Supply:

BPC from UK:

HAYATISOFT is the distributor of BPC Brand UPS. BPC, UK Founded in 1996 The British Power Conversion company based in Romsey, Hampshire is an independently owned international corporation, offering an established and effective range of power protection products, services and sells to a very broad spectrum of industries and sectors. Over the past, 20 years BPC business has evolved and we operate under the traditional fields of UPS Systems and Batteries. UPS capacity range is from 650VA to 5200MVA.

Power Master from Taiwan:

HAYATISOFT is the distributor of Power Master Brand UPS, Taiwan which established in 1999, and Power Master is a young and rapidly growing company within DC to AC Power Inverter, AC to DC Battery Charger and UPS industry.

We specialize in Modified and Pure Sine Wave Power Inverters, Solar inverter, Inverter with built in Battery Charger, On Line & off-Line UPS, and designed three stage Battery Chargers. With a global reach of many distributors worldwide, Power Master stands firm as one of the industry's market leaders.

4.3.3 Supply of Battery:

VRLA Maintenance Free Battery (China):

HAYATISOFT is the distributor of Sail Brand VRLA Maintenance Free Battery. Sail made by Fengfan Co., Ltd. is a sophisticated battery company, mainly engaged in research, development, manufacture and distribution of lead-acid batteries and power solutions for 50 years. With wide range of hi-end military products and quality civilian products, we are well recognized as the best lead-acid battery provider in China. Our domestic market share reached more than a quarter since late 1990s. Batter range, 2V & 12V DC (7AH to 3000AH)

CSB Battery From Taiwan:

Hitachi Chemical Energy Technology Co., Ltd. Taiwan, former “CSB Battery Co., Ltd.”, was established in 1987, through a joint venture and technological coalition between Shin-Kobe Electric Machinery Co., Ltd, a member of the Hitachi Group. Become one member of Hitachi Chemical Group in Jan. 2015. Shifted to the company name by the time of 1st Nov, 2016.

As a leading global manufacturer of Valve-Regulated Lead-Acid (VRLA) batteries, our products are utilized in over 100 countries for telecommunications, UPS (Uninterrupted Power Supply), Solar, Wind Power, emergency lighting, security and other additional applications.

Rocket Battery, Korea:

EBANG GLOBAL BATTERY Co.,Ltd has been leading the battery industry in Korea with the brand of ‘Rocket’ for over half century since the establishment in 1952. And for Bangladesh market, we are the product partner to ensure the original products from direct principal.

SEBANG Global Battery has put forth its strength to the continuous management innovation corresponding to the rapid changing market environment, and has concentrated ceaseless efforts to the technology development in order to produce the best product. As a result, SEBANG GLOBAL BATTERY Co.,Ltd has grown not only as the maker of batteries

representing Korea but also the top five manufacture exporting to more than 130 countries in

the world. Now, SEBANG GLOBAL BATTERY Co.,Ltd is concentrating the efforts in order to jump to be the top battery manufacturer in the world. And we, SEBANG GLOBAL BATTERY Co.,Ltd, will do our best to develop the high-tech clean energy, which enable us to enjoy and to comfort in the clean environment.

4.3.4 Supply of Automatic Transfer switch (ATS), Transformers:

We provide a range of transfer switches for our customers and incorporate a solution-based approach for all applications. Our ATS also offer differentiated features that simplify installation, operation, and system integration; yet are suitable for a wide array of environments from residential, industrial, commercial, and governmental to critical process and life-safety applications. Features include:

- Molded case switch or circuit breaker
- Power circuit breaker
- Contactor based
- Mechanically and electrically operated contactor and/or breaker
- NEMA1, 3R, 4, 4X and 12 enclosures

4.3.5 Planning, Installation & Commissioning of Power Generation Equipment

We can provide installation services to ensure your critical power systems are well designed to meet the highest standards. Carried out by our highly experienced engineers, we offer comprehensive project management throughout ensuring quality of services from initial site surveys to expert installation and commissioning. We have the capability to serve mostly all types of applications as well as all size of systems.

4.3.6 Managed Operations for AMC Service & Maintenance

HAYATISOFT delivers fast, cost-effective and efficient servicing wherever you are and whenever you need it. Through our global presence and certified partner network to are covering across the globe. Extremely high level of operational safety and low to zero down times can only be achieved with the help of preventative, continuous service measures and tests. During regular, comprehensive inspections, important information is collected for the optimum maintenance process, and this information is compiled in the form of individual maintenance contracts. And, of course, we also carry out maintenance work according to customers' individual needs. Our team provides all kinds of support during the creation of an efficient and cost-effective maintenance concept.

4.3.7 Site services

Our Site Services consists of mechanical Installation, electrical installation, commissioning, service sales, after sales support, spare parts and warranty staff. All mechanical and electrical Installation teams are fully conversant with construction site protocols and site safety requirements. The Installation teams operate from fully equipped vehicles including all of their required health and safety documentation.

4.3.8 Services and spares

During the life time of the generator, we ensure that it is serviced so that it continues to operate at optimal efficiency and we can quickly supply any spares that may be required. Our fast and responsive service support staffs are always available. We maintain a comprehensive range of spare parts to ensure we are always “on standby” to provide immediate back up support as required.

Our “factory” range of finest quality genuine spares is sourced only from the primary global suppliers of those parts (Perkins, Cummins, John Deere, Mahindra, Aksaand Volvo) in their respective country of origin. Similarly, we have experience to work on Alternators and its various components e.g. AVR, Rectifier kit, Armatures, etc; which also need expert’s hand for maintenance & troubleshooting.

4.3.9 Repair, Refurbishment, Upgrades

Our most Clients can be benefited from a product support that is covering the availability of spare parts, the in- house repair as well as the refurbishment and upgrade of systems.

4.3.10 Workshop services for engine overhauling & maintenance

Within short tenure, we successfully completed more than 150 diesel and gas driven engine of different brand like Perkins, Deutz, Mahindra, Cummins, Caterpillar, Volvo etc. where range is 8 KW to 1.5MW. We have an establishment of workshop at southpanishail, Kasimpur, Gazipur.

4.3.11 Monitoring & Rental

With dedicated service programs, we can back you up with rental power units or with remote monitoring capabilities that will provide you with the greatest peace of mind. We can solve your power generation challenges with our generator rentals-whether you are facing an emergency outage, a planned project, or a temporary surge in demand. Ranging in size from 10KVA to 500KVA, we have the rental power you need to get the job done and to keep your electricity on. We have developed generator rentals with highly efficient generating sets to meet the specific needs of the customers ever expanding industries. We focus on delivering precisely what each client needs, when they need it.

4.3.12 Renewable Energy Solution

Transforming the lives of people and lighting up different corners of the country, Hayatisoft Corporation has been providing Solar Energy solutions for households, factory buildings, rural streets and marketplaces, as well as private institutions. We are specialized incomplete solutions including concept, design, project management, equipment supply, installation, commissioning & servicing of Solar Energy projects. Having exposure of successfully execution over many projects HAYATISOFT is endeavoring to do much more in the future. And establish itself as a leader and pioneer in the field of Renewable Energy. We have executed total over 135 KWp Solar projects for different sectors. We have a very competent solar solution & design team. A dedicated and dynamic team of Engineers provide total solutions to the renewable energy sector catering to the needs of the Govt., and Non Govt. sectors in Bangladesh.

RREL is also the pioneer in providing solar-hybrid solutions for Telecom Operators' BTS towers and solar powered irrigation systems in Bangladesh.

The abundance, inexhaustibility and non-polluting nature of solar energy has made it a popular alternative to

Conventional energy sources, which are rapidly getting exhausted. Working closely with different Private Sectors, NGOs, donor and partner organizations and international agencies, HAYATISOFT offers a full range of solar solutions including home lighting, street lighting, water heating systems, Photo Voltaic (PV) centralized systems, irrigation systems, support for computer and other electronic systems and a number of other solutions.

5.0 Major Projects and Clients

1. **Armed Police Battalion**
 - Security Archway Metal Detectors for all the airports
2. **Armed Force Division**
 - Vehicle Barrier and Security Archway Metal Detector for Prime Minister Office
3. **Police Telecom**
 - Network Hardware Solution
4. **Apollo Hospitals**
 - IP Camera based Surveillance Solution
5. **Sonali Bank Limited**
 - Security Surveillance Solution for MD's floor
 - Archway Metal Detector for HQ and its branches
 - Queuing Solution for its branch operation
6. **edotco Group (a concern of Robi Axiata Ltd.)**
 - Annual Maintenance Contract (AMC) Services of Petrol Generator (PG) sets in all regions of Bangladesh.
 - Diesel Generator (DG) on wheel services in all regions of Bangladesh.
 - Power back up services according to Disaster Management Services Contract in all regions of Bangladesh
