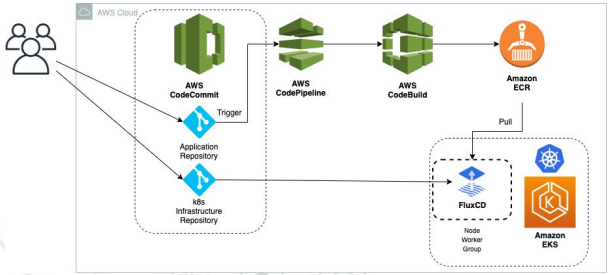
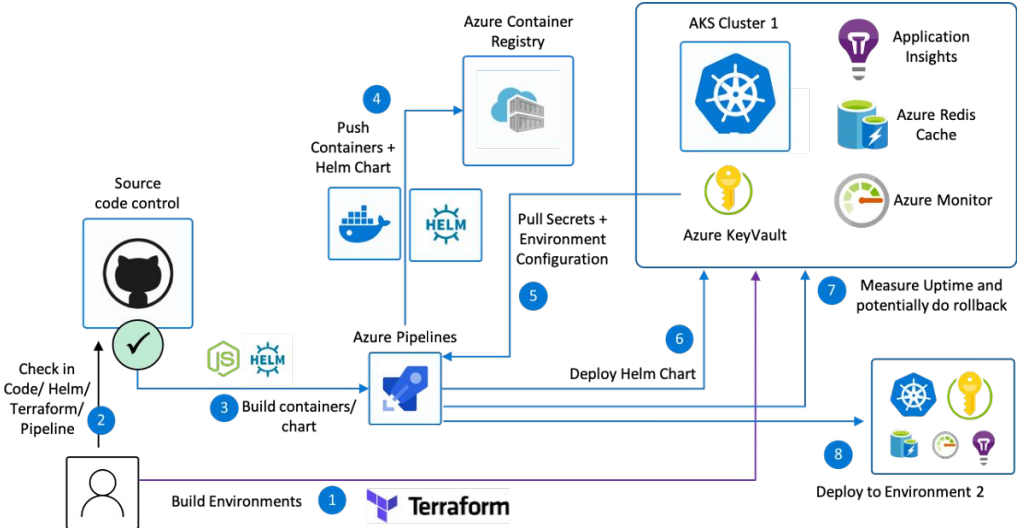
24x7

DevOps As a Service - DaaS

- AWS Consulting Services
- Cloud Migration Services
- 24/7 Cloud Operation
- Site Reliability Engineering Service
- DevOps Consulting Service
- Modern Operation for EKS
- Support for AWS, Azure & GCP
- Infrastructure as a Code

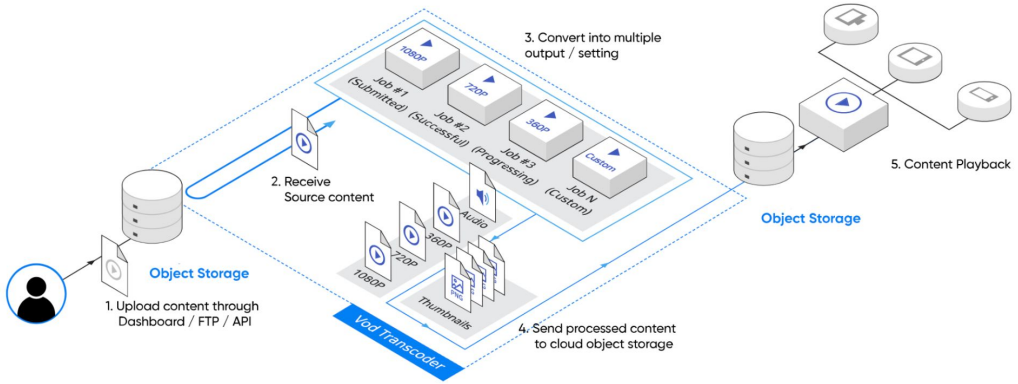




Video Transcoder Service

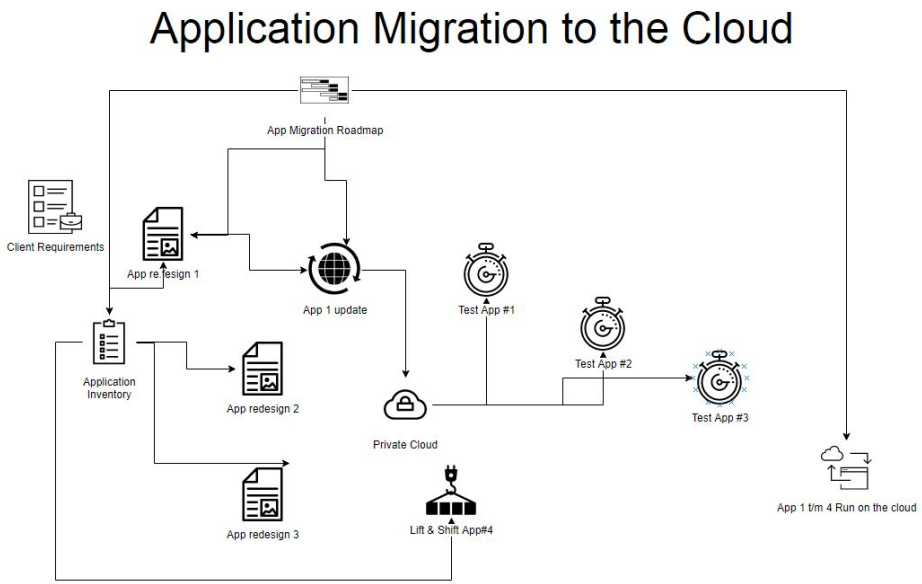
- Video Transcoder is a highly scalable, easy-to-use and cost-effective way for developers and businesses to convert (or “transcode”) video and audio files from their source format into versions that will playback on devices like smartphones, tablets and PCs.
- Video Transcoder uses a JSON API, and we provide SDKs for Python, Node.js, Java, Go, Rust, PHP, Laravel, and Ruby.

How it works



Application Migration to Cloud

- Migrate your monolithic applications to cloud
- Make container based application
- Also migrate to serverless component from legacy servers.



Gamification

- Lead Generation Games
- Games Leaderboard
- Campaign & activation
- HTML5 white label
