INTRODUCTION

Who We Are ?

NapTech Labs Limited Bangladesh based Software company in house development and publishes Games and Apps. Our focus is on creating innovative real-life solutions through the latest smart technology for Mobile, Tablet, PC, & Web platforms. At NapTech Labs, our primary focus is mobile game industries like Android, IOS, and a particular emphasis on cross-platform game technologies like HTML5 Game, Facebook Instant Game, etc. We can run those games on all devices like mobile, pc, tablet, web-platforms, etc. We are also working on Augmented Reality and Virtual Reality games and apps.

Starting Journey of NapTech Labs

During COVID-19 lock-down, when the whole world shut down that time, we grew up. We realized that by using this time properly, we could make our dreams come true. The lockdown time, many people were sitting at home, downloading movies from Netflix. Then we thought, why don't we make a Netflix! We have a lot of time on our hands; We have the energy to make something big. Recently Microsoft and Twitter announced that they would work from home; they don't need an office. But we have been working from home since the beginning of the lockdown, and we are also virtually working with our Office.

Mission

Our clear vision is followed with persistence and determination and whose goal is to provide the best impressive games and IT products and services with the best possible entertainment value. This approach seeks to achieve quality and service excellence while maintaining the team's highest talent.

Vision
