Products (Feature Reached cutting-edge innovative Solutions)

- **Attendance & Payroll Management**

Now a days, attendance software is the essential part of an organization. It made easy, accuracy, cost effective environment. Easily capture time and attendance data for accurate payroll processing, labor law compliance, and insight into workforce productivity. Management can easily track current status of their organization. Also able to reduce man power and unauthorized time tracking basically for OT.

There are various Attendance Software in the market. Don't think all is suitable for you. To take decision about best, we highlight some of features of our software.

- **School Management.**

Web based **VC School ERP** is built on three key features. Increase productivity, efficiency, proficiency and cost-effective in the entire management, develop faculties with creative mode and meet enrollment and staffing goals and make a new generation student. Handle all system of school with one.

VC School ERP simplifies school management, helps to reduce manual works and generate complex reports effortlessly. Users are divided with different roles such as teachers, accounts, principal, administrator etc. Parallel campus provide simplicity of usage than complex features.

- **Garments Store Automation.**

Store Department is the heart of the Garments factory. To automate and upgrade the existing system by increasing its efficiency and effectiveness we are providing VC Garments Inventory software. Our objective is to implement a cost effective and efficient system in your garments store section. Our software reduces two types following existing problem from your store department to be effective and efficient.
