Name	Description
Pranto Kundu QA Engineer	Pranto Kundu is working as a Software Quality Assurance Engineer in Harris web works. He is a graduate in Computer and Science and Engineering (MAKAUT, India). With around 2 years of Software testing experience, He has hands-on skill on both manual and automated testing. He has also developed skills on non-functional (e.g: Load, Security, Stress, Usability, Accessibility, Reliability etc..) testing tools by working on different types of project. He has skill sets and knowledge of Agile and DevOps methodologies and also has experience in CI & CD development and testing. He has a very good understanding of Magento2 e-commerce architecture and also has the achievement of "Adobe Certified Professional—Magento Commerce Developer" Certification. In his free time he likes listening to Music and Travel.
Helal Uddin Patwary, Magento Developer	Helal Uddin Patwary is a coder who loves to solve problems and explore new technologies. He has a Bachelor degree in computer science and engineering from BAIUST. He has been working in software industry for one and a half years. During this time, he worked with technologies like Magento 2, PHP, MySQL, JavaScript, jQuery, XML, CSS, Less, C, C++, C#, Java, SQL Server, HTML, Git and Visual Basic 6. Additionally, he holds Zend certification and Professional Magento Commerce Developer certification from Adobe. He has started with Front-end development and now he is working in back-end development as well. Currently, his responsibilities include Magento theme development and extension development. He is confident that he is on his way to be a full stack Magento developer. In his personal life, Helal is passionate about sports and traveling.
Ahsanul Hoque Software Developer	Ahsanul Hoque is a senior at Islamic University of Technology. Currently doing an academic internship with Harris Web Works. During the last few years, He participated in several Competitive programming contests and Hackathons. Here in Harris Web Works, He is learning about the software development process. We hope he will have a good understanding of LAMP stack and magento framework by the time he finishes his internship here. However hard Magento is, He aspires to grab a good grasp over it. After office hours, books accompany him alongside movies and music. His weekends are preferably spent by roaming unknown places. There's a profound quote by Albert Camus that he lives by, "Should I kill myself or have a cup of tea?" He says "Let's enjoy a cup of life."
