About Us

At OSS Network, we see sunrise four times a day; BULGARIA, Bangladesh, NEPAL and INDONESIA- through our four offices' windows. Since the beginning, we've been focusing on simplifying the complexity of life and workplace by turning our extreme innovative ideas to high quality business solutions and services. We do software development, but our philosophy leads us doing something more than that - we inspire a greener world and help sustain a better work-life balance!

With a group of the world's most innovative developers and subject matter experts focused exclusively on solving complex problems, we know what exactly to do, and how we could do it like a maestro. We believe being great at something is just to start with. We set ourselves goals we know we can't reach yet, because we know that by stretching to meet them we can get further than we expected. We are changing the world everyday through our extreme innovations enabling excellence.

Our Philosophy

With a view to connecting and simplifying the world's information for building an empowered society, we exist and operate our business. Since we believe our each progress results in social empowerment and equity of opportunity, we are pledged to enhance standards of living through a sustainable information ecosystem at work and at life.

Our success relies on how comfortably we accomplish and how easily our consumers get the experience, say, like sipping a cup of tea!

Mission

To enable our clients achieving business goals through optimization of operation with the use of our innovative products and services

Our Credentials from our valuable customers

"We have been working with OSS from its very beginning. Aside their expertise, they are also extremely passionate and sincere about the deliverables. The best thing that I like about OSS is: they never miss deadlines. I really enjoy working with the team and wish them success in all their endeavors. Best wishes."

Damir Petrovice
Head of Service Assurance
NAK, Tehran, Iran

"In its industry the name OSS can be easily distinguished. The way they manage a project is truly noteworthy. We worked with OSS in several projects, and they never disappointed me for a single moment. I believe they have a bright future ahead."

Ferdi Widianto
Project Director
Ericsson AB, Region Middle East

"I know OSS since its origin and formation. The trait that I like most about this organization is their consistency. They are always on track, cautious in each step, and crazy about idea generation. The payoff line, *enabling excellence*, I think fits just with OSS."

Md. Shah Alam
Managing Director
Optimum Solution and Services, Istanbul, Turkey

"To me OSS is *confidence*. They are very positive, soulful, and full of energy. Their mission, vision and philosophy assure me that they do not actually operate to earn money. Their promise toward a greener environment, a healthier life, and finally an empowered society makes me feel about my responsibilities! I wish OSS to be a role model for the other organizations well."

Tanvir Hossain Khan
Senior Manager, Engineering Operation
Airtel Bangladesh

"I am happy to say that in a very short period OSS proved its expertise and capability. It is all because of their strong knowledge base and restless effort. I wish them all the best."

Riaz Azmatullah Khan
Chief Technical Officer
Telecom Network Solution and Services, Dubai, UAE

"It was a pleasure to work with OSS while developing tools applications for mobile operator in Middle East. They have deep experience of tools integration into data base and OSS. The organization has always demonstrated great attitude during the end to end project life cycle. I sincerely appreciated my working experience with OSS and highly the organization for handling such development and customization of tools set while delivering complex projects."

Tony Salim
Head of Solutions
Ericsson Middle East
