We have a clear understanding of the development requirements, and we have the knowledge, skills and experience to successfully complete any software or any web development project. Further information about the company is available at our business website: <http://www.amreenit.com>.

Why Work With Us?

We stand out from the crowd in several ways:

- **Unmatched Customer Service:** Really. Amreen IT “Extreme Customer Service” provides personalized attention, continuous communication, immediate action, and definitive follow-through.
- **Helpful Experts:** We only hire the best and we invest substantially in their continued education. This translates into skilled and happy employees who are dedicated to our clients’ success.
- **Exceptional Quality:** We take pride in our ability to supply excellent solutions. Each is tailored to meet our customers’ need and delivered on time.
- **Honest and Ethical:** Amreen IT’s values shape the way we do business. You can read more about them in the section below.

2. Corporate Philosophy

Amreen IT's creative division combines strategic thinking, distinctive design, and emerging technologies to deliver innovative solutions that consistently break new ground.

QUALITY POLICY

"Amreen IT is committed to provide world class Information Technology Enabled Services (ITES) to its customers with high accuracy, unmatched quality and fast turnaround time".

SECURITY POLICY

"Amreen IT understands that the trust of the client in it depends on how well it keeps their personal, business and accounts information secure. Amreen IT follows international standards set under Information Security Management System (ISMS) policy guidelines."

3. Major Project Executed

Our goal with all application that we create is to blend stunning visual design, practical usability, and robust functionality to create compelling websites that provide visitors with an exceptional user experience and engage them. On the following pages, we have provided examples from our design portfolio. Included on the page is the name of the client (and project), a screenshot of the website, a brief description of the project and the primary technologies used to build the application.

3.1 Web Application Development

Land use Clearance / NOC System

This is a product which is using Khulna Development Authority (KDA) and Coxbazar Development Authority (CoxDA). Using this system the land owner can submit application through online and the authority can process the application through online.
