

Company Profile

Tech-Bhai is an IT solutions provider delivering secure, scalable, and user-focused digital services for local and global markets since 2016. We specialize in websites, eCommerce platforms, custom software, and mobile apps, backed by cloud, email, and IT infrastructure solutions. Affiliated with an ISO/IEC 17025:2017 certified software testing laboratory, we ensure world-class quality in every project. With modern technologies, agile processes, and a people-first approach, Tech-Bhai helps businesses grow smarter, faster, and stronger in the digital era.

Company Overview

About Us

Tech-Bhai is a Bangladesh-based, BASIS-member IT solutions company delivering end-to-end digital services for clients across local and international markets. Since 2016, we've been providing custom software, mobile applications, websites, eCommerce platforms, cloud solutions, and IT infrastructure services—all designed with the end user in mind.

Our team blends technical excellence with business insight, ensuring that every project is secure, scalable, and tailored to achieve measurable impact. From HTML, CSS, JavaScript, PHP, Python, Node Js, and Laravel to cloud platforms like AWS and Azure, we use modern tools and agile practices to deliver projects on time and on budget.

Mission

Empower businesses with innovative digital solutions to enhance efficiency, productivity, and growth.

Vision

To be the leading provider of technology services, setting new standards of excellence in the industry.

Goal

Forge long-lasting partnerships with clients, delivering tailored solutions that exceed expectations and drive sustainable success

Empowering Businesses Through Technology That Works for People

At Tech-Bhai, we turn ideas into secure, scalable digital solutions—fast. Since 2016, we've been helping businesses in Bangladesh and beyond grow through innovative websites, mobile apps, custom software, and enterprise IT services. With agile delivery, proven expertise, and a focus on user needs, we build technology that works for you and your business.

MD. Tarik Hasan
Business Head

Milestones

2016 Inception

Founded as an IT-enabled service provider, embarking on a journey to empower businesses with technology-driven solutions.

2018 Diversification

Expanded service offerings to include software development, cybersecurity consulting, and more, enhancing our capabilities to cater to a wider range of client needs.

2020 Digital Dominance

Achieved a Google 5-star review, signifying our commitment to customer satisfaction and excellence in service delivery.

2022 Specialization

Established ourselves as leaders in web development, mobile apps, and digital marketing, offering tailor-made solutions that drive business growth.

2025 Technological Frontier

Embraced cutting-edge technologies like AI, blockchain, and IoT, enabling us to provide innovative solutions that shape the future of businesses.

Our Approach

Discovery & Strategy

We start by deeply understanding your business, industry trends, and target audience. Through collaborative workshops and research, we define clear goals, KPIs, and a roadmap to ensure your digital solution aligns with your vision and market needs.

Design & Development

Our creative and technical teams work hand-in-hand to build intuitive, high-performance platforms, whether it's a website, app, or custom software. Using modern frameworks (like Laravel, React, or Node.js) and agile methodologies, we ensure seamless functionality and a user-centric design.

Marketing & Promotion

A great product needs visibility. We deploy data-driven marketing strategies—SEO, content marketing, and targeted campaigns—to amplify your brand's reach, attract customers, and convert engagement into growth.

Monitoring & Optimization

Our job doesn't end at launch. We continuously monitor performance, analyze user behavior, and refine strategies to enhance scalability, security, and ROI—keeping your solution ahead of the curve.

Team Composition

Our team comprises experts in various fields, including UI/UX design, web development, software development and content development. We bring a wealth of experience and knowledge to every project.

Cyber Security Solutions

At Tech-Bhai, we protect businesses, websites, and digital assets with reliable, enterprise-grade cyber security solutions. Our mission is to keep your online presence secure, stable, and trusted—so you can focus on growth while we handle the risks.

Firewall Security

Advanced firewall protection that monitors and filters network traffic to block unauthorized access, cyber threats, and malicious activities—ensuring complete network safety.

Endpoint Security

Comprehensive protection for all endpoints including desktops, laptops, and mobile devices, safeguarding your organization from ransomware, malware, and data breaches.

Antivirus Protection

Real-time antivirus defense that detects, blocks, and removes viruses, spyware, and malicious software to keep your systems clean and secure.

SSL Certificate

Secure your website with trusted SSL encryption that protects sensitive data, builds customer confidence, and improves search engine rankings.

SSL Wildcard Certificate

One powerful SSL solution to secure your primary domain and all subdomains under a single certificate—cost-effective, scalable, and easy to manage.

Website Security

24/7 website protection against hacking, malware, DDoS attacks, and vulnerabilities through proactive monitoring and advanced security measures. Display Trust Badge Lets customers know they're safe spending money with you.

Fix Hacked Website

Fast and professional website recovery service to remove malware, restore functionality, close security loopholes, and prevent future attacks

Domain Vault / Domain Security

Advanced domain protection to prevent domain hijacking, unauthorized transfers, and DNS manipulation—keeping your digital identity safe and in your control.
