Company Overview

Offshore IT provides result-oriented marketing solutions for online businesses. Beginning with post-production in 2010, we've moved on to full-fledged marketing solutions over the course of time.

We, as sole proprietors, are great believers in quality work that helps companies achieve their goals and thrive in the industry. Our aim is to Attract, Impress and Convert more opportunities for every business, starting from small-medium to large e-commerce businesses, photographers, marketers, and content managers.

We're determined to improve your company's visibility among a large audience and provide sales-driven results.

Company History

Offshore IT is one of the growing parent companies. It was established in 2016 with its sister concern Offshore Clipping Path, which was launched back in 2010. Later we spread our wings by founding the digital marketing agency RankUpper in 2017.

2016 , 13 June

Offshore IT is the leading B2B goal-oriented marketing solution for businesses that aim to Attract, Impress and Convert more opportunities.

April, 2010

Offshore Clipping Path is a trusted all-around Photoshop service provider that provides high-quality images from commercial photographers to eCommerce merchants to help them hit their revenue goals.

October, 2016

Nidhu Foundation is a humanitarian organization that envisions making the world a better place to live in peace and dignity through charitable activities that provide basic necessities to those in need.

January, 2017

RankUpper is a full-fledged revenue-generating B2B digital marketing agency that offers all types of digital marketing support for both small and large businesses looking to positively impact their growth.
