Testimonials

Classima Theme at Envato by binsent123 from Australia

"Classima has a very responsive design and has a very user friendly customizability. Being new to the industry and having tested other classified Wordpress themes myself, I can say that Classima is by far the easiest to work with and it has built in features which you would usually pay extra on other themes.

Most importantly, the customer service of the people behind this theme is superb! I have had a plethora of questions (being a beginner) and they have patiently guided me through the process.

Cheers to Radius Theme for an excellent product and excellent aftersales support!"
