About Cloud Institute

At the Cloud Institute our sole purpose is to empower the community by ensuring an excellent standard of learning. In pursuit of that mission, we have been constantly working since our establishment in 2019. We believe in making the leaders who will shape the future of our country. We are dedicated to serve world-class IT training programs to make our young generation skilled on a global standard. And world-class training programs need a sophisticated training facility. That's why we have set up the best facility in Dhaka & Khulna.

VISION

To empower the community by ensuring an excellent standard of learning.

MISSION

To share our knowledge for the betterment of individuals and the society. We will keep contributing to the IT sector to make the Digital Bangladesh initiative visible.

COMPANY OVERVIEW

Our campus is currently situated at Dhaka & Khulna. We have a total of 3,000 sq. ft. floor space with 3 digital computer labs, 1 seminar room, 1 full-fledged practice lab, and 6 of the best instructors in the industry at both campuses. We have developed a student-friendly culture here. Our students get 24/7 support for the rest of their professional lives once they enter our campus. We have joined hands with some of the big companies in the industry via our Job Placement feature to help our students get attractive job opportunities right after they complete their courses. We also offer internship programs to our students to make them better-equipped for the job market.

STUDENT'S BENEFITS

JOINING THE FASTEST GROWING INDUSTRY

According to Google trend, Graphic, Web and Digital marketing is the fastest growing IT industry among all. Businesses are now highly interested to promote them digitally and globally. So business graduates should have a crystal clear idea about the future prospects of this platforms.

FILLING DEMAND & SUPPLY GAP

There is a huge gap between the market demand and IT professionals. Lot of business owners are looking for professionals who can market their products and services online, design their brands and present their businesses. But the number of highly skilled IT Professionals are still poor. So our young and to be graduates can grab this exclusive opportunity to know more and clear ideas on each terms.

TO BE AN ONLINE ENTREPRENEUR

Students who are not interested in a regular job can be an online entrepreneur. S/he can set up his own online business, blogs or e-commerce sites, and can utilize IT skills to boost his/her own business.

GAINING IT EXPERTISE

Gaining knowledge in desired IT field is what we are focusing. The sector is massive and the skill is highly demanding. So to adapt with the changes of technology, to get advancements, first we need to know about its steps. And then gradually it can create IT awareness which is very helpful for students.

ADDING VALUE TO CV

Employers now a days are not just looking for good academic result but also technical skilled candidate. So gaining such knowledge will add more value to your CV and practical field.
