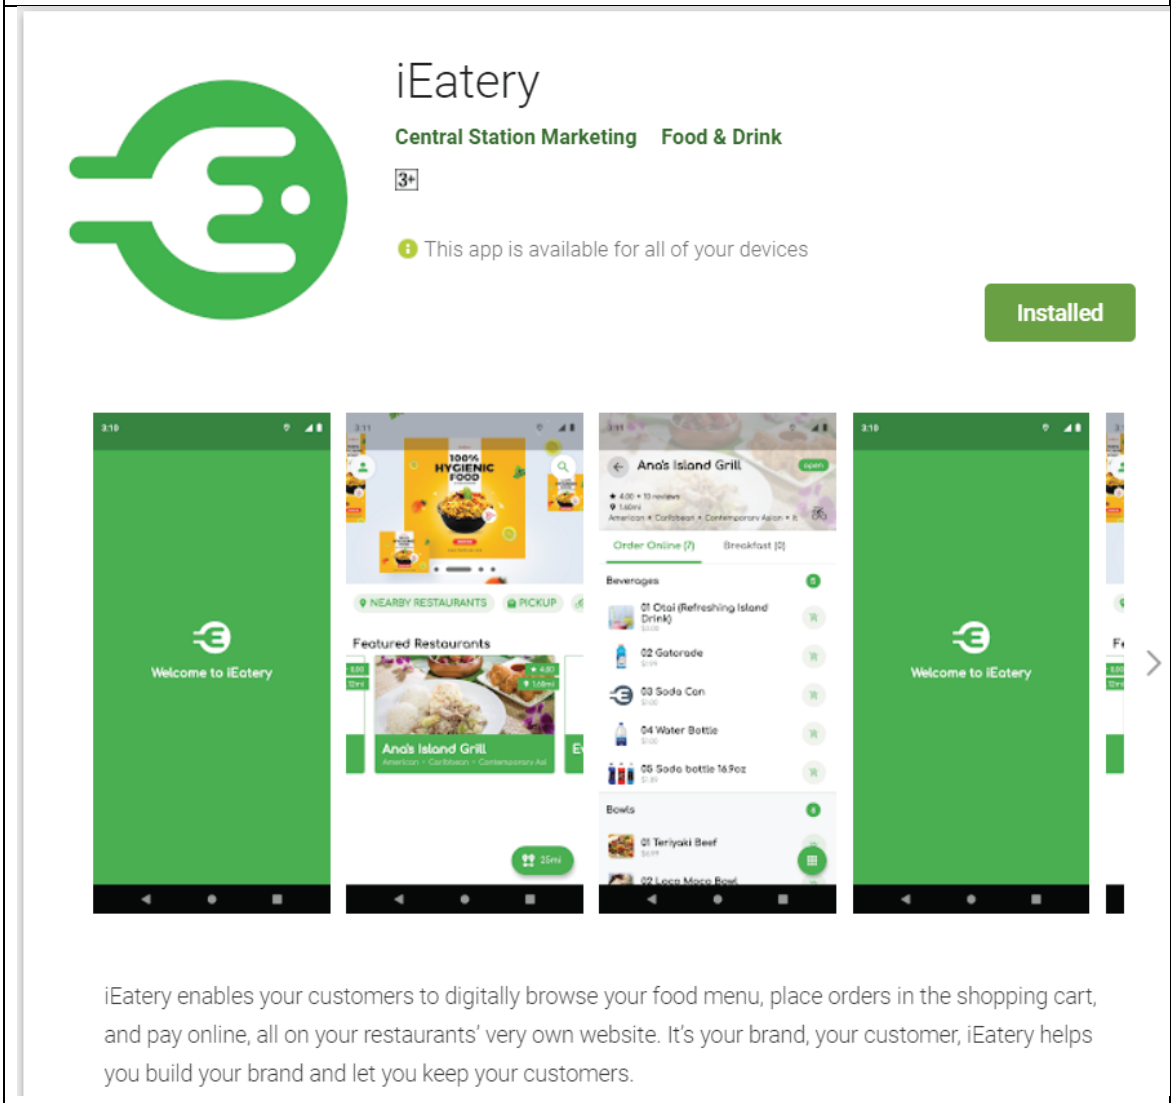
Case 8



iEatery	Development
Online food order system customer	✓ Java, android studio
Features	

iEatery enables your customers to digitally browse your food menu, place orders in the shopping cart, and pay online, all on your restaurants' very own website. It's your brand, your customer, iEatery helps you build your brand and let you keep your customers.

iEatery	Development
Online food order system customer	✓ Java, android studio
Features	

Our talented team of caring individuals is dedicated to growing your business through increased sales and repeat business, by offering easy online ordering.
We provide you with a complete E-Commerce website, customized specifically for your restaurant!

Our dedicated iEatery team prides ourselves in taking the responsibility of a well-optimized, powerful and eye-catching website that does what you need it to do to support & grow your business.

We help you to develop your Marketing & Sales strategy to increase your customer base by strengthening word-of-mouth referrals with an interesting, interactive and colorful website for your restaurant.

The iEatery team is happy to help you find success, on your restaurant journey, whether you are launching a new business or living your dream.
Whether you are looking to bring in new customers, grow online sales, get the phones ringing or keep customers coming back for more, the iEatery team will work with your values and vision, to

help build your brand to maximize your opportunities for business, creating a unique character for your business which speaks directly to your customers. We help your restaurant get discovered by new local prospects precisely when they are searching for the culinary experience that you offer.

Your dedicated iEatery team, assures you a rewarding and valuable experience on your business journey with us. How are we unique? We appreciate the passion of food lovers, and the value they bring to your business. At iEatery, our core values are all about your food, your restaurant, and loyal customers, thus building a strong bond between you and your clientele.
Here's what we offer. You can customize the design of your website in a new way or keep the existing template with a state-of-the-art menu management system. We provide you with the online ordering system to increase your sales and bond with your customers. And, we assure you that no order will be missed.
Your whole iEatery package comes with a very fast & easy setup process, and we'll help you every step of the way.

Fast. Easy. Convenient.
Enable your customers to digitally browse your food menu, place take- out or delivery orders in the shopping cart, and to pay online by credit card via our secure payment processor. All from their mobile device, on your own branded mobile app.

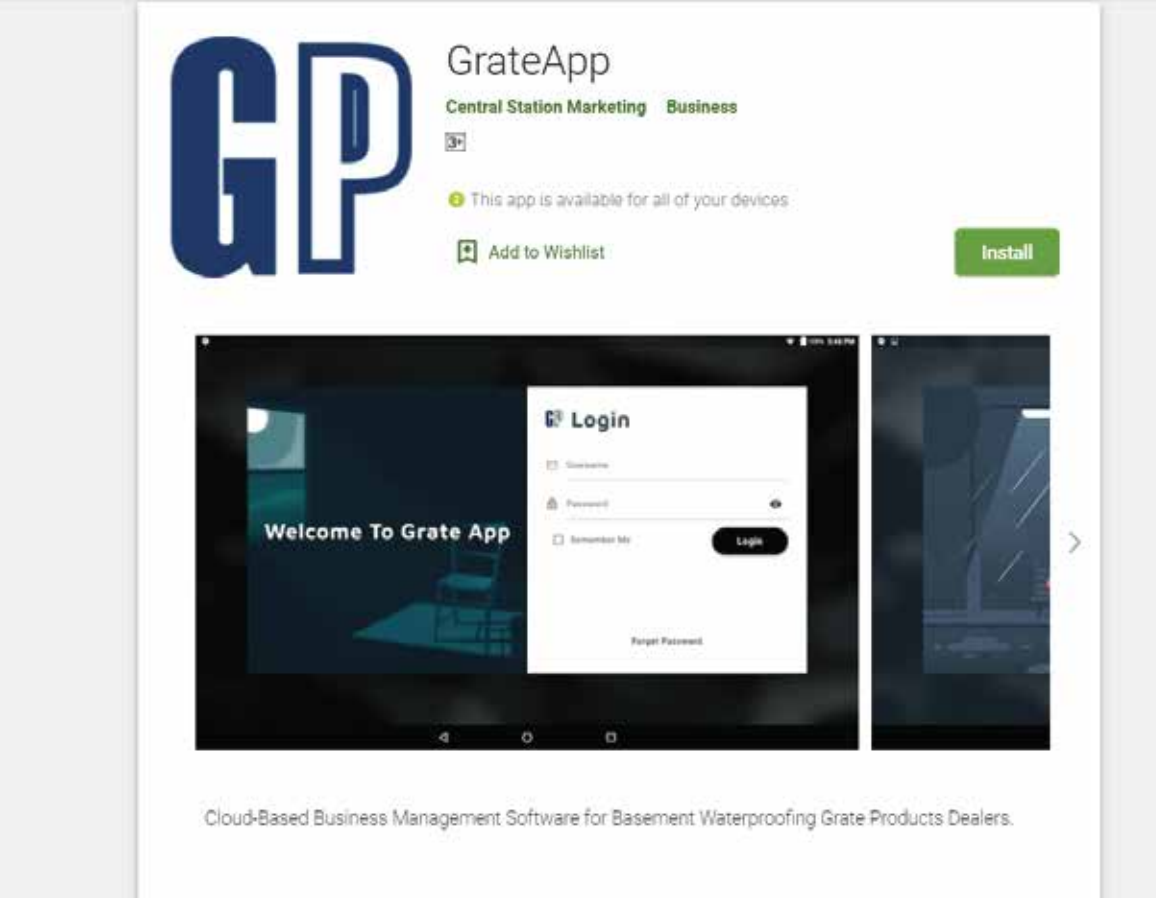
Increase Sales
Online orders are significantly larger by up to 20% compared to telephone orders, and your repeat business will increase dramatically because a happy customer is a loyal one.

Get paid directly
We bring you huge savings on the merchant accounts needed to process online payments. This also means full control and 24/7 access over your money earned through your online orders.

Never Miss an Order
Online orders are not only sent to a printer but also sent to your Dashboard where you can accept or reject orders without having to be on the premises. Order notification is also sent via SMS and email so business owners can keep an eye on their business remotely.

Safe & Secure
All sensitive information is password protected and SSL encrypted. Credit card transactions can be processed in real-time with an online merchant account.

Case 9



Grateapp	Development
Cloud App	✓ Java, android studio
Features	
Cloud-Based Business Management Software for Basement Waterproofing Grate Products Dealers.	

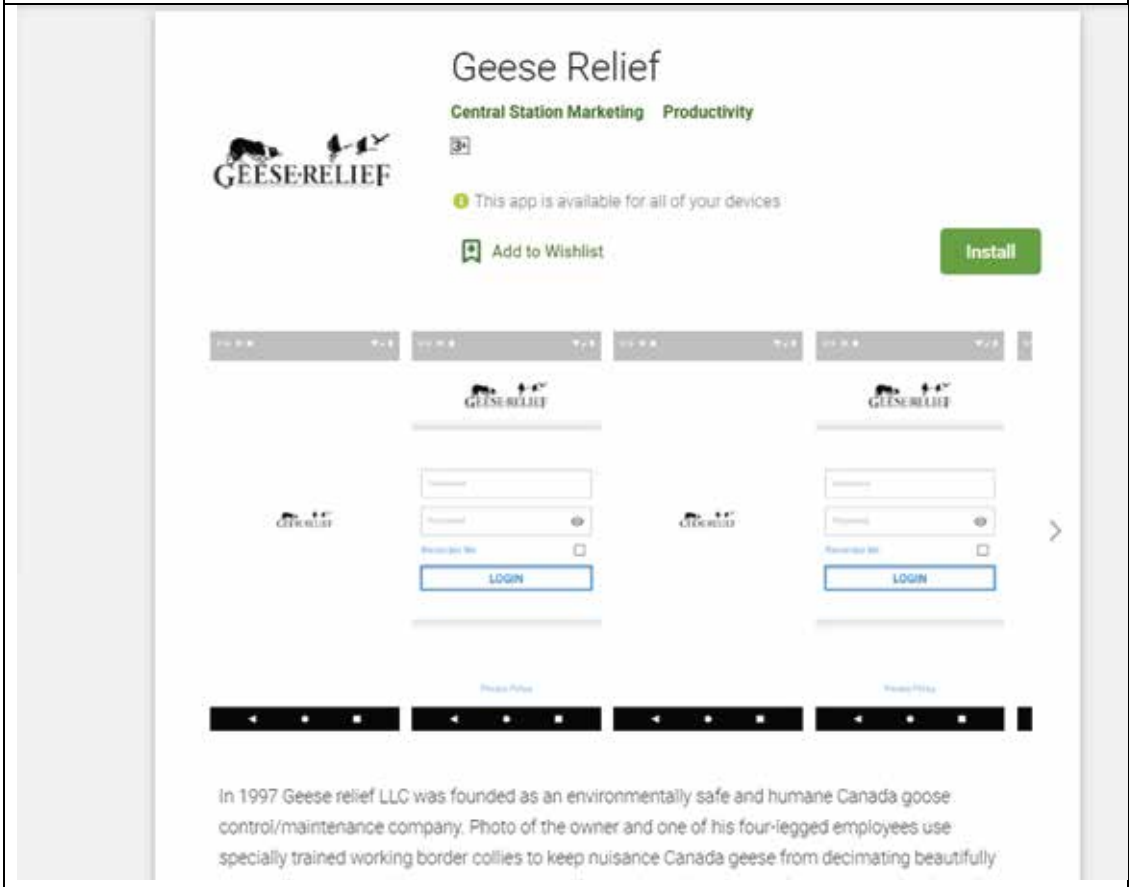
Case 10

GutterApp	Development
Cloud App	✓ Java, android studio
Features	

Founded in 2003, Frank Heneghan's Connecticut Gutter, LLC is a full-service home exterior contractor specializing in custom gutter fabrication and installation. We provide weather-resistant gutter systems and gutter guards from leading manufacturers, and we offer everything from new gutter installation to gutter protection, gutter cleaning, snow and ice removal, and more.

We pride ourselves on delivering a quality product and expert installation wrapped up in a professional package, which is why we offer home improvement solutions from manufacturers such as The Connecticut Gutter, CertainTeed, GAF, and Sika. Our proven reputation has landed us a decade of commercial contracts with major companies and institutions throughout Fairfield County. We have also helped improve the homes of numerous residential customers.

Case 11



Geese Relief	Development
Cloud App	✓ Java, android studio

Features

In 1997 Geese relief LLC was founded as an environmentally safe and humane Canada goose control/maintenance company. Photo of the owner and one of his four-legged employees use specially trained working border collies to keep nuisance Canada geese from decimating beautifully groomed properties. The company started with just Chris, the owner, and one amazing border collie, Laine. Geese Relief currently employs seven professionally trained handlers and ten specially bred and trained working border collies.

Geese Relief understands the pressures and challenges that groundskeepers, property managers, and homeowners have in keeping their properties free of Canada geese in a humane, environmentally safe, and cost-efficient manner. Establishing Geese Relief LLC has given us the opportunity to implement our goose control system to help businesses, golf courses, schools, cemeteries, and all types of property owners, with amazing results.
