
Company Profile

Vision

Our vision is to make life easier through technologies to enrich billion of people's lives. We are encouraged and committed to Design and develop exciting creative applications that make difference in people's lives.

Mission

We are primarily focused on Creative Design, Website Development, and Digital Marketing by using of latest technologies so that we promote our business in such a manner so that our client will fulfill their desire with our company services.

The project worked on:

Semyou.com

SEMYOU is represented at multiple locations around the world and has a network of partners in order to be able to support you everywhere.

SEMYOU is currently represented in the following countries: Germany, India, Russia, Switzerland, USA. If you have questions about our products, services or SEMYOU in general, please contact us directly.

Dialhawk.com

Dailhawk is software that tracks calls for small business owners and marketing agencies. DialHawk makes it easier than ever to grow, scale, and track your marketing efforts all while helping you convert more leads into sales.

Cssanimation.io

CSS Animation is a modern art-form that helps you create animations. If you are a beginner in CSS or have a little bit of knowledge in CSS, or even an expert; you must have felt the need for a ready-made template that makes the animation a lot easier than before. You might have felt that "If there was a ready-made template where all types of formats are already installed and was ready to use just like that....."

We have catered to that need and have made this template, where you will find almost all kind of formats that you might need. In only a few cases, it might need a trivial change to make your desired animation. For the rest, it's just simple "paste and go".

Our Services:

We create a dynamic business impact with our innovative and intuitive solutions for all your digital essentials.

Graphics Design: Our team is highly specializing in creating, successfully building the perfect brand recognition so our client's services or products stand apart from their competitors.

UI UX Design: A great tech-based service goes a long way with the right user experience design. Our experienced design team can pull off outstanding UX designs through a complete pipeline of user behavior research, wireframe design, UI design, and testing.

Web Design: Websites come at the center of every brand's digital strategy. So, it is essential to have a great website ready for your customers. Defttech's development team can make websites for a wide range of purposes.

Our development team works closely with the digital strategy team to develop websites with proper provisions for tracking visitor data and deliver analytics. As a result, the websites we deliver fit seamlessly with the brand's marketing and promotion activities.

E-Commerce: Starting up online shops is becoming a growing trend in the market. We help businesses develop online shops to kick start and maintain the e-commerce business.

Mobile App Development: Developing innovative and native mobile apps for Android, iOS, and Windows platforms

Marketing and Advertising: Whether your brand needs to reach, engage or sell, we are the partner that can bring the right strategy to the playing field. Meet the right people, give them the right reasons to love your brand, and make an impact in the outcome of the business.

Search Engine Optimization: We are specialized in organic SEO, where our team has in-depth knowledge in web marketing by following ethical techniques and a result-oriented approach.
