A MASAGE FROM THE MANAGING DIRECTOR

Muktodhara Technology Limited, In the current process of widespread globalization, we are meeting our customer's requirement is essential to the success of our organization. We can say that the years we experienced in the past are significant years and it is clearly seen that we have intensively delivery our best performance to focus on customer satisfaction.

On behalf of the Board of Directors, I would like to thank our valuable customers, Besides, I would like to make a special mention of our staffs' enthusiastic contribution in establishing our organization. The one thing I would like to present is that our leadership is a result of our employees. They have clearly made MTL one of the outstanding organizations. We know our highly trained software engineers apply their specialized knowledge to reliably and efficiently produce high quality service.

We are now in an ever-changing market environment. In such situation, we firmly believe that "trust" is the key element in persuading customers to choose our quality products. We totally accept that "trust" can create a "Win-Win Situation" for a long deeper relationship.

Our latest technologies and excellent service are diverse. We will continue our endless effort to serve our valuable customers.

In addition, we in MTL will intensively endeavor in latest technology, we are committed to provide best service. So in summary, I would like to thank again all those who have contributed relentless hard work and effort of the past to bring up here today and will continue to grow for years to come

- Md. Mizanur Rahman

A MASAGE FROM THE Chief Executive Officer

MUKTODHARA TECHNOLOGY LIMITED is a company that cares deeply about our connection to the world around us. Our employees have a passion for causes and organizations dear to their hearts, and we are committed to their having the time and energy to give back to the communities where we do business. We founded this enterprise as an Turnkey solution provider company for :- SOFTWARE DEVELOPMENT, WEBSITE DEVELOPMENT, MOBILE APPLICATION DEVELOPMENT, GAMES DEVELOPMENT, BPO, INBOUND/OUTBOUND CALL CENTER, Professional Training, Language Training, EDUCATION & CYBER SECURITY. And, we are a company that strives to stay one step ahead: of business trends, market conditions, and competition.

For example, we were among the first in our category to develop offshore resources, and now our Centers of Excellence. Staying one step ahead is good for our clients, our consultants, and our community. We look forward to what that brings in the months and years to come, and we hope you'll be a part of it.

- Mr. Partha Pratim Das

Software Sollution

If you're looking for a long-term reliable partner to realize new innovative ideas that will provide your customers with additional value and differentiate your business in a tough competitive environment, it is Muktodhara who delivers the result. From smart customization of the pre-developed platforms to full-cycle custom software development along the client's vision, Muktodhara is an experienced development partner to deliver cost-effective and reliable custom software solutions that match your unique requirements. Our services begin from analysis, moving through designing, development, testing and implementation to maintenance. Our applications come in all sizes, be it a one-table database, or a massive client-server application.

How it works at?

You tell us what kind of solution you need, how you want it to run, which business processes are involved for us to build a solution with a view to exactly fit your needs. Muktodhara always keeps in mind the idea of future business expansion, so your solution will be built scalable and flexible to be modified later as your business grows or transforms. Already from the project launch, you will recognize and appreciate Muktodhara's team technology skills, business domain expertise and smart project management – from initial requirements definition and business process modelling to user training and solution support & maintenance. Muktodhara usually suggests splitting the whole project into several iterations (well-defined periods of time with fixed goals and deliverables).

Such iterative approach has the following advantages: Transparency: Each iteration's delivery is done on time and on budget. Reliability: Each delivery is a subject for acceptance procedures to confirm all the requirements have been met. Time-to-market: Each delivery contains some of the expected functionality and can be put to use right away. Our

developers, software architects, analysts, coordinators and project managers take advantage of the Muktodhara knowledge management system and continuous process improvements. Project Management An extensive hands-on implementation experience allows Muktodhara to extract only the most efficient practices from all the used methodologies taking into account only real needs in the efficient, transparent and predictable process.

We provide mature and quality project management, focusing on the vital elements :

- ◆ **Project Communication**
- ◆ **Requirments Menagment**
- ◆ **Change Management**
- ◆ **Risk Management**
- ◆ **Quality Assurance**
- ◆ **Competence Transfer**
- ◆ **Reporting And Intermediate Deliveries**

ICT consultancy

OUR consultancy Service Offer:

- ◆ **Strategy Planning**
- ◆ **Assessment**
- ◆ **Procurement**
- ◆ **Re-Engineering Solutions**
- ◆ **Planning, Audits, Best Practices**

Muktodhara provides professional IT consulting services and solutions that help organizations generate competitive value by leveraging the power of technology. Through creation of new solutions and support of existing implementations, we work with clients to identify and realize opportunities to increase their return on investment, improve productivity, and enhance their relationships with customers, employees and partners.

our mission is solely focused on helping our clients leverage their technology investments to improve business performance. Reach out to us and set up an exploratory call to see how we can help YOUR business grow!

We consult for high-end technology implementation at clients' site or implementation of new technology according to the clients' requirement or upgrading, enhancing the existing facilities in the clients end with the new technology integrated with the existing one. MTL offers a full range of consulting services to help analyze your business requirements for effective implementation of solutions.

SOFTWARE DEVELOPMENT

Beside the hardware and network solutions; with design and development expertise in diverse platforms, best-of-breed tools and techniques, combined with industry best practices, MTL offers scalable end-to-end application development and management solutions from requirement analysis for deployment and rollout. We are developing software, related to garments- production management, commercial jobs, buying, accounting software for trading, manufacturing hous. We hope to come to you with desired software at a reasonable cost. MTL's services span the following application lifecycle stages:

Application Devolepment

Providing end-to-end development from requirement analysis for deployment and rollout.

Application Devolepment

Providing first, second, third line support and on-call support. On- call support further includes Gold (24x7), Silver and Bronze support.

Application Maintance

Changing or enhancing software to meet changing or increasing business demands in the post-rollout phase of an application

APPLICATION INTEGRATION,MIGRATION or TRANSFORMATION :

Replacing, migrating and integrating legacy or bespoke systems with COTS products.

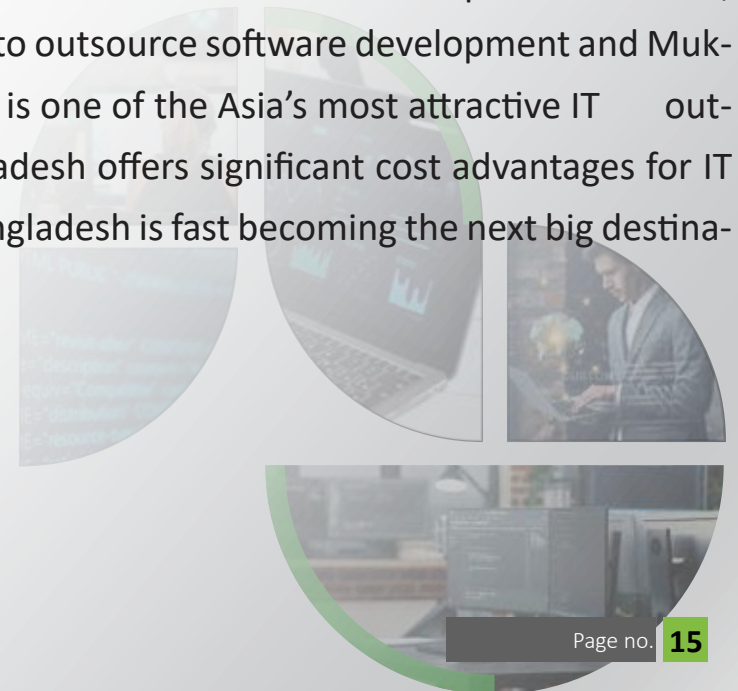

Application Mangement

The application manage ment layer cuts across all software engineering activities listed above. MTL takes complete ownership of the outsourced suite of applications as per the agreed scope and manages the support. This typically involves transition management, project management, proactive risk and scope change management, quality management, SLA management etc.

Outsourcing Software Development

Over the last few decades, software development outsourcing has experienced tremendous growth. Around 70% of all companies now outsource their entire development process! With our skilled and enthusiastic developers team, Muktodhara provide a wide range of services for companies willing to outsource software development. These include: outsourcing software development, outsourced IT managed services, outsource web development, mobile development outsourcing, IT infrastructure outsourcing, IT staff augmentation services. Our hourly rates are much lower than are in European, Indian and the US. Also, outsourcing software development services offered by Muktodhara eliminate extra expenses on infrastructure, office, salary, and training. We value clear communication and transparency, going so far as developing proprietary software for automatic code quality assessment and time tracking that help our clients get a clearer view of what goes on behind the scenes, how their dedicated development team is spending their time, and how reliable each line of code will be once the project is delivered. The cost advantages of outsourcing software to Bangladesh is significant when compared with other possible destinations for offshore software development like India, Poland and Sri Lanka. Cost reduction is mainly the first reason why companies choose to outsource software development and Muktodhara is the right chose as a outsourcing software developer company. Bangladesh is one of the Asia's most attractive IT outsourcing destinations after India, particularly for clients in the North America. Bangladesh offers significant cost advantages for IT outsourcing – both in terms of worker-wages as well as cost of infrastructure. Now Bangladesh is fast becoming the next big destination in outsourcing. The main reason is :

1. Salaries of programmers in Bangladesh are less than India,
2. Philippines, Vietnam and Eastern European countries.
3. Internet bandwidth charges in Bangladesh is currently the lowest in South Asia.
4. Office space in Dhaka (Capital) is below 20% of that in Delhi and 40% of Manila.

Why Choose Us?

- Qualified Developer Team
- Good Command of English
- Cost Reduction
- Quality, Security And Timing

Web Sollution:

Our business-driven approach separates us from the typical web design and development companies. We focus strictly on internet technology. Using our technical expertise and web marketing experience, we are able to help our customers get the most out of the internet. Our custom web development services combine technology with business concepts that help make your web site easy to use and understand. Our goal is to provide you with what works best on the web and for your business. Web design and development starts with your ideas from which our team facilitates a website solution that :

- Provides clarity in the message; concise relevant information that
- visitors can easily digest
- Creates captivating images that tell the story even without the words
- Enhances functionality so your visitors can easily man oeuvre from
- page to page or concept to concept
- Is up-to-date with today's usability standards and;
- Is compatible with different browsers and platforms

The web is a new and different medium for communication and requires a different viewpoint and skill set to use it in the most effective way. You need web consulting to get more return on your investment in your web site. We can help you get the most effective solution through:

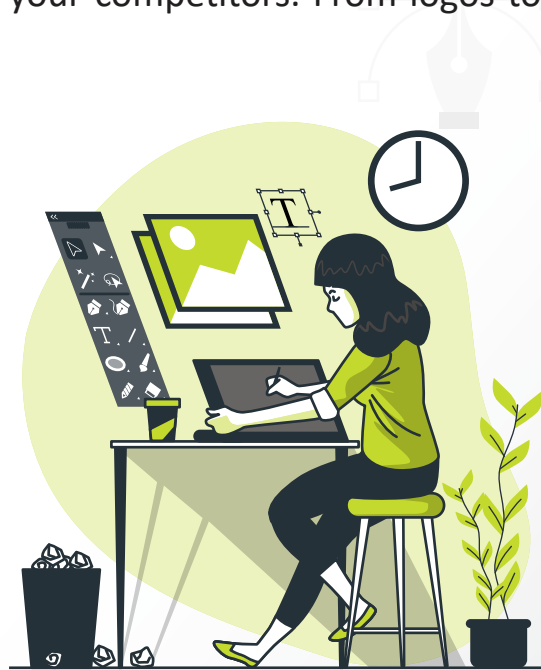

- | | |
|------------------------|-----------------|
| ■ Website Development | ■ Web Promotion |
| ■ Web Multimedia | ■ Web hosting |
| ■ Intranet Development | ■ E-commerce |

Graphic & Multimedia Solutions

We offer a wide range of design skills that can benefit your marketing campaigns. It's a competitive world out there, and making a good first impression is vital to communicating your objectives and establishing relationships with prospective clients. That is why developing a professional image and eye-catching materials is an essential part of an effective marketing strategy. Our design team works collaboratively to give your company an eye-catching brand to put you ahead of your competitors. From logos to print work to packaging, we deliver inspired, effective, intelligent work for your brand.

We offer our busy entrepreneurs and professionals the ability to get more work done in less time. Whether that means impressing your clients or selling lots of products on your business, we've got the knowledge, experience, and expert hands to provide what your graphic design needs may be. Many times

when we cannot say something with the words we take the Help of pictures and signs to make others understand us. The language of Symbols is used in ancient's times as well but here we would talk about one of the fields of the visual arts that is graphic designing. Using Different digital tools on a computer a designer makes an effort to provide the best graphic designing services.

The tools mostly operated in this regard are Photoshop, illustrator, Corel Draw, photo retouching, and other multimedia. They need to be used Effectively to make appealing graphics which can grab the visitor's Attention within a few seconds.

Programming

Our experienced and combination of young and talented programmers have a wide range of experience in developing systems.

Some of our Honorable Clients

Cross Functional Alliance

Muktodhara Technology Limited has own identity in local and international market though Muktodhara Technology Limited works collaboratively with several partners. In terms of collaboration type few are joint venture initiative, such as – Orion Edutech Pvt. Ltd.

As I described in intro that Muktodhara Technology Limited has strong business identity in strategical plan, software implementation, business analysis, software development expertise, magical improvement plan to increase presence of any business, strong employment ethics etc. However, Muktodhara Technology Limited feel that collaborative business can gather extra knowledge and share the resource with other business which works business to business partnership model. The model helps to give output of any type of implementation.

In 2006, Orion's journey started with ITES/BPO industry skill development whose runaway success led us to successfully skill workforce for diverse industries including healthcare, logistics, retail, apparel, hospitality among others. With an incredibly high placement record across all sectors, Orion made its next successful foray into CSR skilling partnering with some of the largest corporates in the country.

Over time, working closely with corporates for skilling, Orion saw a huge need for a skilled flexible workforce and ventured into it. Orion's success has continued in the staffing vertical too providing efficient resources minus the hassle of training time and cost for partner corporates, creating a win-win equation.

With Orion's rapid growth and extensive geographical spread, we identified an urgent need to transition from traditional classroom training to technology-enabled, cohort-based live online training as well as self-paced on-demand learning for constant education and growth of our past and present students, and staffing payroll. This led to the digital transformation and growth of Orion to train and upskill them across core and soft skills. At Orion, we are charging towards forging the next generation of nation-builders for India

WE ARE PROUD MEMBER OF

Conclusion

Today's digital scenario having a website for your business is necessary. If your business doesn't have a website, it will ultimately lag behind in the long run. Again, just have a website not enough. It should also be attractive and able to fetch business for you. Muktodhara Technology Ltd is a software development, website design and Digital Marketing Solutions company in Bangladesh.

We are the best options for your digital solutions.
