# Introduction

Themefisher, the free open source ( HTML, Bootstrap, etc) marketplace, was built with the motive to create amazing themes so that people can create their own websites without any cost. We are progressing towards creating a wide range of themes so that people have more options to choose from them. Our experience in the industry enables us to look for new opportunities in order to bring uniqueness and creativity in our themes.

The core values of Themefisher are based on the four pillars:

1. Innovation
2. Teamwork
3. Customer- Oriented
4. Integrity

## COMPANY VISION

We are passionate about becoming a big brand and in the next five years we picturize Themefisher as the largest free open source ( HTML, Bootstrap, etc) marketplace around the world. Along with that it will have its own office space of 200 employees who will reach their full potential to exceed our client's expectations. Our words match our actions as we ensure honesty, transparency and fairness in all of our actions. We keep our promises and are committed to do our business ethically and with integrity.

## COMPANY MISSION

At Themefisher, we work as a team and follow the culture of supporting each other's efforts and perspectives creating a diversified work environment. We believe in embracing the latest technology so we are constantly evolving to work towards a common goal that is to deliver innovative solutions with the highest customer satisfaction. Our themes showcase how skilled and efficient our whole team is. We work hard to be the best we can and take pride in for the enthusiasm we have for our work.

Themefisher is very much customer focused as in we always prioritize our clients at the heart of every decision we make. We strive to provide quality products and services that meet our client's needs. It is our privilege to serve our customers with outstanding customer service. Our client's positive feedback boosts our confidence and motivates us to maintain the high standards of excellence and performance.

Apart from this, we are even planning to give our clients the option where they can customize their themes as per their requirements. Our next target is to break into new markets like Shopify, WordPress, SaaS.

# Our Services

Our proficiency lies in producing static themes with creative, unique and elegant designs. Over the past 7 years we have specialized ourselves in Bootstrap and have started working with Hugo for the last 2 years. Within this short time our growth is enormous, proving ourselves as the largest Hugo theme provider on Earth. Currently we have 44+ themes in our store and most importantly, Hugo provided their dedicated tags to us which is a big achievement for our company. We always focus on clean and efficient code and our work is not only limited to Hugo we have experience to work with other static site generators such as Jekyll, Shopify etc.

1. Web Design
2. Web Development
3. Digital Marketing Consultancy
4. Custom Website Design
5. App design

# Client Work

We did few custom Hugo projects and our clients were very impressed and satisfied with the end product.

01

ISC- Their website was WordPress based and they wanted to redesign their website with fast loading time. Our team provided an efficient solution with Hugo by creating an attractive and elegant User Interface. Check the link <https://www.isc.org/blogs/static-site/>

02

RunTime- RunTime is a renowned recruiting agency whose website's main problems were not up-to-date design, slow loading and disorganized content. With the help of Hugo we gave a modern look to their website by redesigning some of the pages. Their huge content was taken care of by organizing it effectively. 03

Lose To Gain- They were facing the same issues with their website as in old design and slow speed. Their whole design and development were handled by us. Check the link <https://lose-togain.netlify.app/>

04

Lakeshore Plastic Surgery- Their website's design, content management and development were handled by our company. Check the link <https://www.lakeshoreplasticsurgery.com/>  
Nahmii- Their whole design and development were handled by us. Check the link <https://www.nahmii.io/>

05

Hauptseite- Their website's design, content management and development were handled by our company. Check the link <https://www.reichel-robotik.de/deu/Hauptseite.shtm>
