

CORPORATE OVERVIEW

WHO WE ARE.....

Next Generation Information Technology (NXGIT), in short, is one of the leading IT solution service providers in Bangladesh specialising in providing a wide range of software solutions & end-to-end technology service management. NXGIT started its march into the realm with a couple of overseas software development projects and executed them with great success & customer satisfaction. The idea was to consolidate and outsource most of the IT functions of the group bringing in synergy and efficiency while making it a profitable venture serving external customers as well.

OUR VISION....

We exist to make our customers perform their business more efficiently and effectively by providing innovative technology based solutions.

OUR MISSION....

- * To create flexible, easy, secured and affordable solutions locally and globally.
- * To be known for understanding its customer's business.
- * To remain as the dream destination for IT professionals.

WHY NXGIT SOFT SERVICES.....

We are a standalone organization that provides high-end quality products & services with enduring commitment with the following corporate key features:

- Corporate reputation and industry experience.

📍 **BANGLADESH OFFICE** : Plot No. 25, Road No. 4, Block - H, Banasree, Dhaka-1219;

- Expert operation management team.
- Affordable product & service assurance.
- Quality of project work & hassle free execution.
- On-time project delivery & after-sales support.
- Maintain project security & privacy.
- Guaranteed user-friendly solution.
- Single point communication.
- Professional certification.
- 24/7 customer service.

WHAT WE DO.....

Quite simply, we write code. However, unlike most software companies, we realize that's only a part of the job. We don't just write the code, we develop professional software. This is why our clients choose NXGIT. Many companies can find programmers to generate code. However, few have the experience to produce professional quality software.

Our ability to develop code is only the beginning of our capabilities. Being a “custom” firm, NXGIT is able to provide our clients with a variety of services. A few of the services available from NXGIT include:

- * System Architecture and Design Development
- * Project Management
- * IT Support
- * Testing and Quality Assurance
- * Feasibility Studies
- * Technical Documentation and Training Services Placement.

Basically, we have everything you need to launch and grow a successful digital business. We design experience for your customer that they will love to stay a little more with you. Every impression counts when it comes to capturing customers online. Now, more than ever, your online image is essential to the success of your business. A fancy design is not enough for your site; now a days, users are demanding websites that are user friendly, informative, attractive, and accessible as well as responsive to all devices.

Areas of Expertise...

NXGIT consultants have experience in many different aspects of the development process. Because we are a custom firm, there are no limits on what projects we can undertake. It is this ability that has enabled NXGIT to accumulate experience in so many diverse areas. A few of these include:

- Application Design, Development, and Testing (GUI, Database, etc.)
- Software Development (HR, ERP, Inventory, Accounting, Manufacturing and many more)
- Web Development
- Web-Enabled Applications
- Engineering, Scientific, and Data Collection
- Point-of-Sale and General Business Services Applications
- System Architecture and Implementation
- Client/Server Applications and Distributed Systems
