Company Profile

Meet Core Devs Limited, a cutting-edge Blockchain and Automation development software company that is deeply entrenched in the fields of custom development solutions for reshaping the business landscape.

Key Highlights of Facts
In Figures

c o r e d e v s . l t d

How We Started?

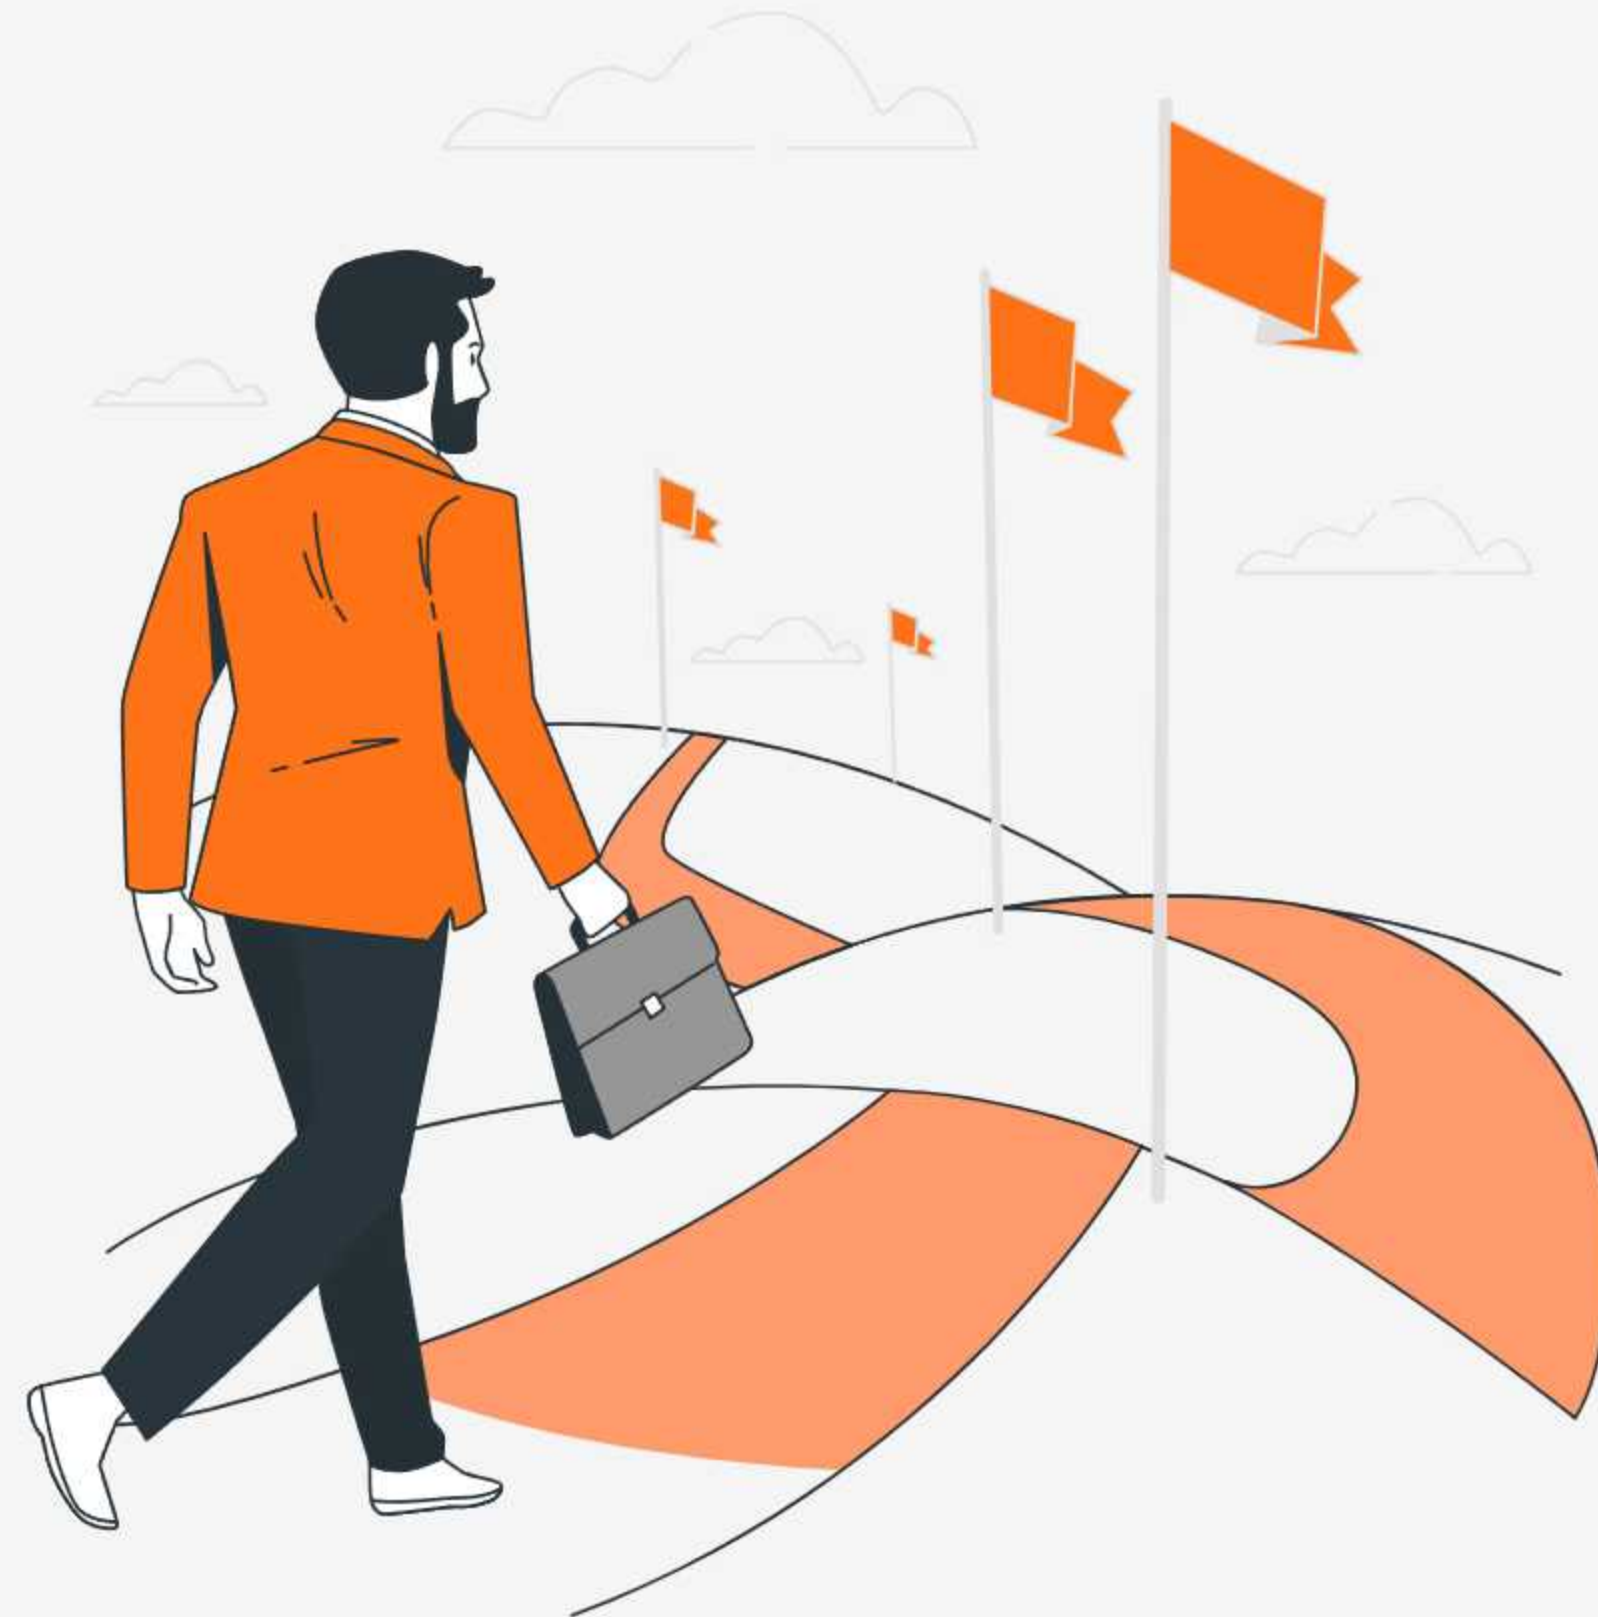

Core Devs started on a two-room apartment on October 10th, 2020. We were a bunch of youngsters with eyes full of dreams. We wanted to bring the change. We wanted to be the change. From the starting day on we always strived for that dream. That's how our epic roller coaster journey began.

Who Are We?

We are a group of individuals who likes to dream and code. We like technology cause it's like magic; computers are our magic wands, and the programs we write are the spells. Once the perfect combination is met and boom! The magic happens. We believe in endless optimism, that' s why we try to be better than yesterday. We give it our all every day. We try to change an aspect of our or any other human ' s life for the better in every step. But we never forgot our humble beginning. So we stand against anything immoral no matter how lucrative it is. For the time being, we are focusing on coding only. But in no time we will expand our reach so that we can make a good impact on the other aspect of human life and society, continuously.

Vision

Core Devs's vision is to become **The Globally Leading Company** in various categories that could impact and improve human life.

Mission

Our mission is **To Bring The Change** to our society, living standard, and our way of thinking.

Our values highlight who we are and how we accomplish our mission

Endless Optimism

We make things possible beyond today's achievable. We strive for tomorrow. We are relentless in searching for the correct answers.

Highest Standards

We are constantly seeking better ways of doing things and challenging ourselves to learn and grow. We are never complete.

Moral Compass

We never forget our roots. We stand against all sorts of unethical, inhuman, and harmful practices under all circumstances and situations.

Connect

We are diverse, equal, and inclusive. We start by assuming the best. We are direct and transparent. We grow, celebrate, and have fun together.

Customer Focus

We always focus on the most significant impact and end result over any volume of activity. We take ownership when we see any customer in trouble, we make sure it gets resolved. We ensure our decisions are taken with our customers in focus.

What Do We Do?

1 Blockchain
Development

2 dApp
Development

3 Smart
Contract

4 SaaS
Application

5 Trading
Automation

6 Task
Automation

7 Web
Development

8 Data Scraping
and Filtering

Security in good hands

We build security into every software, none of our work has ever been leaked or hacked. The integrity and confidentiality of your data, as well as the security of the infrastructure is our priority.

What Our Clients Says About Us

Nils Spoelgen
Project: SMM Panel Automation
★★★★★

"Core Devs has been a great team to work with. During the development process of our tool we ran into a few issues that couldn't be foreseen. Shuvo and his team almost doubled the amount of working hours WITHOUT charging us for that. Great service where you can feel that the developers behind are doing their best to satisfy you. Nice experience! We'll be back. Thank you."

Sonni Chain
Project: NFT Smart Contracts
★★★★★

"It has been a really great journey to work on the project with Mahbub and his team at Core Devs. I started the project with some uncertainty and confusion about how NFT smart contacts will work an in the end, I've learned so much from the team, and they are super patient about explaining to me lots of detail. The overall process is super smooth and the final deliverable is beyond expectation."

Benjamin H
Project: Web3 Application Prototype
★★★★★

"Mahbub and his team were timely and delivered exactly what I had requested of them. I would work with them again."
