ABOUT US-

We have entered the age of digital technology. Computer exists everywhere from a small kiosk to giant corporate house. Amongst all the sectors, information technology is following and will pave a path for faster growth. Infact e-business is becoming the most favored word with corporate as it took over from traditional business practices.

A clear perception of the growing requirement of the corporate world in the area of IT has enabled SRA to develop programs of specific relevance for the present and the future.

We are a professionally recognized software development company having huge experience in developing custom software development and application development best match to your need and requirements. We have expertise in working with a variety of customers from companies to individuals. Our successful assignments with client companies have established our reputation as superior providers of IT solutions.

We believe in teamwork. With every new day the quest for acquiring new competencies continues. Forever searching, experimenting, innovating, learning, moving ahead with our sincere efforts and dedication, shaping the future, and challenging our competencies to create new opportunities, is a never-ending process in the company.

At our professionals don't work on the cutting edge - they define it. Our reputation for excellence and delivery is a direct reflection of our people. We aim to carve a position in the forefront, and it is our continuing goal to gain the trust of our clients. Our Motto is to serve the purpose of our clients with perfection.

We also have special expertise in custom software development – providing specialized products, IT services and custom end to end solutions to our enterprise customers. We gain competitive advantage from these distinctive capabilities and have developed the ability to implement and manage complex IT systems in changing times with greater effectiveness than many competitors.

Mission:-

Providing high quality software development services, professional consulting and development outsourcing that would improve our customers' operations.
