About Us

Ringer Soft Limited is a full-service interactive software company that helps clients succeed by creating outstanding digital solutions. We provide fully customized software & IT solution for industries, business enterprises and educational institutions to fulfill their needs. We have a pool of balanced and creative designers, software developers, web developers,,customer service representatives and sales and marketing professionals. Delivering highly integrated software like ERP & Cloud solutions with best returns to our customers will always be our highest priority. We have successful track record of delivering innovative and cost-effective technical services to customers in both corporate and public sectors undertakings.

Our Strength

Our strength lies in our ability to create and position a team hand-picked for every assignment. The job may be on-site or off-site, the team gets ready to take up the challenge in no time and to deliver the results on time.

Convergence

At Ringer Soft Ltd., the first step is to understand the client/customer's enterprise and their requirement, the complexities of the business processes, operations and priorities. This helps us to offer solutions that provide business value and are tailor-made for specific business needs.

Clients

Ringer Soft Ltd. has been chosen as the preferred agency to design, deliver and manage the Web-Based Solutions of a very large number of clients that include Government, Educational, Corporates, Hotels and others. Their continued trust on our ability makes us the intelligent choice.

Apart from our total commitment to our customer, the following is what sets us apart:

Experience

We have work experience of nearly 6.5 years (as of December 2021) in the relevant fields Provide ERP Solution, Web Based Software Development, Website Designing, Digital Transformation & other IT enabled services.

Focus on Client

Our first step is to LISTEN and that is what makes us best in our industry. We take every step to understand our clients' requirements, and to find solutions that meet them or exceed.

Testing

Our dedicated team of skilled software testers provide a full range of quality assurance services (QA), including software quality testing, test planning, test execution, reporting and control of software development processes.

Ringer Soft Limited

Your Thinking, Our Innovation.

About Us

On-Time Delivery
Our experience in IT field, our expert programmers, testing team, and effective project management, help us to implement and deliver our projects on time. We have received excellent evaluations from our clients for on-time delivery, meeting correct functionality and usability.

Implementation and Operational Support
Ringer Soft Ltd. believes in building a relationship where customers perceive they have been given more in attention than they expected. Our Customers are "touched" positively by the service, and remember the experience when the time comes to buy or recommend again. Our maximum response time is 24 hours during the week, but we usually respond to our customers immediately.

Our Team
The quality and zest of our team set us apart. It is our HR policy to hire and retain only the highest quality people who fit with our open and client-focused culture and values. Our team is committed to our clients' projects and their growth. We also nurture personal growth for our team by creating a challenging environment with opportunities that helps them to learn and develop to become leaders of tomorrow. Intermediate training programs are organized for skill development, latest technologies, project management, customer care and back office operations

Confidentiality

We guarantee a high degree of confidentiality and security in every project. All clients' information remains strictly confidential. Ringer Soft Ltd. never discloses any client information under any unauthorized circumstances.

Quality
We have developed an effective software development process which ensures the high quality of service and successful delivery to our global clients. All processes are well documented, institutionalized and evaluated, ensuring that we become more effective and efficient with each project we work on.

Continuous Improvement
We have regular training in key development technologies, software engineering practices, management methods, QA standards, R&D on new technology products, continually evaluating our own processes and methodology, mentoring tech leads to meet the requirements for changing technology and improving team capabilities. At Ringer Soft Ltd. We aim at providing our customers quality service levels.

Mission & Vision

MISSION

Our mission is to provide users with the highest quality software solutions to help them achieve operational excellence.

VISION

Our vision is to contribute to the growth of IT sector nationally and internationally.

CORE VALUES
