Innovation Garage Limited

Who We Are?

Innovation Garage Limited is a distinctive effort towards developing barrier-free, accessible solution as a contribution to digital area. We have started our venture with full of commitment for providing technological solution through our innovation and expertise. With having long-term exposure in Tech Industry, we are facing tons of new challenges in our day-to-day life. Our expert professionals identify the core problem and come up with innovative solutions to make easier in human life. In 2017, we launched Innovation Garage Limited and took an initiative to start our venture with an intention to create an impact and value in the IT Sector. We are not only providing our service to contribute our socioeconomic growth but also creating opportunities for our community by developing a sustainable ecosystem. We motivate our young generation to develop their skill in IT Sector and provide opportunities with diversified projects for great exposure to create future leader as well. Our innovations are result of inquisitive research and the tenacity to keep until we are done. We possess expertise to include extra feature to the software and system we develop for people with disabilities. That is what make us unique and differentiate from others.

Our Insight

Vision Our vision is to innovate and explore the NextGen technologies, generate and implement new ideas and techniques for endeavoring user-friendly, accessible, inclusive and efficient digital solution.

Mission Our mission is to ensure speed, accuracy, security, accessibility for everyone through our innovation and accelerate the digital transformation of Bangladesh. We also have an aim to develop scalable, available and complex but affordable and user-friendly solution. We strongly believe that, we have what it takes to deal with challenging problems and inventing solution for those.

OUR CORE VALUES

- Accessibility
- Partnership
- Transparency
- Integrity

Our Innovation

Accessible Doc Reader

Innovation Garage Limited has developed an important innovation for persons with visual disability. The Accessible Doc Reader overcomes a previously insurmountable problem for people with a visual impairment who want to read and work with doc, rtf and text files. The Accessible Doc Reader has a range of functions, which make DOC, RTF and TXT documents accessible to visually impaired smartphones and mini tablets users and to older people and those with learning disabilities. The Doc Reader filters the text out of a document and presents it in a user-friendly interface.

Mudrakkhi Money Recognizer

"Mudrakkhi" Banknotes Recognizer is very crucial part of ICT, which can play a vital role to enhance the opportunities of income generation of persons with visual disabilities by improving their access to agriculture, markets, health care, micro-credit, and government services, create direct employment opportunities, and provide training, education, storage, and marketing of their informal sector activities. Because this software will make the all banknotes accessible for the visual impaired people. Under this project while the persons with visual disabilities are often isolated and lack the means to take collective action, this software can empower their

communities and enable them to voice their concerns publicly to the responsible groups. The real benefits of the Banknotes Recognizer are related to its ability to make critical information easily available and break down barriers to participation. Through this software not only the literate persons with visual disabilities, but also the low educated persons with visual disabilities can access to alleviate poverty and unemployment.

Accessible PDF Reader

Accessible PDF Reader is a special software which compatible with screen readers for persons with visual disability. This software can be converted into audible Bangla speech from PDF. Not only the VI persons but also the senior citizen with low vision, persons with learning disabilities, and dyslexic persons also cannot read by seeing. They will also be able to read Bangla PDFs with the help of audible speech feature of the Accessible PDF Reader.
