Wezapps Limited was founded in 2015 with a vision to deliver high-quality web solutions on-time.

WHO WE ARE

Today, we are among the leading web design and software development companies based in Dhaka, Bangladesh. Since inception, we believe in putting our best efforts to understand the client's business needs thoroughly before developing the best-in-class solutions. We count on our extensive research and domain expertise to provide end-to-end business solutions to our corporate clients from across all industry sectors.

Today, we are among the leading web design and software development companies based in Dhaka, Bangladesh. Since inception, we believe in putting our best efforts to understand the client's business needs thoroughly before developing the best-in-class solutions. We count on our extensive research and domain expertise to provide end-to-end business solutions to our corporate clients from across all industry sectors.

We have demonstrated our prowess in website design and web application development. But, at Wezapps Limited, we just don't confine ourselves to web development. We offer top-class services in the domains of eCommerce development, mobile app development, and custom software development.

Our core focus remains on delivering end-to-end business solutions to our clients at competitive and affordable prices without compromising performance. We have a strong presence in the United States of America, United Kingdom, Canada, Australia and other parts of the world to serve the global corporate clientele.

WEB APP & SOFTWARE DEVELOPMENT

Wezapps Limited can offer you comprehensive online solutions which incorporate the latest technology We can develop from the simplest User Interface to the most complex web based software and recommend the configuration that best meets your objectives.

We look past the development of stand alone software applications We specialize in taking and making your business processes online.

Our teams have acquired a wealth of experience by being exposed to (what must be) all of the key business processes from small to enterprise level businesses Our team makes sure to share these experiences with customers so that they can take comfort in the fact that new projects are built on the success of previous projects.

WEBSITE DEVELOPMENT

Wezapps serves as a full stack vendor undertaking end to end custom web development projects for entrenched market leaders and emerging businesses with technology at their core. Build for the mobile centric web or transform your business to fit in with the modern cross platform reality with wezapps. Drawing upon extensive UI/UX and front end expertise, our web app developers deliver rich user experiences.

WEB SITE DESIGN

We offer a few different types of web design services, including templates, semi custom, and fully custom websites. Each of our web design offerings includes a dedicated account manager, an in depth kickoff meeting, and more. All our websites are built to be responsive, meaning they work on any devices. We design SEO friendly sites so that your business may have the potential to reach people .

WORDPRESS SOLUTION

We strive to deliver excellence, presenting you with exactly what you pay for! Gone are the days when you have to constantly have to run after your WordPress developer to get him to create the perfect website for you. With us, you can expect great work guaranteed!

We are well aware of the kind of tasks you may have in mind with regards to your website. Therefore, we offer a range of services that are meant to complement the kind of work you want us to do. We develop brilliant websites for corporations, businesses, institutions, individuals and many more, showcasing not just their services but also a visual of their success and the attention to detail that got them where they are today. After project handover, we also continue website maintenance, check and clean the malwares, speed up slow sites, update themes and plugins, and core WordPress system as monthly service.

SMART APPLICATION DEVELOPMENT

Our mobile application development process begins with a thorough understanding of our customers real needs, which enables us to constructively design and develop app with an appropriate usage of technology and make the rest best.

Once our programmers done their job superbly, our versatile QA team takes that forward to ensure your app

is error free Practical tests and your app analysis will be done with high standard testing software's.

Our agile mobile app developers' team constantly strives to make applications more robust and secure Since technologies for all platforms are not alike, we make sure applying right technology for right apps.

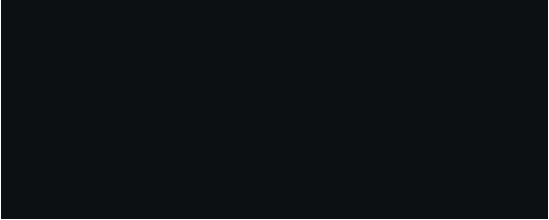

SAMRTPHONE APP DEVELOPMENT

SYSTEM IMPLEMENTATION & INTEGRATION

In today's rapidly changing economic climate, catching up with a number of complex technologies, which are constantly being upgraded, is a big challenge for organizations and a threat to their growth. Therefore, it is crucially important to integrate modern technologies in existing applications, ensuring that technology is in line with the company's business objectives.

1

MANAGEMENT SYSTEMS

We provide various ready and customizable software for your organization for various need and requirement such as, ERP, CRM, information system, and management and regulatory systems These will provide dynamic support you and your organization and will automate business progress.

2

CLOUD BASED SYSTEM IMPLEMENTATION

As the cloud computing market has matured, attitudes toward the private cloud have clearly changed There was reluctance among businesses to migrate to the public cloud, certainly some foot dragging.

3

DATABASE STORAGE AND MANAGEMENT

We provide scalable secure database for your data keeping This will help reducing risk of data loose and compromise as well as hassle for maintaining it Our secure remote system will give you access remotely to your organization and on demand you can change its size and features.

4

SUPPORT TO SYSTEM AND SERVICES: REMOTE AND PHYSICAL

Small medium or big, any kind of organization needs various IT systems to run and maintain profit scheme Our Expert system administrator can provide remote and physical support to IT infrastructure of your organization We can remotely check health, install and update services and even implement systems virtually.
