03

We assure to increase your account's value by generating a loyal customer base. experienced team specializes in handling everyday tasks seamlessly to grow account and make sure you get the best return on your investment

Frequently Asked Questions

What is dropshipping?

Dropshipping is the model where Ecom Solutions lists products that other merchants and wholesalers actually possess and ship to our buyers. Dropshipping is great because our clients (and ourselves) do not have the inventory costs that suppliers have. If a product does not sell, we don't have dead inventory as we never possessed it in the first place!

What does FBA stand for?

Amazon FBA stands for Fulfillment by Amazon. This is the business relationship established with Amazon that allows storage, and fulfillment of products purchased by third party sellers (such as our clients) from all of Amazon's fulfillment centers nationwide. All products that are stored and part of the FBA program are PRIME eligible.

How is your service different than other service providers?

At Ecom Solutions, we are committed to provide services the right way. Which means fulfilling orders from approved wholesale suppliers rather than fulfilling orders from online retailers like Walmart and Sam's Club. We have partnered up with USA's top wholesale distributors to fulfill our customer's order which fulfills Amazon's terms and conditions.

How will I get paid?

You get paid based on the sales of the Amazon automation store. Customers buy from your store that Ecom Solutions has built for your business. The passive income profits are then placed into your seller store account balance. Ecom Solutions has no access to this balance and cannot make transfers. We invoice for our fees after all profits are calculated at the end of the month.

What will be my level of involvement?

You need to do nothing after initial company setup is complete. Sit back, relax, and let the team at Ecom Solutions list and sell products. We manage everything.
